Overview

Purpose of this document

The purpose of this document is to provide guidance, context, and instruction on Configuring Comply for VAT Groups.

Jurisdiction	Entity	Type	VAT Group Type	Frequency
Spain	TestSpain2	VAT Return	Consolidated	Monthly

Next action due by 2022-05-03

1.1. Introduction

A **VAT Group** is formed when a group of related companies which are under common economic ownership, register to submit VAT returns together, as a single return to the relevant Tax Authorities.

In this situation, a nominated company/entity from the group is registered as the VAT Group Representative. This is the entity which is registered and responsible for submitting the returns.

Please Note:

The following jurisdictions **do not** allow VAT Groups:

- Bulgaria
- Lithuania
- Portugal

*For these jurisdictions, VAT Group Details **will not** be displayed on the Entity > Jurisdiction Details page in Comply.*

1.2. VAT Group Submission Types

Where VAT Groups are allowed, certain jurisdictions may also have specific treatment for submissions. In Comply, we support this using **VAT Group Submission Type**, of which there are 3 options: 1. **Consolidated**, 2. **Consolidated & Individual** and 3. **Individual**.

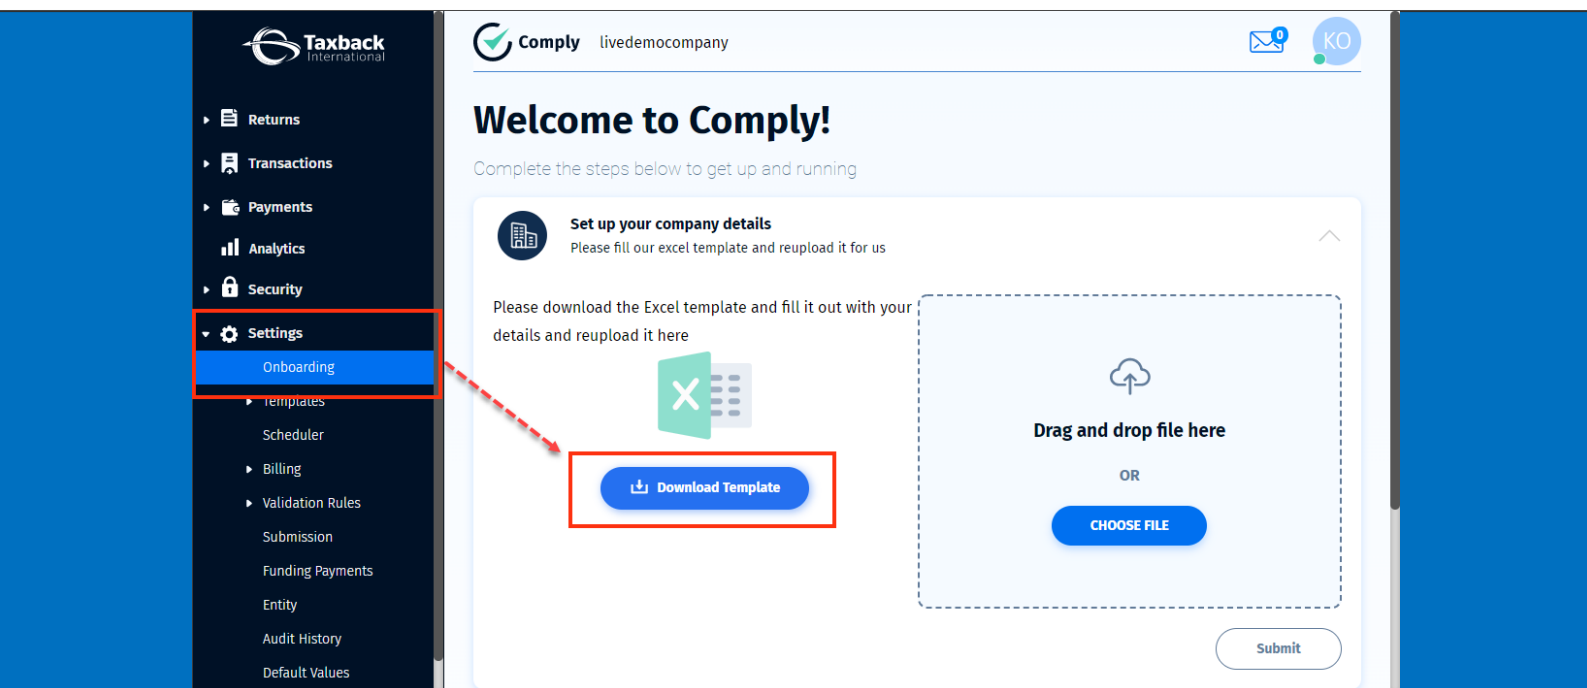

VAT Group Submission Type	Description
Consolidated	The VAT Group Representative will submit only 1 return, called Consolidated, to the tax office. It will contain all the transactions for the relevant period, for the representative and the members as well. The other Members will have their individual returns, but those are called VAT Calculations, and those are not submitted to the tax office, but only used for calculations.
