Purpose of this document

The purpose of this document is to provide guidance, context, and instruction on the steps required to configure comply for a Company to file Intrastat Returns.

1. Introduction

1.1. What is Intrastat?

INTRASTAT is the name given to the system for collecting statistics on the movement of goods, not services, between the Member States of the European Union (EU). This essentially means that organisations are required to report statistics on Arrivals (Purchases) and Dispatches (Sales) of goods/commodities.

1.2. Who does this apply to?

All VAT Registered companies trading within the EU member countries only, who buy or sell goods/commodities where the values are above certain predefined thresholds. (These thresholds may vary by jurisdiction).

1.3. How often is an Intrastat Return required?

The INTRASTAT declaration is required on a monthly basis. Please note: Submission deadlines vary by Jurisdiction.

1.4. What is required?

There are 2 Types of Intrastat Return:

- Intrastat Arrivals – This is the fileable return on Purchases.
- Intrastat Dispatches – This is the fileable return on Sales.

Both are not always required. It is possible that you may be required to complete 1 or both.

1.5. Simplified v's Detailed Intrastat Returns

Thresholds are set by each jurisdiction for both Arrivals (Purchases) and Dispatches (Sales). If a company exceeds any of these thresholds, then they are required to file a more detailed Intrastat Return.

E.g. In Ireland the thresholds are set at €500,000 for Purchases and €635,000 for Sales.

Please note, you may be required to file varying types and subtypes of Intrastat Returns.

E.g. it is possible that you may be required to file a Simplified Intrastat Arrivals Return, but also a Detailed Intrastat Dispatches Return.

2. Onboarding

2.1. Set up your company details

In order to allow companies to perform Intrastat filings, During Onboarding, the Excel template includes relevant Columns and Drop-down options which allows the company configure Comply to look for relevant Intrastat data.

The screenshot shows the Taxback Comply onboarding interface. The left sidebar contains a menu with options: Returns, Transactions, Payments, Analytics, Security, Settings, Onboarding, Templates, Scheduler, Billing, Validation Rules, Submission, Funding Payments, Entity, and Audit History. The main content area displays a 'Welcome to Comply!' message and a 'Set up your company details' section. A red box highlights the 'Download Template' button. Below the interface, two Excel templates are shown. The first template has columns W, X, Y, Z, AA, and Fiscal Rep. The 'Return Type' dropdown in column X is highlighted with a red box, showing options: VAT Return, VIES Return, Intrastat Dispatches (selected), Intrastat Arrivals, Annual VAT Return, Control List, SAF-T, and Annual Client Listing. The second template has columns W, X, Y, Z, and Return D. The 'Return Subtype' dropdown in column Y is highlighted with a red box, showing options: Simplified (selected) and Detailed.

Please note: If during onboarding, the user selects an Intrastat Return Type, but **does not** select a relevant SubType, then the system will add "Simplified" as the default Sub Type.

1. Navigate to: *Settings > Onboarding*
2. Download and complete the template.
3. Upload the completed file.
4. Set up your list of Users.
5. Set up your User roles.

The screenshot displays the Comply Onboarding interface. At the top, the header shows the Comply logo, the text 'SANDBOX_LIVEDEMOCOMPANY_3', and a user profile icon labeled 'KO'. The main content area is divided into two sections. The left section, labeled with a red circle '1', contains an Excel icon and a blue button labeled 'Download Template'. The right section, labeled with a red circle '2', is a dashed box containing a cloud upload icon, the text 'Drag and drop file here', the word 'OR', and a blue button labeled 'CHOOSE FILE'. Below these sections is a 'Submit' button. At the bottom, there are two expandable steps: '3 Set up your list of users' with a user icon and '4 Set up user roles' with a shield icon. A 'Next Steps >' link is located at the bottom right.

Please note, a more detailed guide on these steps is available in the **Comply Onboarding** guide.

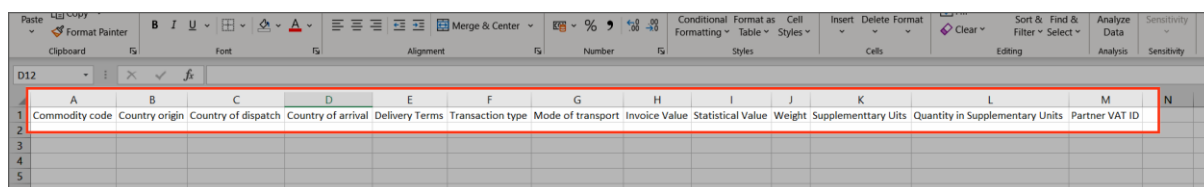

2.2. Create Template

2.2.1. Create the template in Excel

To create the template...

