Overview

Purpose of this document

The purpose of this document is to provide guidance, context, and instruction on how to configure user specific requirements.

This is generally configured during onboarding, but can be amended at any stage by navigating to:

Security > User Details

The User Details screen consists of 3 sections; **Personal Details**, **Report Role** & **Settings**.

Days

1. Personal Details

This section is an overview of the users own personal details. A standard user can edit some of these details by clicking the **Pen Icon**, but is limited to the following:

Field	Description	Edit Options: Y/N
First Name		Y
Surname		Y
Country		Y
Phone		Y
Email	Locked to company email	N
Account Role	Standard/Admin User	N
User Category	Client/TBI Staff	N
User ID	Locked by default	N

2. Report Role

The Report Role section displays the role(s) the user has been assigned to perform during the Return processing cycle. This is generally configured during onboarding, but can be amended by an Admin user at any time.

2.1. Assigned Roles

A user can be assigned to perform one or multiple roles

- Data Provider
- Preparer
- Reviewer
- Approver
- Submitter etc

Report Role					
Entity Name	Jurisdiction	Return Type	Report Role	Delegate	
☐ Apply to all Select Name Select date range					
Entity DE01	Germany	VAT Return	Preparer	-	
Entity DE01	Germany	VAT Return	Reviewer	-	
Entity DE01	Germany	VAT Return	Data Provider	-	
Entity DE01	Germany	VAT Return	Approver	-	
Entity DE01	Germany	VAT Return	Submitter	-	
Entity PL 1	Poland	VAT Return	Reviewer	-	
Entity PL 1	Poland	Intrastat Arrivals	Reviewer	-	
Entity PL 1	Poland	Intrastat Dispatches	Reviewer	-	

A user can also be assigned roles to specific **Jurisdictions** or **Entities**.

2.2. Delegating Roles

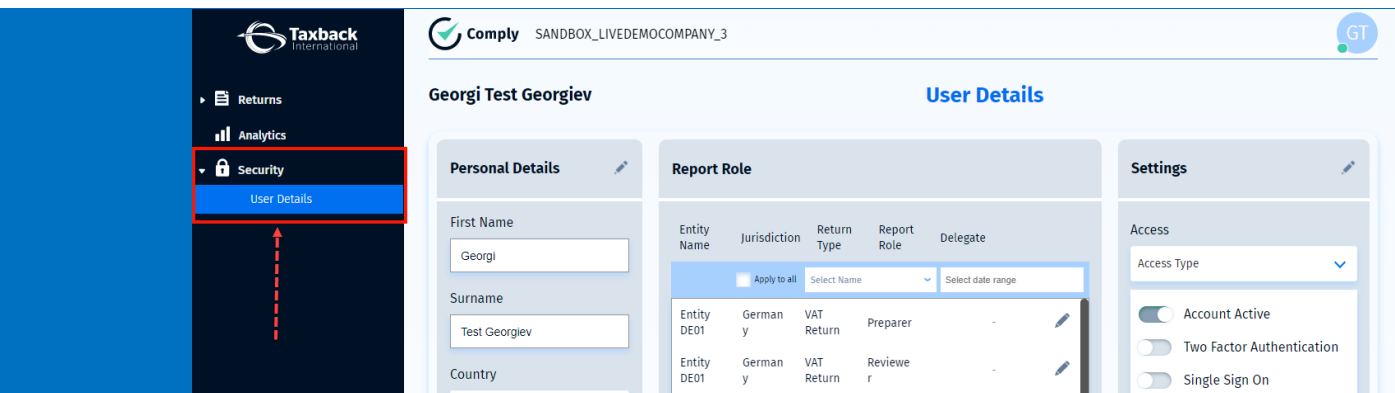

Comply can be configured to delegate an assigned user's tasks to another user, i.e. in the event of a planned absence, the delegated user will receive the notifications.

