1. Overview

Purpose of this document

The purpose of this document is to provide guidance, context, and instruction on how to create a self-revision.

1.1. Introduction

A Self Revision allows the Comply User to either:

- Create amendments to a submitted return.
- Create a supplementary Return after a Return has been submitted.

Please note: This functionality is only available to users who have been assigned the role of **Preparer or Reviewer**.

1.2. Self-Revision Submission Types

When creating a Self-Revision, the following options may be available:

Revision Submission Type	Description
Amendment	Create a new submission which includes all transactions details from the original return and any additional transactions which are required to be reported for this particular period. <i>E.g. Entity has 10 transactions worth €100k of Domestic Sales which are reported in the submitted return, however 15 transactions worth €150k are actually required to be submitted.</i> <i>An amended return includes all transactions – the original 10 and the additional 5, and replaces the original submitted return.</i>
Supplementary	Create a new submission which includes only those additional which are required to be reported for this particular period. <i>E.g. Entity has 10 transactions worth €100k of Domestic Sales which are reported in the submitted return, however 15 transactions worth €150k are actually required to be submitted.</i> <i>A Supplementary return includes only the additional 5 transactions, and does not replace the original return.</i>

3. Jurisdiction Specifics

3.1. Ireland

3.1.1. Submitting an Amendment Return (Intrastat)

It is important to note that, once you create and submit the Amendment Return, Revenue will inform you that an Intrastat return has already been submitted.

Action Required:

Inform Revenue that the original submission was incorrect, and request that it be deleted. To do this...

- Add the following on Revenue My Enquiries.
- Or
- Via e-mail to VIMAHHELP@revenue.ie (only if you don't have a login for My Enquires)

Incorrect Return:

Advise that the following return was incorrect and should be deleted, including the following details:

- Your VAT Number
- Date and Month of the Return
- Return Type (Arrivals/Dispatches)
- Invoice Value
- Date Submitted

Amended Return:

Advise that you have submitted a new correct return including the Date and Month submitted.

3.1.2. Submitting a Supplementary Return (VAT Return)

IMPORTANT NOTE:

If the Total Sales Credits **is greater** than Total Sales (Or Total Purchase Credits **is greater** than Total Purchases), then you must inform Revenue (and obtain permission) **BEFORE** submitting the Return.

Alternatively, submit an Amendment VAT Return and include your transactions there.
(Amendment Returns do not require approval from Revenue in this scenario).
