Overview

Purpose of this document

The purpose of this document is to provide guidance, context, and instruction on the lifecycle of processing a Return in Comply.

Comply processes a return through the following steps/processes which are in turn assigned to a specific user:

1. Notifications

The platform is configurable to allow the users receive notifications by email. These notifications are a key part of the process for each user role and identify when a task assigned to you requires action.

E.g. When configured, the data provider will receive a notification by email, when data for a specific return is due.

Notes:

- **Notifications are linked to the scheduler, so will be triggered by the date assigned for each task.**
- **It is important that you have configured these notifications first, so that when tasks assigned to you become due, you will be made aware and can action them on time.**
- **Notifications are sent overnight.**
- **Regardless of the frequency a user has chosen, notifications are only sent once.**
- **If you select Daily notifications, you will only receive one if you have assigned tasks due.**

What does the user receive?

The user will only receive notifications if:

- The action is "Due Now". This means action is required within the next 3 days.
- The action is required and is "Overdue". This means, the action is late (based on the preconfigured deadlines) and puts the return at risk of missing the statutory submission deadline.

Only the person assigned the relevant role, will receive these notifications. I.e. Only the Preparer will receive notification for returns which have been moved to a status of "To Prepare" and action is due within 3 days.

1.1. Configure User Notifications

Notifications are a key part of the process for each user role. These identify when a task assigned to you requires action. It is important that you have configured the notifications, so that when tasks assigned to you become due, you will be made aware and can action them on time.

Please note: If you do not complete this step, you will not receive notifications when tasks assigned to you are due. You will need to review the Returns menu more frequently.

The following Steps are required to successfully complete this process:

1. Login to Comply.
2. Click **Security** on the Menu.
3. Click **User Details** on the sub-menu.

The screenshot displays the 'User Details' page for a user named Keith O'Sullivan. The left sidebar shows the 'Security' menu item highlighted, with 'User Details' as a sub-option. The main content area is divided into four sections:

- Personal Details:** Fields for First Name (Keith), Surname (O'Sullivan), Country (Select Country), Phone, E-mail (kosullivan@taxbackinternational.com), Account Role (Administrator), and User Category (TBI Staff).
- Report Role:** A table listing roles for the user.
- Settings:** Includes Access Type, Account Active status, Two Factor Authentication, Single Sign On, Account Created on (2021-10-19 09:48:12), Last Logged in (2021-11-11 14:45:07), Notification Preferences, and Escalation Trigger.
- SFTP Details:** Fields for Username (kosullivan9192838179 test), Host (sftp.taxbackinternational.com), and Port (22), with a button to 'EMAIL MY CREDENTIALS'.

1.2. Viewing Email Notifications

Example 1: Once a return is due, the Data Provider will receive a notification identifying that the data file is due to be uploaded and will display a status of **Data Due**.

Example 2:

Once a data provider uploads the data file, the preparer receives a notification to say they have a return assigned to them, which has a task due. The status will say **To Prepare**.

Email Notification

The user will receive a notification email to their inbox.

Below as a sample of an email reminder:

We need your attention and actions on the following returns:

Data Provider - 2 returns						
Entity	Country	Type	Frequency	Return Period	Due Date	Status
UK1	United Kingdom	VAT Return	Quarterly	Apr-Jun 2021	2021-08-01	Data Due
UK2	United Kingdom	VAT Return	Quarterly	Apr-Jun 2021	2021-08-01	Data Due

Approver - 2 returns						
Entity	Country	Type	Frequency	Return Period	Due Date	Status
UK2	United Kingdom	VAT Return	Quarterly	Oct-Dec 2020	2021-02-07	To Approve
UK2	2021-08-01 United Kingdom	VAT Return	Quarterly	Apr-Jun 2020	2021-05-08	To Approve

Please [log in](#) to your account, and help us move forward with your compliance returns.

Thank you!

Best regards,
TBI Compliance team
[Support at Taxback International](#)

Please do not reply to this email

Note: If the user is responsible for multiple roles and multiple returns, the reminder may be combined and grouped appropriately in the email.

The user is advised to login to Comply to take the necessary actions.

2. Email Alerts

Unlike standard notifications outlined in section 1 above, Email Alerts **are not** linked to the scheduler but are instead triggered by specific actions due or by specific actions which have been taken.

Note:

These alerts are sent in addition to the standard notifications sent which are linked to the scheduler.

- Standard Notifications linked to the scheduler are only sent if notifications have been configured (as in page 6 above).
- Email Alerts are sent by default, regardless of whether notifications have been configured.

2.1. Action Required: Return Data-Due Tomorrow

The following E-mail is sent to the **Data Provider** at **7am local time** on **the working day before the data is due**. This alerts the Data Provider that the data is due on the next working day and that they should login and upload the relevant data file.

E.g. The Data is due on Monday 30th Sept, then the Data Provider will receive the email at 7am on Friday 27th Sept.