Example:

Juan is assigned as the Data Provider for ABC Company. He has a 2 week vacation Planned, during which time he knows some of his assigned returns will have files due to be uploaded. Juan delegates his role to Carole for those 2 weeks. Carole will now receive the email notifications once the files are due, and will have access to the returns. After the 2 weeks, responsibility automatically returns to Juan.

To do this:

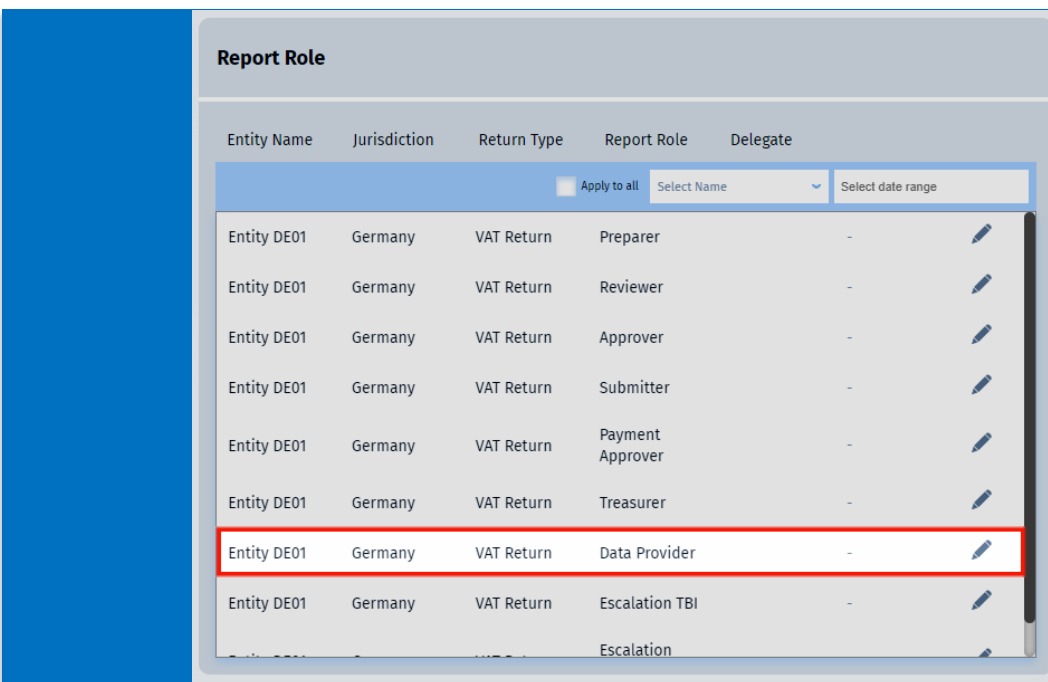

1. Go to the **Security** menu.
2. Click **User Details**.

The screenshot shows the Taxback Comply interface. On the left, the 'Security' menu is expanded, and 'User Details' is selected. The main area displays the 'User Details' for 'Georgi Test Georgiev'. The 'Report Role' section is visible, showing a table of roles with a pencil icon for editing.

Entity Name	Jurisdiction	Return Type	Report Role	Delegate
Entity DE01	Germany	VAT Return	Preparer	-
Entity DE01	Germany	VAT Return	Reviewer	-
Entity DE01	Germany	VAT Return	Approver	-
Entity DE01	Germany	VAT Return	Submitter	-
Entity DE01	Germany	VAT Return	Payment Approver	-
Entity DE01	Germany	VAT Return	Treasurer	-
Entity DE01	Germany	VAT Return	Data Provider	-
Entity DE01	Germany	VAT Return	Escalation TBI	-
Entity DE01	Germany	VAT Return	Escalation	-

3. In the Report Role section, click the Pencil Icon beside the role you wish to delegate.

The screenshot shows a close-up of the 'Report Role' section. The table lists various roles, and the 'Data Provider' role is highlighted with a red box, indicating it is the role to be delegated.