1. Open a blank document in Excel.
2. Add the relevant columns (see the mandatory columns table below – this is set by Jurisdiction, Return Type and Return Subtype).
3. Save the file.

Sample Template for Finland:

	A	B	C	D	E	F	G	H	I	J	K	L	M	N
1	Commodity code	Country origin	Country of dispatch	Country of arrival	Delivery Terms	Transaction type	Mode of transport	Invoice Value	Statistical Value	Weight	Supplementary Uits	Quantity in Supplementary Units	Partner VAT ID	
2														
3														
4														
5														
6														

Please note:

Depending on the Entities and their requirements, you may be required to create multiple

Templates:

- VAT Returns
- Intrastat Arrivals Simplified
- Intrastat Arrivals Detailed
- Intrastat Dispatches Simplified
- Intrastat Dispatched Detailed

2.3. Template Mapping

Once the template has been successfully created, you are required to map the column headers, this creates a process where the data in the clients uploads is mapped to the correct data fields in Comply.

2.3.1. Fields Mapping

The screenshot shows the 'Fields Mapping' step in the Comply interface for 'Finland_Intrastat'. The top navigation bar includes the Comply logo, the company name 'livedemocompany', and a progress bar with four steps: 'Fields Mapping' (active), 'File Name Mapping', 'Data Transformation Rule', and 'Data & Number Format'. A notification bubble indicates '9 mandatory fields missing'. The main heading is 'Finland_Intrastat Mapping template fields'. Below this, a instruction states: 'Drag and drop the titles from your template into the corresponding boxes on the bottom to match them up with ours.' The interface is divided into two main sections: 'Your imported fields' on the left and 'Taxback International fields' on the right. 'Your imported fields' is titled 'ALL COLUMNS FROM YOUR EXCEL' and contains a grid of 13 fields: 'Commodity code', 'Country origin', 'Country of dispatch', 'Country of arrival', 'Delivery Terms', 'Transaction type', 'Mode of transport', 'Invoice Value', 'Statistical Value', 'Weight', 'Supplementary Uits', 'Quantity in Supplementary Units', and 'Partner VAT ID'. 'Taxback International fields' is titled 'Step 1 of 4' and shows 'Shipping Details' with input fields for 'Country of Arrival' (marked with a red asterisk), 'Country of Dispatch', 'Region of Dispatch', 'Region of Arrival', 'Mode of Transport' (marked with a red asterisk), 'Delivery Terms', 'Country of Origin' (partially visible at the bottom, marked with a red asterisk), and 'Commodity Flow'.

Your Imported Fields:

On the left hand side of the mapping screen are the columns imported from the clients excel file.

Taxback International Fields:

On the right hand side of the screen are the TBI required columns. Mandatory columns are marked with a red Asterix.

Please note: Comply also displays a clickable **Mandatory Fields Missing** button. This will list all the mandatory fields that need to be manually mapped for which Jurisdiction.

This allows the user to add a new Return Type.

8. Select the relevant **Intrastat Return Type** from the Return Type drop-down menu.

The screenshot shows the 'Return Type' section of a web interface. A dropdown menu is open, displaying options: 'VAT Return', 'Return Type' (with an upward arrow), 'Search' (with a magnifying glass icon), 'Intrastat Dispatches', 'Intrastat Arrivals', and 'Annual VAT Return'. The 'Return Type' dropdown is highlighted with a red box. In the background, the 'Frequency' dropdown is set to 'Quarterly' and an 'ADD' button is visible.

9. Select the relevant **Return Subtype**.

The screenshot shows the 'Return Type' section with the 'Return Subtype' dropdown menu open. The menu displays 'Return Subty...' (with an upward arrow), 'Search' (with a magnifying glass icon), and 'Simplified'. The 'Return Subtype' dropdown is highlighted with a red box. In the background, the 'Return Type' dropdown is set to 'Intrastat Arrivals' and the 'Frequency' dropdown is set to 'Quarterly'.

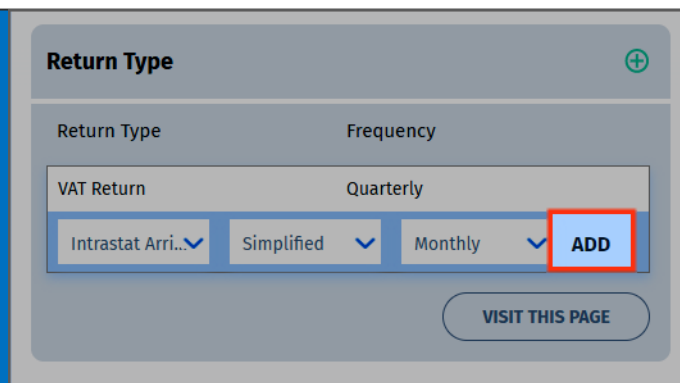

This is generally **Simplified** or **Detailed**, but is based on Jurisdiction.