Consolidated & Individual	Both the VAT Group Representative and the other members are filling, calculating, and submitting their Individual returns, along with a Consolidated return, which combines the transactions of all entities in the VAT Group, for the period.
Individual	Each entity from the VAT Group is filling, calculating, and submitting their individual return to the tax office. Consolidated return is not required.

2. Configure VAT Groups During Onboarding

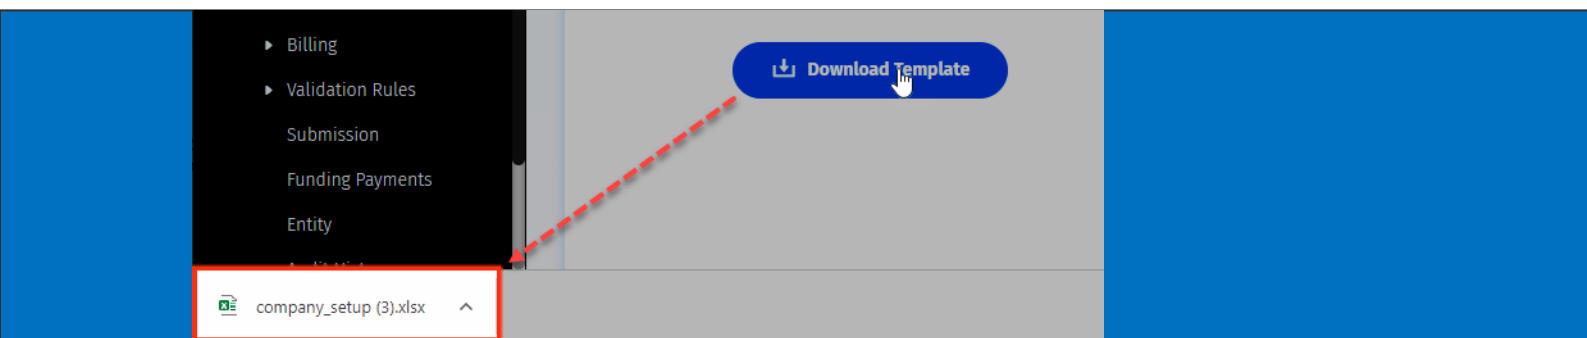

VAT Groups can be configured as part of the onboarding process by following these steps:

2.1. Configure Entity as VAT Group Member

1. Open the **Settings** on the Menu section.
2. Click **Onboarding**.

3. Click **Download Template**.
4. Open the downloaded "Company_Setup" Excel file.

- Complete the relevant VAT Group fields. (Note: these are not marked as mandatory, but are required if configuring VAT Groups)

	S	T	U	V

These can differ by jurisdiction. Please see list in section 2.1 above:

- The completed file should be uploaded to Comply as part of the remaining onboarding process. (See the client onboarding guide).

3. Configure VAT Groups via Entity Screen

VAT Group details can be managed using the Entity section of Comply. Here VAT Group Entities can be:

- Updated to be part of a VAT Group.
- Assigned as VAT Group Representative.