Entity Name	Jurisdiction	Return Type	Report Role	Delegate
Entity DE01	Germany	VAT Return	Preparer	-
Entity DE01	Germany	VAT Return	Reviewer	-
Entity DE01	Germany	VAT Return	Approver	-
Entity DE01	Germany	VAT Return	Submitter	-
Entity DE01	Germany	VAT Return	Payment Approver	-
Entity DE01	Germany	VAT Return	Treasurer	-
Entity DE01	Germany	VAT Return	Data Provider	-
Entity DE01	Germany	VAT Return	Escalation TBI	-
Entity DE01	Germany	VAT Return	Escalation	-

- Click the green + button to add a name.

The screenshot shows the 'Delegate' modal form. A red box highlights a green '+' button in the top right corner of the modal. A red dashed arrow points from this button towards the 'Delegate Name' field. The modal has a table with columns: Delegate Name, From, To, When, and By whom. Below the table are 'CLEAR' and 'APPLY' buttons. The background shows a table with 'Jurisdiction' and 'Return Type' columns, with 'Germany' and 'VAT Return' visible.

- Add a name (select from a drop-down) and Select a date range (From and To).

The screenshot shows the 'Delegate' modal form after adding a new entry. A red box highlights the first row of the table, which contains the text 'Albert' in the 'Delegate Name' column and '2022-05-01 - 2022-05-31' in the 'From' and 'To' columns. The 'When' and 'By whom' columns are empty. The 'APPLY' button is now blue. The background shows the same table as the previous screenshot.

6. Click **Apply**.

This automatically returns to the original user after the date range is complete.

3. Settings

The **Settings** section consists of 3 key components.

- Access – Partial/Full Access
- Notification Preferences
- Escalation Trigger

The screenshot shows the 'Settings' page with three red circles highlighting key components:

- 1** Access settings: Includes 'Access Type' (dropdown), 'Account Active' (toggle), 'Two Factor Authentication' (toggle), and 'Single Sign On' (toggle).
- 2** Notification Preferences: Includes 'Notification Preferences' (dropdown) and 'What will Comply Send?' (link).
- 3** Escalation Trigger: Includes 'Escalation Trigger' (dropdown) and 'Days' (input field).

3.1. Access

Field	Description	Edit Options: Y/N
Access	Ful/Partial	N – Set by Admin
Account Active	Account Status	N – Set by Admin
Two Factor Authentication		N – Set by Admin
Single Sign On		N – Set by Admin

3.1.1. Full/Partial Access

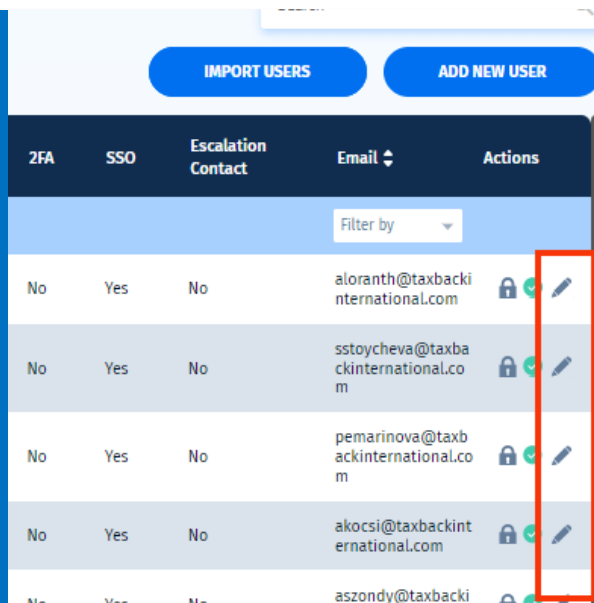

Access Type	Description
Full	The user can view all returns at a Company level.
Partial	The user can only see a preconfigured set of returns. Admin users can apply a set of

Please note. This is configured by an Admin user via the **User Management** page.

3.1.2. Edit User

To Edit a user...