Key Notes:

- The Subject is “Action Required – Return Data-Due Tomorrow”.
- The E-mail is a “DO NOT RESPOND” notification.
- The E-mail contains a link back to the Return in Comply – *on clicking the link, the user will be asked to Authenticate (Sign in) and will automatically be brought to the relevant return.*
- The E-mail contains a link (In the Signature) which links back to the Support Desk.

2.2. Action Required: Return Data Upload – Deadline Passed

The following E-mail is sent to the **Data Provider** at 7am on the next working day after the Data Upload was due. This alerts the Data Provider that action is required immediately as the return is at risk of being filed late. The user should log on to Comply and upload the data file.

E.g. The Data Upload was due on Friday Sept 1st but as the file was not uploaded, the Data Provider will receive an email at 7am on Monday 4th Sept. A

Key Notes:

- The Subject is “Action Required: Return Data Upload – Deadline Passed”.
- The E-mail is a “DO NOT RESPOND” notification.
- The E-mail contains a link back to the Return in Comply – *on clicking the link, the user will be asked to Authenticate (Sign in) and will automatically be brought to the relevant return.*
- The E-mail contains a link (In the Signature) which links back to the Support Desk.

2.3. Action Required: Return Ready for Approval

The following E-mail is sent to the **Approver immediately** once a return had been Sent to Approve by the Reviewer. This alerts the approver that a return they are assigned has been reviewed and is ready to Approve. They should now login to Comply and Approve (or Reject if required) the return.

E.g. The Reviewer clicks the **Send for Approval** button, this triggers an immediate automatic Email to the Approver

Key Notes:

- The Subject is "Action Required – Return Ready for Approval".
- The E-mail is a "DO NOT RESPOND" notification.
- The E-mail contains a link back to the Return in Comply – *on clicking the link, the user will be asked to Authenticate (Sign in) and will automatically be brought to the relevant return.*
- The E-mail contains a link (In the Signature) which links back to the Support Desk.

2.4. Action Required: Return Successfully Submitted. Arrange Payment Where Required.

The following E-mail is sent to the **Approver and/or Treasurer** (if they are not the same person, then it will be sent to both) **immediately** once a return had been Submitted. This alerts the Approver and/or Treasurer that a return they are assigned has been Submitted and is ready for payment. They should now arrange payment.

E.g. The Approver clicks the **Submit** button, this triggers an **immediate** automatic Email to the Approver and/or Treasurer

Key Notes:

- The Subject is “Action Required – Return Successfully Submitted. Arrange payment where required”.
- The E-mail is a “DO NOT RESPOND” notification.
- The E-mail contains a link back to the Return in Comply – *on clicking the link, the user will be asked to Authenticate (Sign in) and will automatically be brought to the relevant return.*
- The E-mail contains a link (In the Signature) which links back to the Support Desk.

2.5. Action Required: Return Reverted back to “To Prepare”

The following E-mail is sent to the **Preparer** immediately once the status of a return has reverted back to “To Prepare”. This alerts the Preparer that:

- The return has changed back to “To Prepare”.
- The Submission Deadline for that return.
- The return could be at risk of being submitted late.

E.g. If prior to submission, the return is rejected, this triggers an **immediate** automatic Email to the Preparer.

Please Note: A return can be reverted back to “To Prepare” from the following statuses:

- From “To Review” to “To Prepare”
- From “To Approve” to “To Prepare”
- From “To Submit” to “To Prepare”

Key Notes:

- The Subject is “Action Required – Return Reverted from [-Status-] back to “To Prepare”.
- The E-mail is a “DO NOT RESPOND” notification.
- The E-mail contains a link back to the Return in Comply – *on clicking the link, the user will be asked to Authenticate (Sign in) and will automatically be brought to the relevant return.*
- The E-mail contains a link (In the Signature) which links back to the Support Desk.

3. Delegating Roles

Comply can be configured to delegate an assigned users tasks to another user, i.e. in the event of a planned absence, the delegated user will receive the notifications.

Example:

Juan is assigned as the Data Provider for ABC Company. He has a 2 week vacation Planned, during which time he knows some of his assigned returns will have files due to be uploaded. Juan delegates his role to Carole for those 2 weeks. Carole will now receive the email notifications once the files are due, and will have access to the returns. After the 2 weeks, responsibility automatically returns to Juan.

To do this:

1. Go to the **Security** menu.
2. Click **User Details**.

The screenshot displays the 'User Details' page for 'Georgi Test Georgiev' in the Taxback Comply system. The left sidebar shows the 'Security' menu with 'User Details' highlighted. The main content area is divided into three sections: Personal Details, Report Role, and Settings. The Report Role section contains a table with columns for Entity Name, Jurisdiction, Return Type, Report Role, and Delegate. The Settings section includes an Access dropdown and toggle switches for Account Active, Two Factor Authentication, and Single Sign On.