3.1. Set up VAT Groups

To do this:

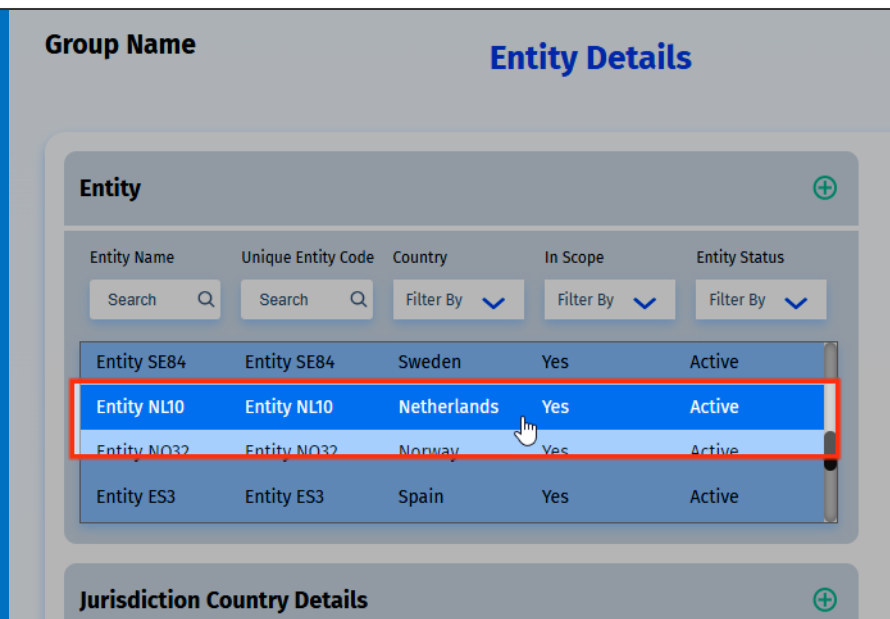

1. Open the **Settings** menu.
2. Click the **Entity** sub-menu to open the Entity Details page.

The screenshot displays the Taxback International Comply interface. On the left sidebar, the 'Settings' menu is highlighted with a red box, and the 'Entity' sub-menu is also highlighted with a red box. The main content area shows the 'Entity Details' page. At the top, there is a 'Group Name' field and a 'Entity Details' title. Below this is a table of entities with columns: Entity Name, Unique Entity Code, Country, In Scope, and Entity Status. The table contains four rows of data. Below the table is a section for 'Jurisdiction Country Details' with search fields for 'Jurisdiction Country' and 'VAT Number'. The bottom of the section shows 'No data to show'.

Entity Name	Unique Entity Code	Country	In Scope	Entity Status
OK	1248	Albania	Yes	Active
OK	2199		Yes	Active
Mond FI	Mond FI	Finland	Yes	Active
KR1	KR1	South Korea	Yes	Active

Jurisdiction Country	VAT Number

3.2. Edit Submission Types

Submission Types can be managed within the Entity section. How and what can be added/changed will depend on the jurisdiction.

Please note: Only TBI Staff Admin or Client Admin (VAT Group Representative) roles have the relevant permissions to do this.

To do this:

1. Go to **Settings**.
2. Open the **Entity** sub-menu.
3. Choose the relevant **Entity** in the Entity table.

The screenshot displays the 'Entity Details' page in the Comply application. The left sidebar shows the navigation menu with 'Settings' expanded and 'Entity' selected. The main content area is titled 'Entity Details' and features a table of entities. The table has columns for Entity Name, Unique Entity Code, Country, In Scope, and Entity Status. The row for 'Entity NL10' is highlighted with a red box. The right panel shows the 'Entity Details' form with fields for Entity Name, Unique Entity Code, In Scope, and Entity Status.

Based on the jurisdiction, for VAT Returns the user may select from multiple Submission Types using the drop-down option. But for Intrastat dispatches, there is no choice.

8. Click the **VAT Return** submission type.
9. Click the **VISIT THIS PAGE** button.

This opens the **Return Details** page.