1. Click the Pencil Icon.
2. Make the relevant changes in the User Details screen.

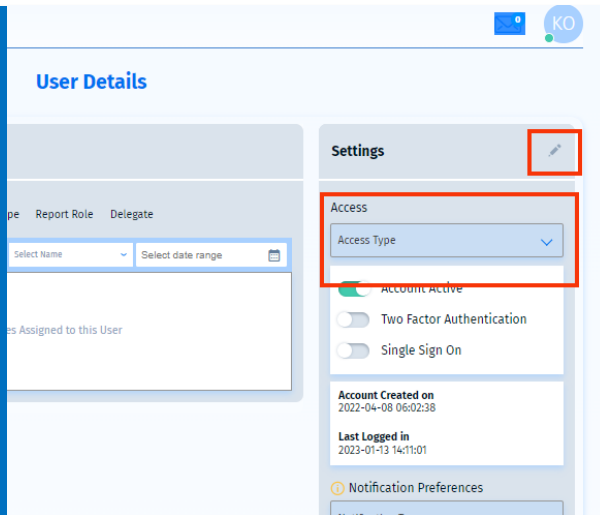

This will automatically open the User Details page for the selected user.

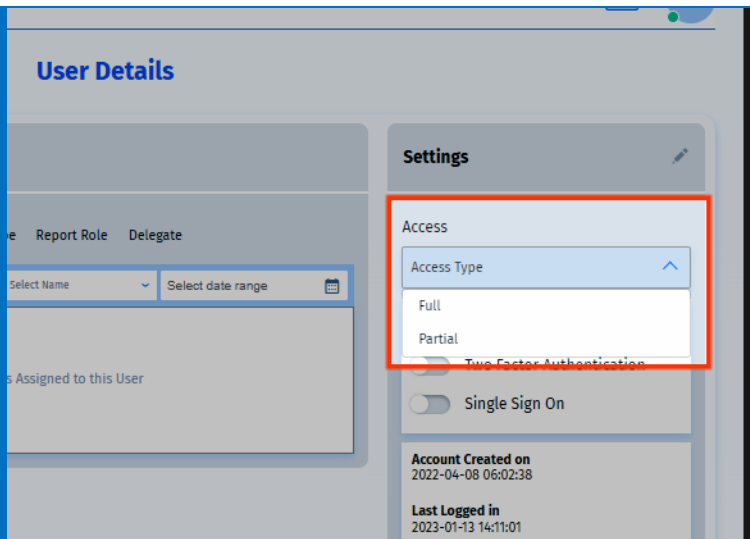

3.1.3. Grant Partial/Full Access

Here, Users can be granted either Partial or Full Access.

1. Click the Pencil Icon to enter edit mode.
2. Select the Access Type drop-down menu.

3. Choose the required option.

4. Click Save.

3.2. Notification Preferences

The platform is configurable to allow the users receive notifications by email. These notifications are a key part of the process for each user role and identify when a task assigned to you requires action.

E.g. When configured, the data provider will receive a notification by email, when data for a specific return is due.

Notes:

- **Notifications are linked to the scheduler, so will be triggered by the date assigned for each task.**
- **It is important that you have configured these notifications first, so that when tasks assigned to you become due, you will be made aware and can action them on time.**
- **Notifications are sent overnight.**
- **Regardless of the frequency a user has chosen, notifications are only sent once.**
- **If you select Daily notifications, you will only receive one if you have assigned tasks due.**

What does the user receive?

The user will only receive notifications if:

- The action is “Due Now”. This means action is required within the next 3 days.
- The action is required and is “Overdue”. This means, the action is late (based on the preconfigured deadlines) and puts the return at risk of missing the statutory submission deadline.

Only the person assigned the relevant role, will receive these notifications. I.e. Only the Preparer will receive notification for returns which have been moved to a status of “To Prepare” and action is due within 3 days.