E.g. Italy does not have Detailed Intrastat returns so only **Simplified** will be available from the drop-down.

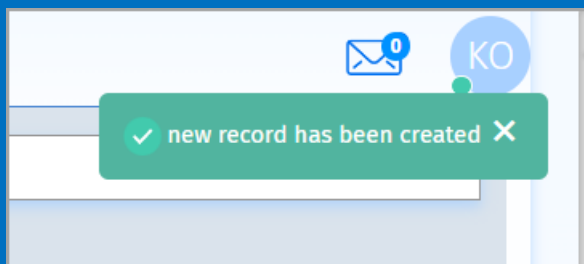

10. Select a Frequency. Intrastat Returns will always be **Monthly**.

The screenshot shows the 'Return Type' section with the 'Frequency' dropdown menu open. The menu displays 'Frequency' (with an upward arrow), 'Search' (with a magnifying glass icon), and 'Monthly'. The 'Frequency' dropdown is highlighted with a red box. In the background, the 'Return Type' dropdown is set to 'Intrastat Arrivals' and the 'Return Subtype' dropdown is set to 'Simplified'.

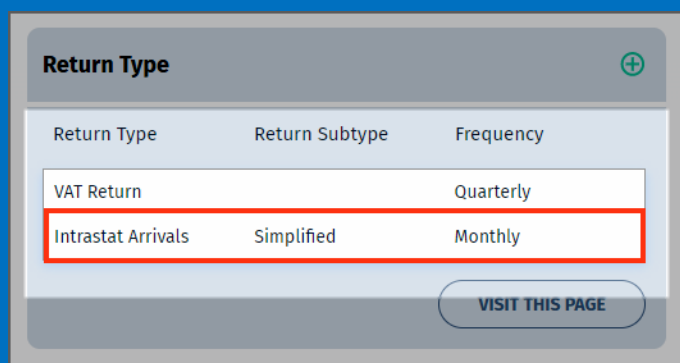

11. Click **ADD**.

The screenshot shows a 'Return Type' form. It has two columns: 'Return Type' and 'Frequency'. Under 'Return Type', there is a dropdown menu with 'VAT Return' selected. Under 'Frequency', there is a dropdown menu with 'Quarterly' selected. Below these, there are two more dropdown menus: 'Intrastat Arri...' and 'Simplified'. To the right of these is a dropdown menu with 'Monthly' selected. The 'ADD' button is highlighted with a red box. Below the form is a button labeled 'VISIT THIS PAGE'.

A pop up message is displayed to confirm the new Return Type has been created.

The screenshot shows the 'Return Type' table. It has three columns: 'Return Type', 'Return Subtype', and 'Frequency'. The table contains two rows: 'VAT Return' with 'Quarterly' frequency, and 'Intrastat Arrivals' with 'Simplified' subtype and 'Monthly' frequency. The second row is highlighted with a red box. Below the table is a button labeled 'VISIT THIS PAGE'.

The new Return Type is displayed.

Repeat these steps to create additional Intrastat Return types as required For example....

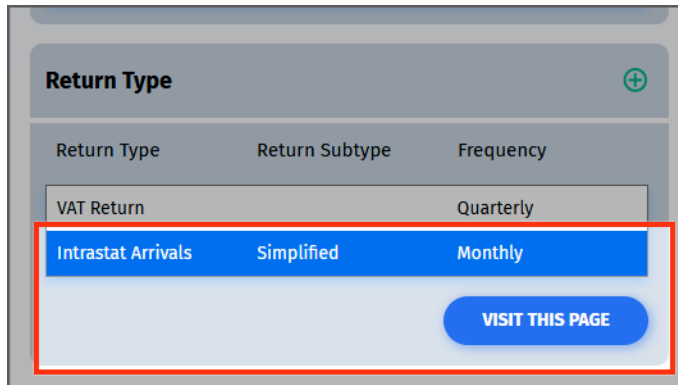

- Intrastat Arrivals Detailed
- Intrastat Dispatched Simplified
- Intrastat Dispatched Detailed

Please note: these are jurisdictional and may or may not be available by country.

Once all relevant Intrastat Return types have been configured, you can now view the relevant details on the **Return Details** page. To do this...

