1. Overview

1.1. Purpose of this document

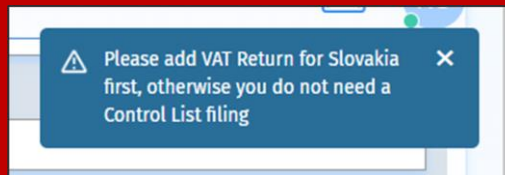

The purpose of this document is to provide guidance, context, and instruction for users required to file Control Lists as part of their VAT Returns.

2. Configuration

2.1. Configure an Entity for Control Lists

Note:

A Corresponding VAT Return needs to be configured before this step. The following error will be displayed if no VAT Return exists.

To configure the Control List, complete the following steps:

1. Go to the **Settings** menu.
2. Select **Entity**.
3. Select the relevant Entity to be configured.
4. Chose the jurisdiction (Slovakia)
5. Click **Visit This Page**.

Group Name
RalpR DE

Entity Details

Entity Name	Unique Entity Code	Country	In Scope	Entity Status
Ralp INC	2021	Denmark	Yes	Active
RalpR DE	2020	Poland	Yes	Active
CZVATGROUPEST1	CZVATGROUPEST1	Czech Republic	Yes	Active
CZVATGROUPEST2	CZVATGROUPEST2	Czech Republic	Yes	Active

Jurisdiction Country Details

Jurisdiction Country	VAT Number
Poland	PL112233
Slovakia	SK1222356

Entity Details

Entity Name: RalpR DE

Unique Entity Code: 2020

In Scope: Yes

Entity Status: Active

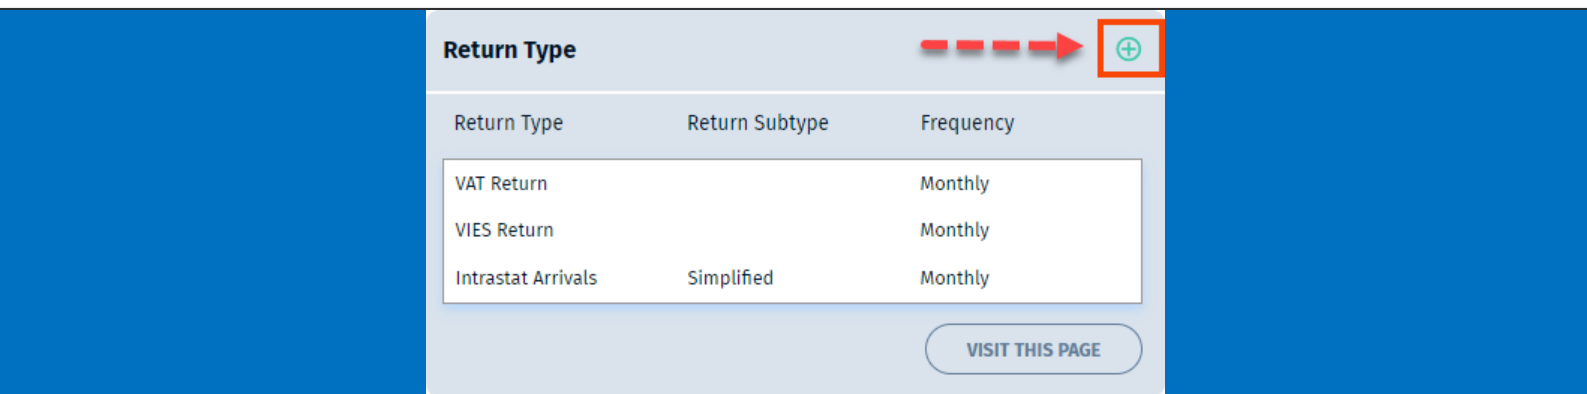

Registered Address De

Street Number:

Street Name:

6. Now go to the **Return Type** section.

7. Click the + button to add the new **Return Type**.

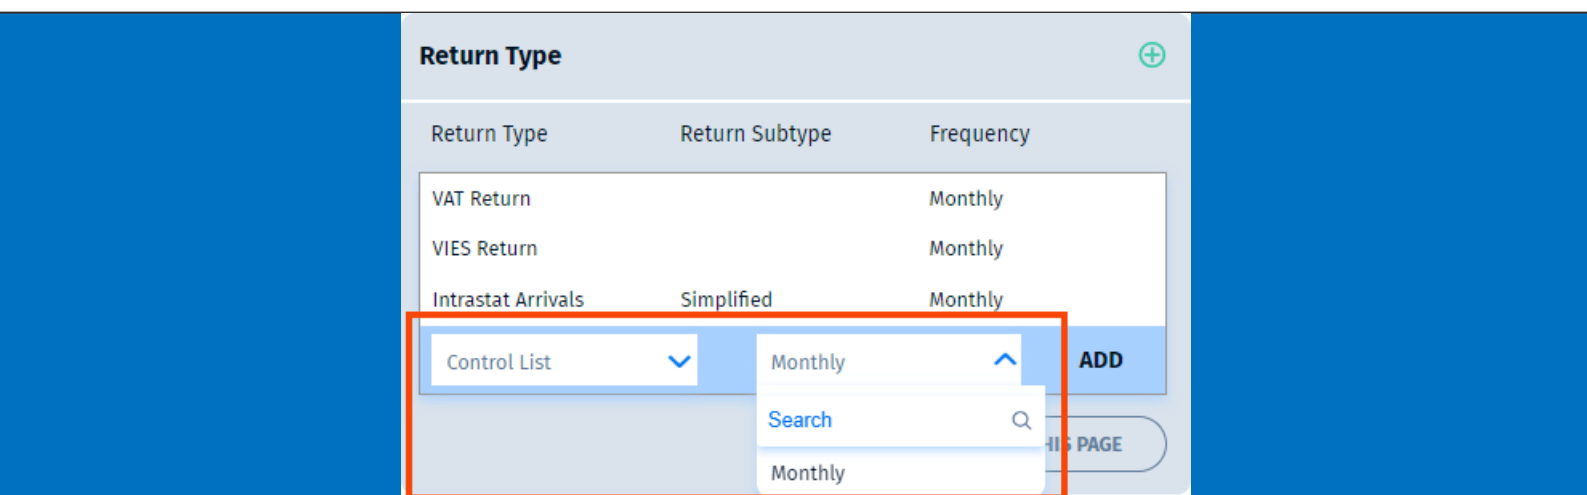

The screenshot shows a form titled "Return Type" with a table containing three rows: "VAT Return" (Monthly), "VIES Return" (Monthly), and "Intrastat Arrivals" (Simplified, Monthly). A red dashed arrow points to a green plus button in the top right corner of the form.

Return Type	Return Subtype	Frequency
VAT Return		Monthly
VIES Return		Monthly
Intrastat Arrivals	Simplified	Monthly

VISIT THIS PAGE

8. Select **Control List** from the *Return Type* drop-down menu.

9. Select the relevant **Frequency**.

The screenshot shows the "Return Type" form with the "Control List" dropdown menu open. The "Monthly" frequency is selected. A red box highlights the dropdown menu and the "ADD" button.

Return Type	Return Subtype	Frequency
VAT Return		Monthly
VIES Return		Monthly
Intrastat Arrivals	Simplified	Monthly

Control List Monthly ADD

10. Click **Add**.

Note: Frequency

The Frequency option available in the drop-down menu will always match that of the existing corresponding VAT Return.

Note: Frequency Validation

If during onboarding, the user selects a different frequency to that configured in the excel file for the VAT Return, then an Error will be displayed and the Frequency for the Control List will be automatically set to the same as the VAT Return.

2.2. Control List Scheduler Offset

The scheduler for the Control List is automatically updated to assign an Offset Date from Data Due – To Prepare of 3 days.