10. Go to the **VAT Group Submission Type** section.

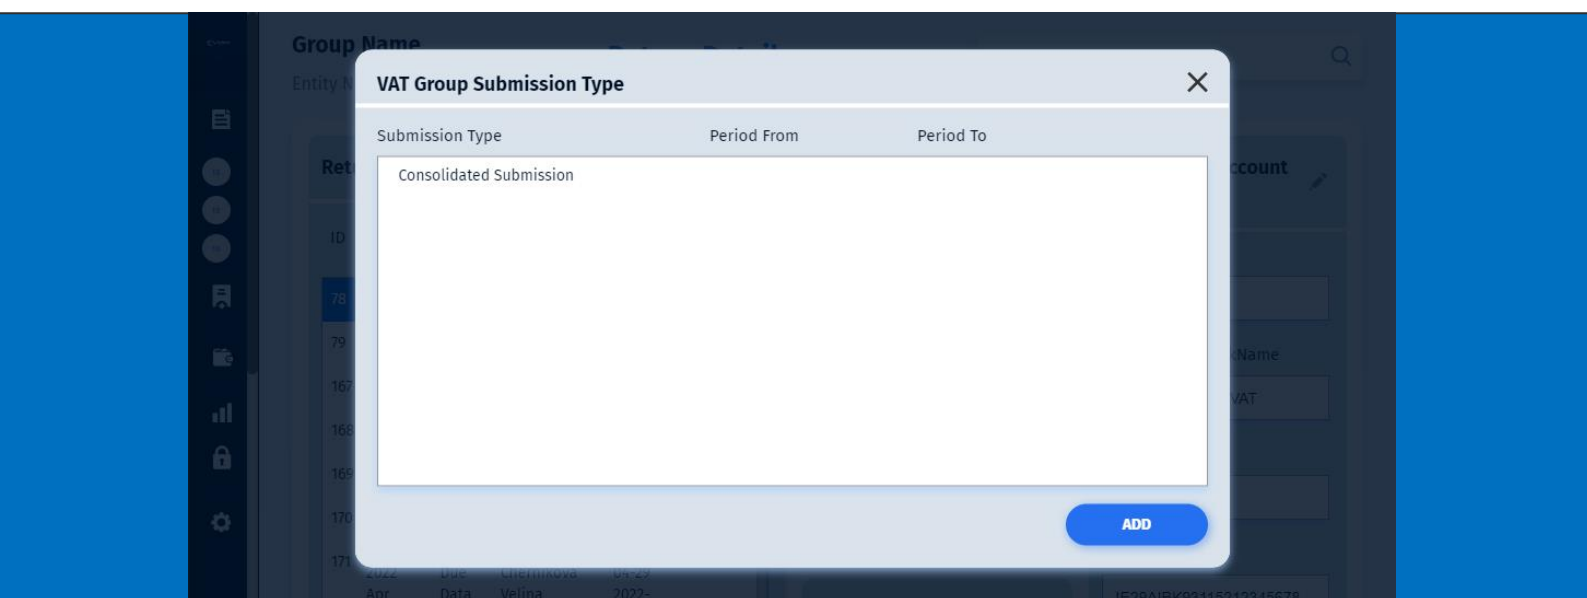

The current Submission Type is displayed.

11. Click the pencil icon on the **Change Submission Type**.

Now the user can add a new row and add a period for that new Submission Type to apply.

12. Click the **Add** button.

13. In the new row, choose the relevant **Submission Type** and **Period From** (remember only the Submission Types allowed in that jurisdiction for that return type will be displayed).

3.3. Delete a Submission Type

The user can also delete a Submission Type. To do this, follow the same steps as above to access the **Return Details** page.