3.2.1. Configure User Notifications

Notifications are a key part of the process for each user role. These identify when a task assigned to you requires action. It is important that you have configured the notifications, so that when tasks assigned to you become due, you will be made aware and can action them on time.

Please note: If you do not complete this step, you will not receive notifications when tasks assigned to you are due. You will need to review the Returns menu more frequently.

1. Click the **Pen** icon to enable edit mode.

The screenshot shows the 'User Details' page for 'Keith O'sullivan'. The 'Settings' tab is active, and the 'Pen' icon in the top right corner of the Settings panel is highlighted with a red box. The 'Access' section shows 'Access Type' as a dropdown menu.

2. Click the **Notification Preferences** drop-down option.

The screenshot shows the 'User Details' page for 'Keith O'sullivan'. The 'Notification Preferences' dropdown menu is open, showing options for notification frequency. The options are: Once a day, Once every two days, Once every three days, Once a week, Once a month, and No notifications. The dropdown is highlighted with a red box.

Entity Name	Jurisdiction	Return Type	Report Role	Delegate
Entity PL 1	Poland	VAT Return	Preparer	-
Entity PL 1	Poland	VAT Return	Reviewer	-
Entity PL 1	Poland	VAT Return	Approver	-
Entity PL 1	Poland	VAT Return	Submitter	-
Entity PL 1	Poland	VAT Return	Payment Approver	-
Entity PL 1	Poland	VAT Return	Data Provider	-

Notification Preferences

- Once a day
- Once every two days
- Once every three days
- Once a week
- Once a month
- No notifications

3. Select a relevant notification type, from the following options:

- Once a Day
- Once every two days
- Once every three days
- Once a week
- Once a month
- No notifications

3.2.2. [Viewing Email Notifications](#)

Example 1: Once a return is due, the Data Provider will receive a notification identifying that the data file is due to be uploaded and will display a status of **Data Due**.

Example 2:

Once a data provider uploads the data file, the preparer receives a notification to say they have a return assigned to them, which has a task due. The status will say **To Prepare**.

Below as a sample of an email reminder:

We need your attention and actions on the following returns:

Data Provider - 2 returns						
Entity	Country	Type	Frequency	Return Period	Due Date	Status
UK1	United Kingdom	VAT Return	Quarterly	Apr-Jun 2021	2021-08-01	Data Due
UK2	United Kingdom	VAT Return	Quarterly	Apr-Jun 2021	2021-08-01	Data Due

Approver - 2 returns						
Entity	Country	Type	Frequency	Return Period	Due Date	Status
UK2	United Kingdom	VAT Return	Quarterly	Oct-Dec 2020	2021-02-07	To Approve
UK2	2021-08-01 United Kingdom	VAT Return	Quarterly	Apr-Jun 2020	2021-05-08	To Approve

Please [log in](#) to your account, and help us move forward with your compliance returns.

Thank you!

Best regards,
TBI Compliance team
[Support at Taxback International](#)

Please do not reply to this email

Note: If the user is responsible for multiple roles and multiple returns, the reminder may be combined and grouped appropriately in the email.

The user is advised to login to Comply to take the necessary actions.

3.3. Escalation Triggers

If the user has been assigned the role of Escalation TBI/Escalation Client, that user can configure the system to escalate overdue tasks to them after a set number of days.

Entity Name	Jurisdiction	Return Type	Report Role	Delegate
Entity DE01	Germany	VAT Return	Reviewer	-
Entity DE01	Germany	VAT Return	Approver	-
Entity DE01	Germany	VAT Return	Submitter	-
Entity DE01	Germany	VAT Return	Payment Approver	-
Entity DE01	Germany	VAT Return	Escalation TBI	-

Please note:

This functionality only works when the specific role of **Escalation Manager** has been assigned to you (this is configured by an admin user).

1. Click the **Pen Icon**.
2. Go to **Escalation Trigger**.
3. Enter the number of days after which a task is overdue, is escalated to you.

What will Comply Send?

Escalation Trigger 1

4. Click Save.