The screenshot displays the 'Control List Scheduler' interface. At the top, 'Jurisdiction' is set to 'Hungary' and 'Slovakia'. Below this, tabs for 'VAT Return', 'Control List', and 'Intrastat' are visible, with 'Control List' being the active tab. The 'Control List Scheduler' section includes two toggle switches: 'Avoid Weekends' (disabled) and 'Avoid Holidays' (disabled). A timeline shows the following dates and offsets: 'Data Due' (13 Mar 2023) with an offset of 3 days, 'To Prepare' (24 Mar 2023) with an offset of 1 day, 'To Review' (25 Mar 2023) with an offset of 1 day, 'To Approve' (26 Mar 2023) with an offset of 1 day, 'To Submit' (27 Mar 2023) with an offset of 0 days, and 'Submission Due' (27 Mar 2023). The 'Data Due' date and its offset of 3 days are highlighted with a red box. A 'View Scheduler' link with a green checkmark is located at the bottom right of the scheduler area.

Reason: This aligns the Data Due date for the Control List with the To Review date of the VAT Return (and when the Transactions are copied to the Control List).

Impact: By doing this, email notifications are not triggered to Data Providers for Control lists as the Control List file should not expect data to be uploaded.

3. Returns

3.1. Files

3.1.1. Upload Files

It is important to note that adding/editing transactional data should be completed on the corresponding VAT Return (the changes made on the VAT Return will be automatically reflected in the Control List).

With this in mind users are restricted from uploading **Data Files for Returns** on the Files page of a Control List. Only Supporting Documents can be uploaded to a Control List.

The screenshot displays the 'Return 120' interface. At the top, a header bar contains the following fields: Jurisdiction (Slovakia), Entity (redacted), Type (Control List), Frequency (Monthly), Period (Oct 2021), Status (Data Due), and Filing Deadline (2021-11-25). Below this, a status bar indicates 'Next action due by 2021-11-05' and 'Return Timeline • Audit History • 6 Comments • 0'. The main content area features a navigation bar with tabs: Files, Data Validation, Transactions, Return Validation, and Return Review. The 'Files' tab is active, showing a 'Data Files' section with 'No data to show' and an 'Output Files' section. To the right, the 'UPLOAD ADDITIONAL FILES' section includes a cloud upload icon, a date range '- November 19 - ...', and a dropdown menu with 'Supporting Document' selected. Below the dropdown are 'UPLOAD' and 'CHOOSE ANOTHER FILE' buttons.

3.1.2. Deleted Files

It is important to note that Data Files deleted from the Files page on a VAT Return will result in the system removing all transaction data from the associated Control List.

Example:

Before the Data File is deleted

VAT Return:

Return 20464

Jurisdiction: Slovakia ✓ Entity: [Redacted] Type: **VAT Return** Frequency: Monthly Period: Jan 2023 Status: To Review Filing Deadline: 2023-02-27

When a Data Provider/Preparer deletes the file from the VAT Return, a message is displayed to prompt the user that by deleting the file all associate transactions will be removed.

Warning!!!

Please note that by proceeding, this will delete your file and associated transactions from the return.

In addition, this return could be at risk of being submitted late, as the return will be reverted to the To Prepare stage in the process.

PROCEED

CANCEL

After the Data File is deleted

Once the Data File is deleted from the VAT Return, a few things happen.