1. Click **Change Submission Type**.

2. Click the Delete/Bin Icon to remove the Submission Type.

3.4. Edit the VAT Group Preparation Method

Only where the Submission Type is set to **Consolidated**, the TBI Admin or Client Admin (VAT Group Representative) can choose from the following 2 options for the VAT Group Preparation method:

- Consolidated Only
- Consolidated and VAT Calculation

To do this:

1. Go to the **Return Details** page.

3. Select the relevant option.

The screenshot shows a software interface with a blue header bar. On the left, there is a grey sidebar with a section titled "VAT Group Preparation Method" with a close icon (X). Below this title is a dropdown menu that is open, showing three options: "Consolidated and VAT Calcul...", "Consolidated Only", and "Consolidated and VAT Calculations". The first option is highlighted with a blue background and a small upward arrow. Below the dropdown is another section titled "Return Submission Details" with an edit icon (pencil). The main area of the screen is a solid blue rectangle.

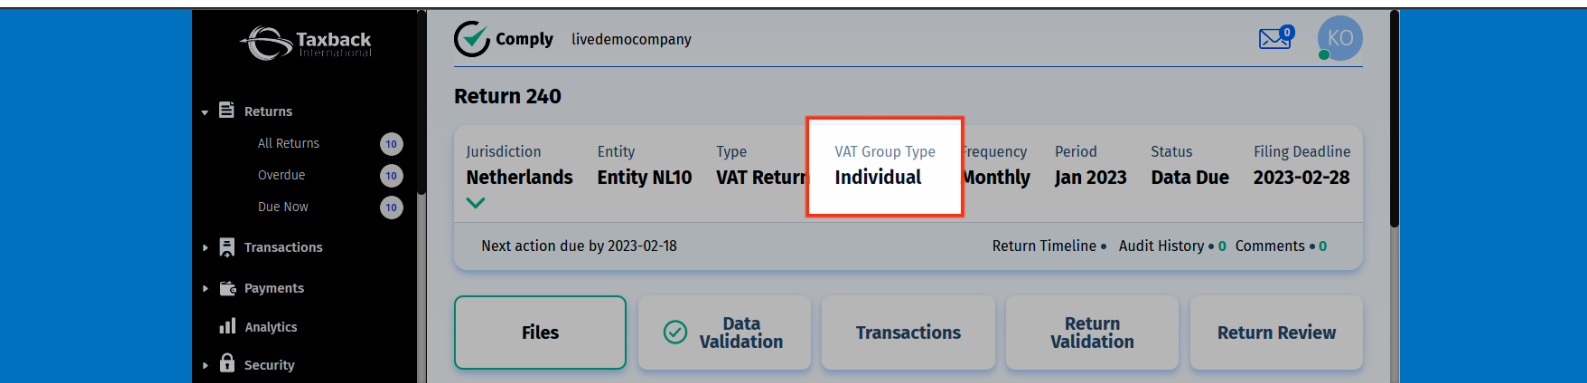

4. Click the blue **Save** button at the bottom of the screen.

The screenshot shows the bottom portion of a software interface. On the left, there is a grey sidebar with fields for "Entity" (containing "L10") and "Name". To the right of these fields is a "Country" dropdown menu with "Ireland" selected and a downward arrow. Below these fields is a section titled "Box Default Values" with an edit icon (pencil). At the bottom of the sidebar, there is a button labeled "CANCEL" and a blue button labeled "SAVE". The "SAVE" button is highlighted with a red border. The main area of the screen is a solid blue rectangle.