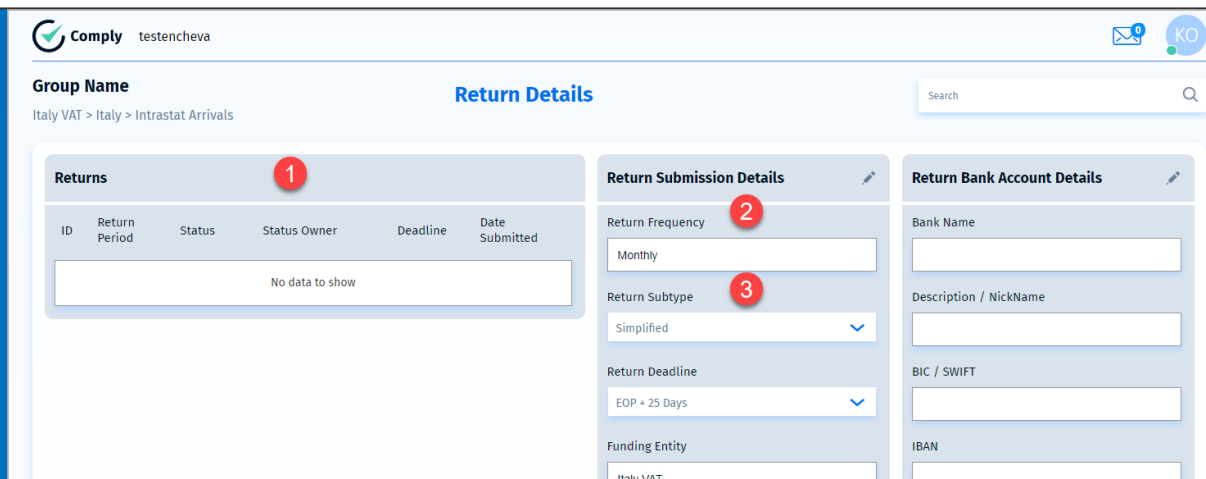

12. Click the Intrastat Return type.

13. Click **VISIT THIS PAGE**.

The Returns Details page displays the following 3 Intrastat details:

- The relevant Intrastat Returns
- The Frequency of the Return (Which is Monthly).
- The Return Subtype.

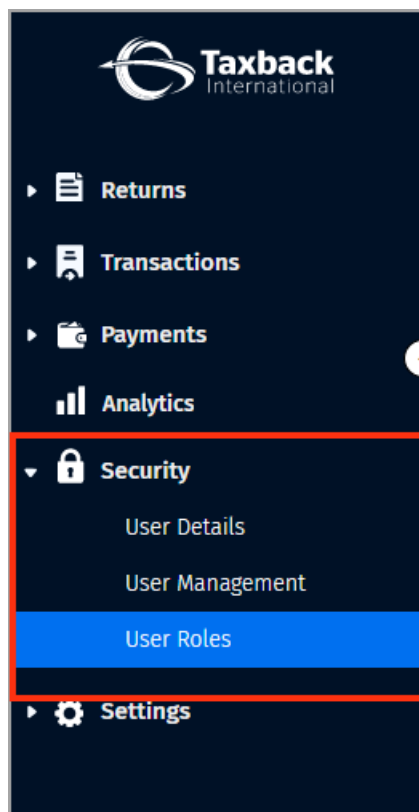

Please Note:

The Returns are not displayed here yet, as they have not been assigned to a User Role. This is the next step to complete.

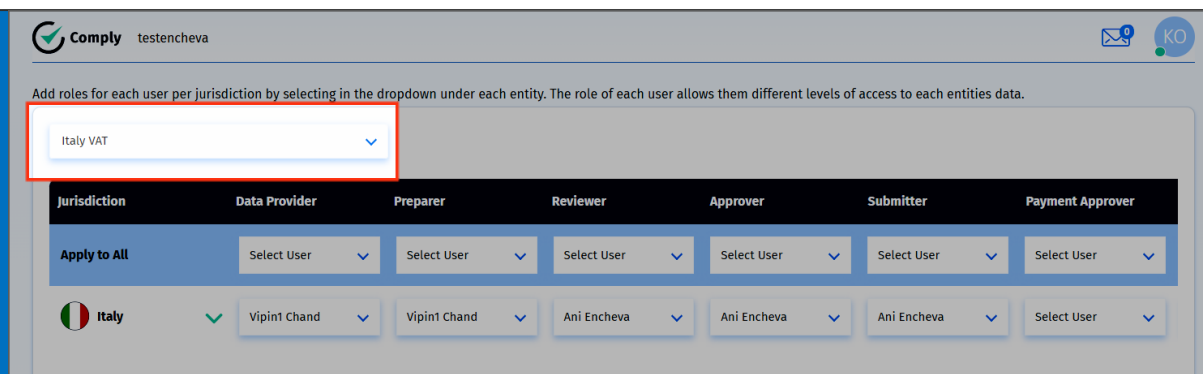

3.2. Assign the new Return Type to a User Role

This action can only be performed by an Admin user role.

1. Go to the Security Menu.
2. Click **User Roles**.

3. Select the relevant **Jurisdiction**.

- Click the **Green Down Arrow** to expand the view to display all Return Types for that Jurisdiction.