1. The Control List status changes back from To Review to **Data Due**.

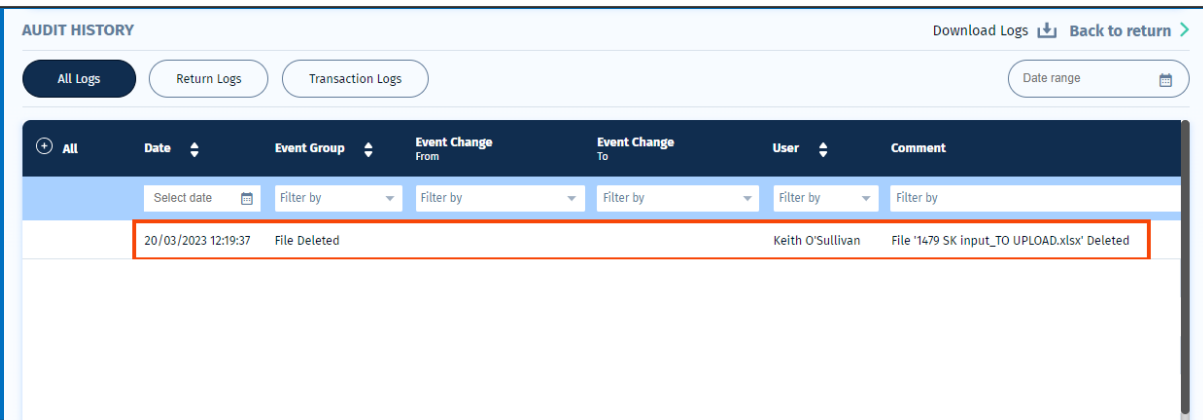

The screenshot shows the VAT Return 20466 interface. The 'Type' is 'Control List', 'Frequency' is 'Monthly', 'Period' is 'Jan 2023', and 'Status' is 'Data Due'. The 'Filing Deadline' is '2023-02-27'. The 'Next action due by' is '2023-02-13'. The 'Return Timeline' shows 'Audit History' with 18 items and 'Comments' with 0 items. The 'Files' tab is selected, showing 'Data Files' and 'Output Files'. The 'Data Files' section is empty, displaying 'No data to show'. The 'Output Files' section has an 'UPLOAD ADDITIONAL FILES' button and a 'Drag and drop file here' area. The 'Transactions' tab is also visible, showing 'No data to show'.

2. The Transactions Tab in the Control List is now blank as all Transactions have been removed.

The screenshot shows the VAT Return 20466 interface with the 'Transactions' tab selected. The 'Type' is 'Control List', 'Frequency' is 'Monthly', 'Period' is 'Jan 2023', and 'Status' is 'Data Due'. The 'Filing Deadline' is '2023-02-27'. The 'Next action due by' is '2023-02-13'. The 'Return Timeline' shows 'Audit History' with 18 items and 'Comments' with 0 items. The 'Files' tab is selected, showing 'Data Files' and 'Output Files'. The 'Data Files' section is empty, displaying 'No data to show'. The 'Output Files' section has an 'UPLOAD ADDITIONAL FILES' button and a 'Drag and drop file here' area. The 'Transactions' tab is selected, showing 'No data to show'. The 'Return Validation' and 'Return Review' tabs are also visible.

3. The Audit History is updated to reflect the Deleted File

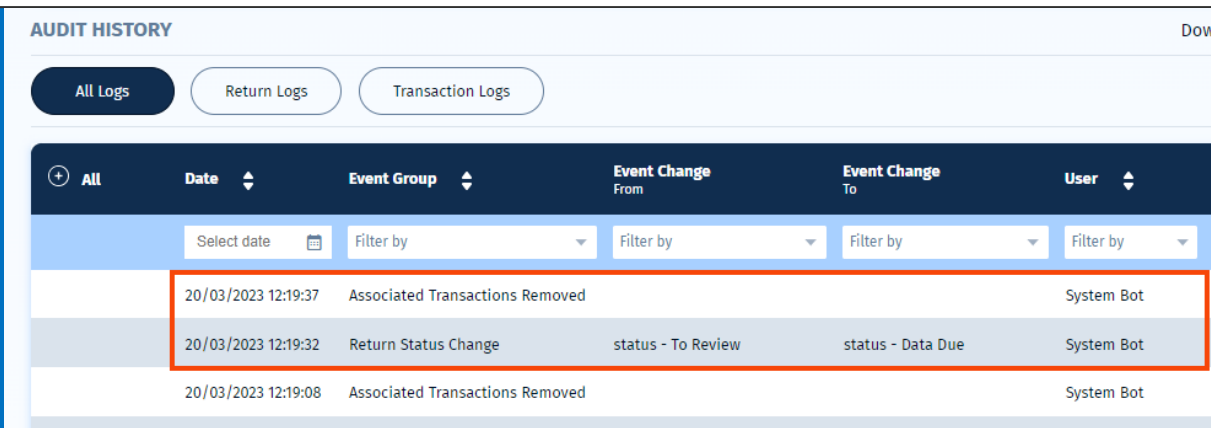

- VAT Return:
 - Return Log, shows Deleted File

The screenshot shows the 'AUDIT HISTORY' interface. At the top, there are tabs for 'All Logs', 'Return Logs', and 'Transaction Logs'. A 'Date range' selector is on the right. Below the tabs is a table with columns: 'All', 'Date', 'Event Group', 'Event Change From', 'Event Change To', 'User', and 'Comment'. The table has filter dropdowns for each column. A single row is highlighted with a red border, showing the event 'File Deleted' on '20/03/2023 12:19:37' by user 'Keith O'Sullivan' with the comment 'File '1479 SK input_TO UPLOAD.xlsx' Deleted'.