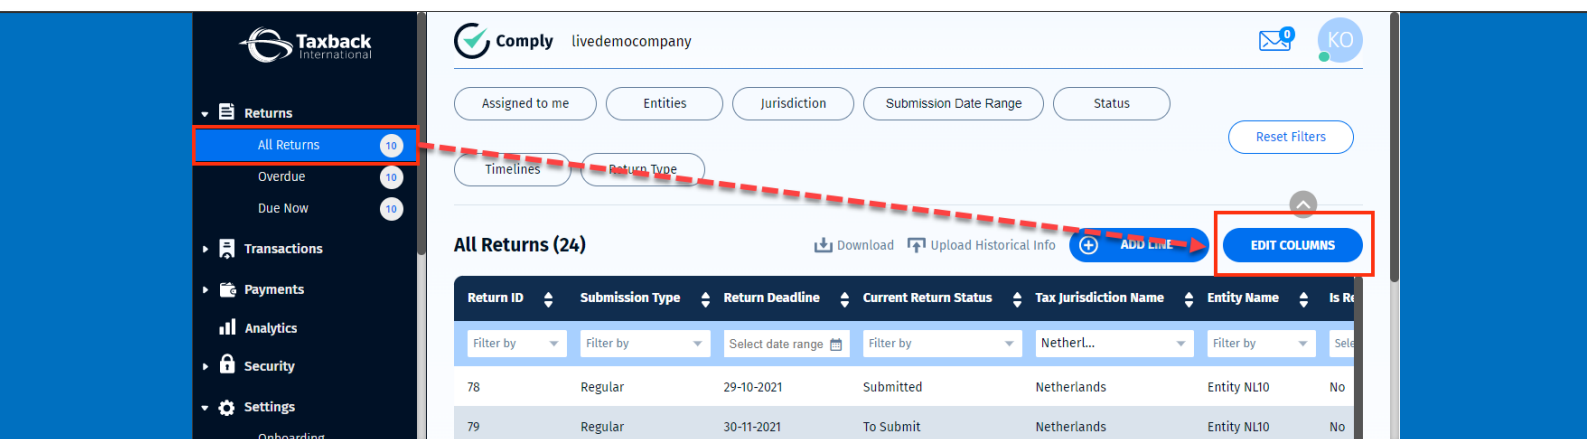

4. VAT Group Column Headers for Returns

Comply users can manage/edit the column headers to display VAT Group details in the Returns Section.

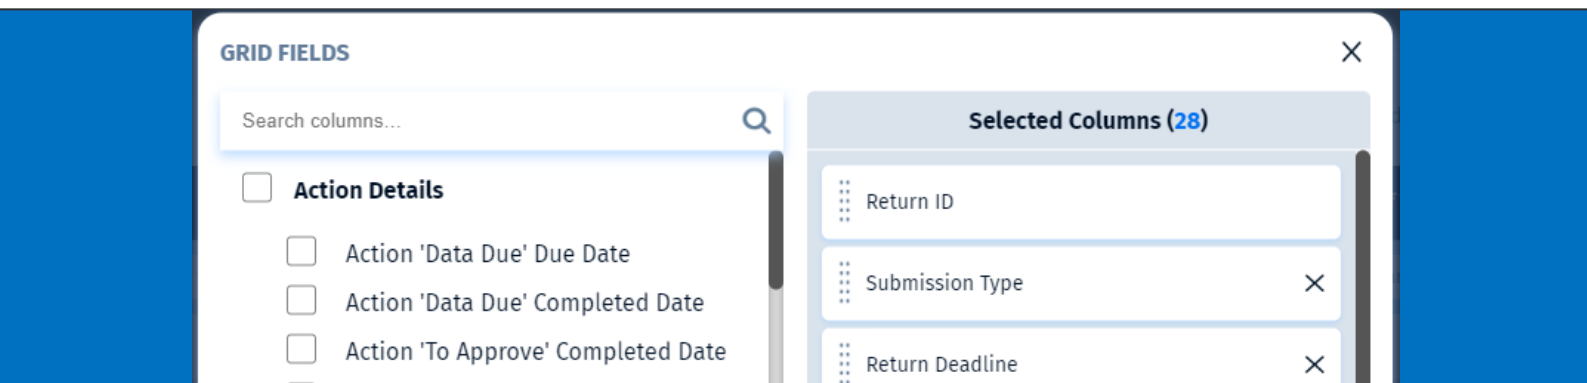

To do this:

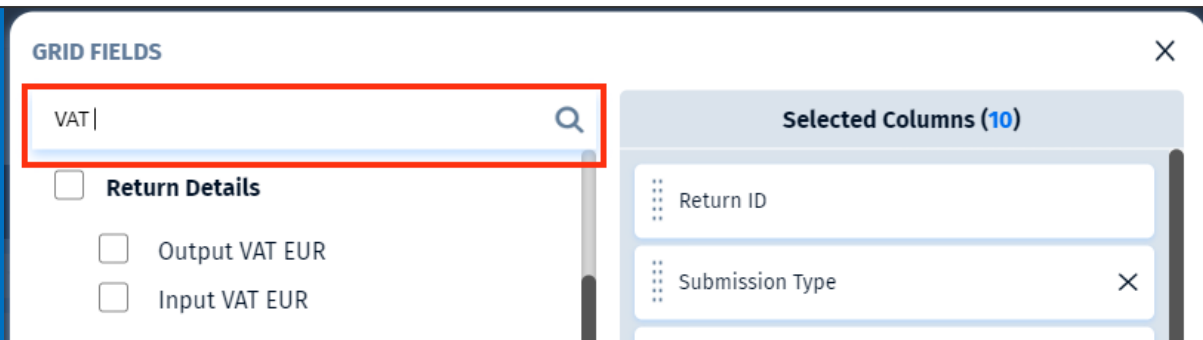

1. Go to **All Returns**.
2. Click the **Edit Columns** button.

3. Turn on the relevant VAT Group fields required.

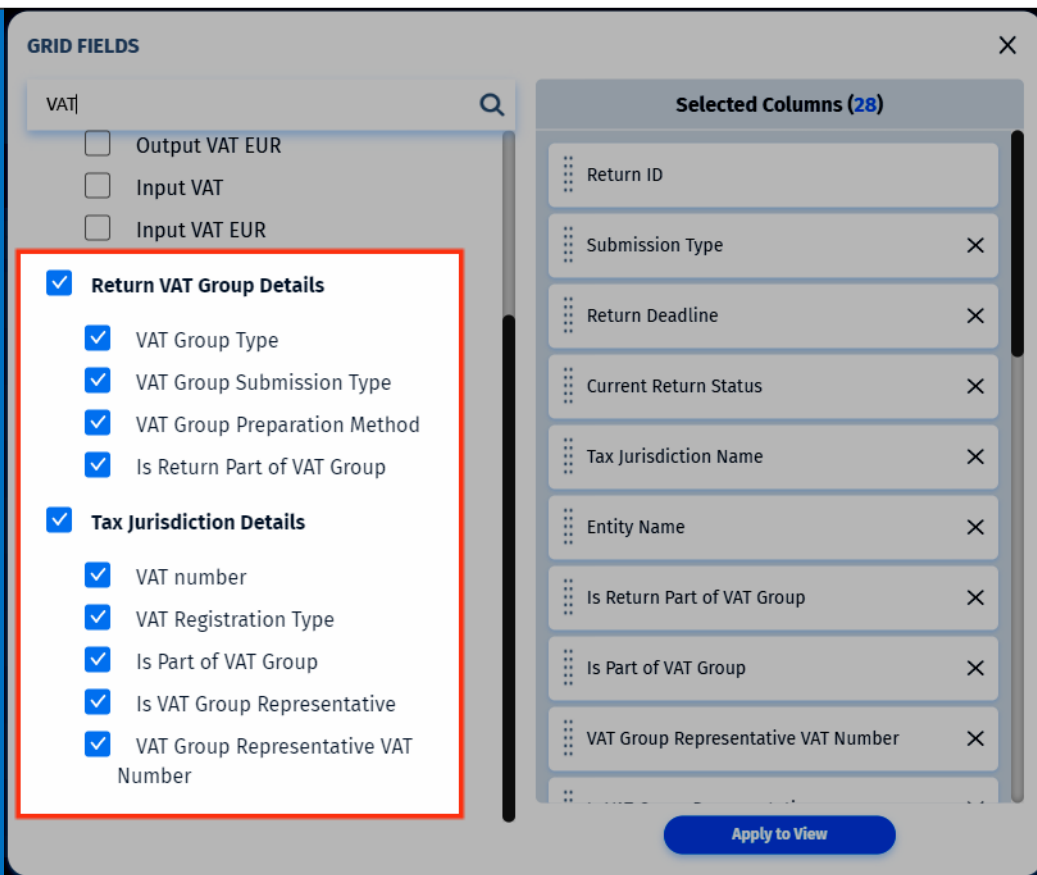

4. Type VAT in the search field.

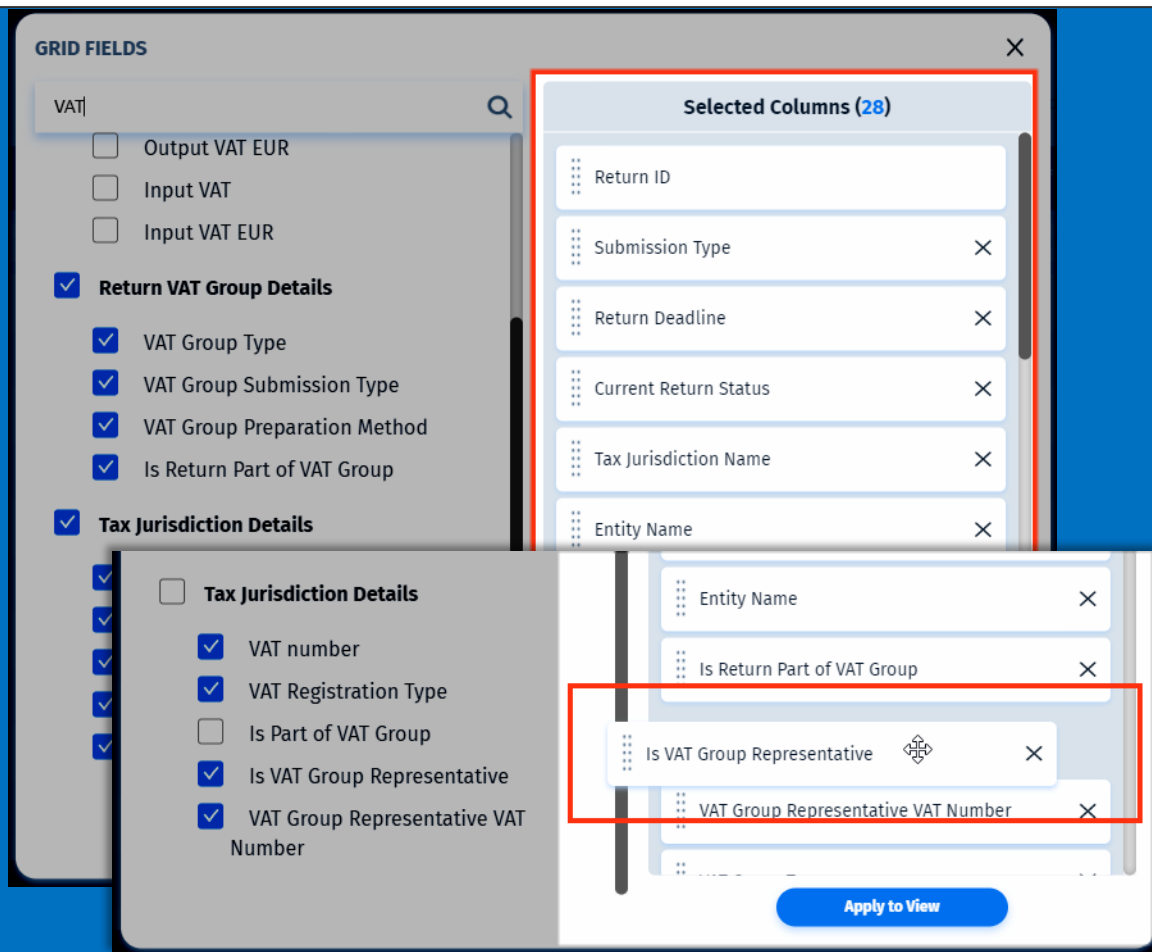

5. Enable each relevant VAT Group fields from the **Return VAT Group Details** and **Tax Jurisdiction Details** sections.

Please note: Selection in the screenshot is for demonstration purposes only. Users may have their own requirements and can configure this as they feel appropriate.

This will add the columns to the far right of the table which may require some scrolling.

- To rearrange the layout of the Columns, drag and drop the Columns to the desired location.

- Click **Apply to View**.