All	Date	Event Group	Event Change From	Event Change To	User	Comment
Select date	Filter by	Filter by	Filter by	Filter by	Filter by	Filter by
20/03/2023 12:19:37	File Deleted				Keith O'Sullivan	File '1479 SK input_TO UPLOAD.xlsx' Deleted

- Control List:
 - Return Log – Return Status Change
 - Transaction Log – Associated Transactions Removed

The screenshot shows the 'AUDIT HISTORY' interface with the same layout as the first screenshot. The table shows three rows of events, with the middle two rows highlighted by a red border. The first row shows 'Associated Transactions Removed' on '20/03/2023 12:19:37' by 'System Bot'. The second row shows 'Return Status Change' on '20/03/2023 12:19:32' by 'System Bot', with 'status - To Review' in the 'Event Change From' column and 'status - Data Due' in the 'Event Change To' column. The third row shows 'Associated Transactions Removed' on '20/03/2023 12:19:08' by 'System Bot'.

All	Date	Event Group	Event Change From	Event Change To	User
Select date	Filter by	Filter by	Filter by	Filter by	Filter by
20/03/2023 12:19:37	Associated Transactions Removed				System Bot

20/03/2023 12:19:08	Associated Transactions Removed				System Bot

3.2. NIL Returns

Where NIL Returns are required, the user (Preparer or Reviewer) can enable/disable the NIL Return using the Toggle switch from the VAT Return. This automatically synchronises the same action in the Control List.

To do this:

1. Go to the relevant **VAT Return**.
2. Click the **Green arrow** to expand the return header options.

Return 20488

Return Validation

Return Review

Please note:

The Nil Return Toggle can only be enabled in the Control List if the Switch is Off in the VAT Return. I.e. You can have a VAT Return which is Not Nil, and a Control List which is Nil.

3.3. Rejected Returns

If the Approver **rejects** the VAT return, the status changes from To Approve to **To Prepare**. This will Automatically change the status of the Control List in the following ways:

Control List status: To Approve

The Control List will automatically change from To Approve to **To Prepare**.

The screenshot shows the 'Return 20466' interface. At the top, there is a table with the following data:

Jurisdiction	Entity	Type	Frequency	Period	Status	Filing Deadline
Slovakia	[Redacted]	Control List	Monthly	Jan 2023	To Prepare	2023-02-27

Below the table, it says 'Next action due by 2023-02-24'. To the right, there are links for 'Return Timeline', 'Audit History' (23), and 'Comments' (0). Below this, there are five buttons: 'Files', 'Data Validation', 'Transactions', 'Return Validation', and 'Return Review'. At the bottom, there is a section for 'Data Files' and 'Output Files' with a 'No data to show' message, and an 'UPLOAD ADDITIONAL FILES' button with a cloud icon.

Control List Status: To Submit

The Control List will automatically change from To Submit to **To Prepare**.

This screenshot is identical to the one above, showing the 'Return 20466' interface with the Control List status set to 'To Prepare'.

Control List Status: To Review

Please note: If the status of the Control List is To Review, when the VAT Return is rejected, then the Control List status remains at To Review.

3.4. Return to “To Prepare” Status

If the Preparer changes the status of the VAT Return back from To Review to **To Prepare**, then this automatically changes the Control List back to To Prepare. To do this:

1. Open the associated VAT Return for the same period.
2. Navigate to the **Return Review** screen.
3. Click the **Return to “To Prepare”** button.

This automatically changes the status of the associated Control List in the following ways:

Control List status: To Approve

The Control List will automatically change from To Approve to **To Prepare**.

The screenshot shows the 'Return 20466' interface. At the top, there's a header with 'Return 20466'. Below it, a table displays the return details: Jurisdiction (Slovakia), Entity (redacted), Type (Control List), Frequency (Monthly), Period (Jan 2023), Status (To Prepare), and Filing Deadline (2023-02-27). The 'Status' cell is highlighted with a red border. Below the table, there's a section for 'Next action due by 2023-02-24' and links for 'Return Timeline', 'Audit History' (23), and 'Comments' (0). A row of buttons includes 'Files', 'Data Validation', 'Transactions', 'Return Validation', and 'Return Review'. Below these, there's a 'Data Files' section with 'Data Files' and 'Output Files' tabs, and an 'UPLOAD ADDITIONAL FILES' section with a cloud upload icon. The bottom of the 'Data Files' section shows 'No data to show'.

Control List Status: To Submit

The Control List will automatically change from To Submit to **To Prepare**.

This screenshot is identical to the one above, showing the 'Return 20466' interface with the 'Status' field set to 'To Prepare'.

Control List Status: To Review

Please note: If the status of the Control List is To Review, then the Control List status remains at To Review.

Please Note:

The user can send a Control List back to To Prepare also **without impacting** the associated VAT Return

RETURN "TO PREPARE" CREATE RETURN BOXES VIEW RETURN SEND FOR APPROVAL REJECT

3.5. Submitted Returns

3.5.1. Submitting Control Lists

Control Lists cannot be Submitted before the associated VAT Return has been Submitted. If the user tries to do this, the following error will be displayed.

4. Transactions

4.1. Associated Transactions

IMPORTANT TO NOTE:

Transactions are only associated with/to the Control List after the associated VAT Return has been set to a status of **To Review**.

This means the Transactions page on the Control List will only be populated after the Data Validation process has completed in the VAT Return and has been sent for Review.

4.2. Adding/Edit Restriction

Please note it is not possible to **Manually Add** or **Edit** transactions in the Control List. The Add and Edit buttons on the Transactions screen on the VAT Return are not displayed on the Control List.

5.2. Supplementary Returns

On **Supplementary Returns only** for Control Lists, a new Column “**Correction Code**” is displayed on the following Return Boxes:

A1, A2, B1, B2, B31, B32, C1, C2, D1 & D2

The screenshot displays the Taxback International interface for a Supplementary Return. The main header shows 'Return 1014 (Supplementary Return of [Return 1011](#))'. Below this, a summary bar includes fields for Jurisdiction (Slovakia), Entity (redacted), Type (Control List), Frequency (Monthly), Period (Feb 2023), Status (To Prepare), and Filing Deadline (2023-04-16). A green checkmark is visible next to the Jurisdiction. Below the summary bar, it states 'Next action due by 2023-04-11' and provides links for 'Return Timeline', 'Audit History', '6 Comments', and '0'. A navigation bar at the bottom includes tabs for 'Files', 'Data Validation', 'Transactions', 'Return Validation', and 'Return Review'. A modal window titled 'DECLARATION DETAILS - C1' is open, showing a table with columns: '1mon Customs Tariff', 'Type of goods', 'Quantity of goods', 'Unit measure', 'Correction', and 'Correction Code'. The 'Correction Code' column is highlighted with a red box, and a dropdown menu is open for it, showing a 'Filter by' option.

6. Audit History

6.1. Associated Transactions From VAT Return

The **Audit History** on the Control List displays logs (All Logs and Transaction Logs) identifying when associated Transactions were edited/uploaded to the VAT Return, and we automatically synched to the Control List.

The Log will Include:

- Date of Event
- Event Group – Transaction Associated
- User – User will be **System Bot** as these are auto synched from VAT Return.

7. XML

The user can view and submit the completed Return via the XML file. To view this:

1. Go to Return Review.
2. Select View Return.

The screenshot displays the 'Return 898' interface. At the top, there is a table with the following data:

Jurisdiction	Entity	Type	Frequency	Period
Slovakia	[Redacted]	Control List	Monthly	Oct 2023

Below the table, it states 'Next action due by 2023-11-24' and 'Return Timeline'. There are four buttons: 'Files', 'Data Validation', 'Transactions', and 'Ret Valid'. Under the 'Return Boxes' section, there is a 'Review Return' button. Below this button, a file named 'SK_Control_List.xml' is listed with an XML icon. A red dashed arrow points to the XML icon.