Entity Name	Jurisdiction	Return Type	Report Role	Delegate
Entity DE01	German y	VAT Return	Preparer	-
Entity DE01	German y	VAT Return	Reviewer	-

>>Go to Next Page

3. In the Report Role section, click the Pencil Icon beside the role you wish to delegate.

Report Role				
Entity Name	Jurisdiction	Return Type	Report Role	Delegate
☐ Apply to all Select Name Select date range				
Entity DE01	Germany	VAT Return	Preparer	-
Entity DE01	Germany	VAT Return	Reviewer	-
Entity DE01	Germany	VAT Return	Approver	-
Entity DE01	Germany	VAT Return	Submitter	-
Entity DE01	Germany	VAT Return	Payment Approver	-
Entity DE01	Germany	VAT Return	Treasurer	-
Entity DE01	Germany	VAT Return	Data Provider	-
Entity DE01	Germany	VAT Return	Escalation TBI	-
Entity DE01	Germany	VAT Return	Escalation	-

4. Click the green + button to add a name.

Jurisdiction	Return Type	Report Role	Delegate	Access
Germany				Access Type
Germany				Account
Germany				Two
Germany				Sing
Germany				Account Creat
Germany				022-04-08 14
Germany				Last Logged in
Germany				022-05-12 15:
Germany				Notificatio
Germany				Once a day
Germany	VAT Return	Escalation TBI	-	

Delegate

Delegate Name	From	To	When	By whom
CLEAR				
APPLY				

5. Add a name (select from a drop-down) and Select a date range (From and To).

The screenshot shows a 'Delegate' modal window. At the top, there is a green '+' icon. Below it is a table with the following columns: 'Delegate Name', 'From', 'To', 'When', and 'By whom'. A single row is present in the table with the following values: 'Albert' under 'Delegate Name', and '2022-05-01 - 2022-05-31' under 'From' and 'To'. To the right of this row is a trash icon. At the bottom of the modal, there are two buttons: 'CLEAR' and 'APPLY'.

Delegate Name	From	To	When	By whom
Albert	2022-05-01	2022-05-31		

6. Click **Apply**.

This automatically returns to the original user after the date range is complete.

4. Escalation Triggers

Comply can also be configured to notify a specific user when certain tasks (assigned to others) are overdue. E.g. If the Data Provider has not uploaded the file on time, a notification can be triggered to escalate it to a designated person who can investigate the issue.

Please note: This functionality only works when the specific role of Escalation Manager has been assigned (this is configured by an admin user).

Escalation Trigger 1 Days

4. Click the  icon, to open the edit mode.
5. Go to Escalation Trigger.

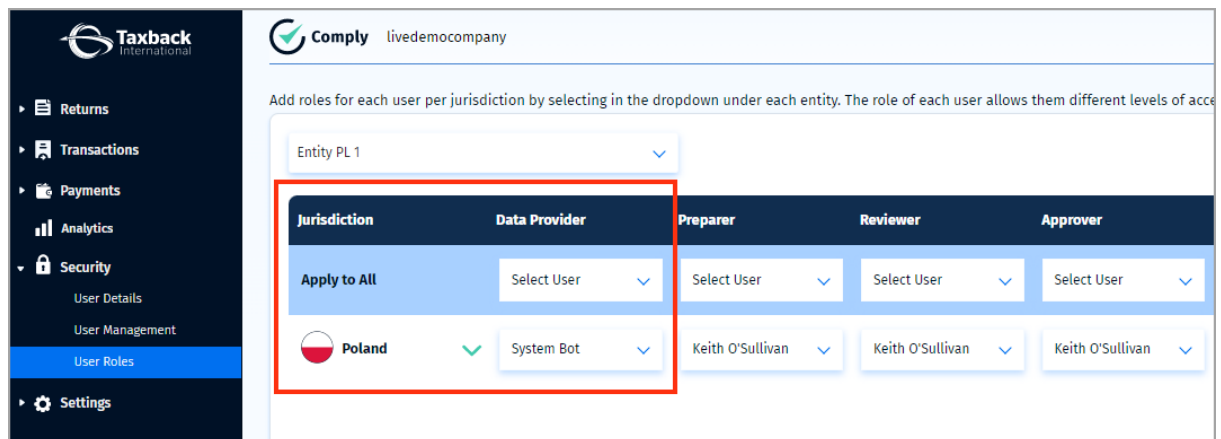

Escalation Trigger 1

6. Enter the number of days after which a task is overdue, is escalated to you.
7. Click Save.

5. Processing a Return (API Users)

For clients using API's for data upload, it is key that during onboarding the Data Provider role is assigned to System Bot (as opposed to a physical user). This is generally configured during onboarding or by an Admin User.

Security > User Roles

The screenshot displays the 'Security > User Roles' configuration page in the Taxback International Comply system. The page shows a table for assigning roles to users across different jurisdictions. A red box highlights the 'Data Provider' column for the 'Poland' jurisdiction, where 'System Bot' is selected. The table also includes columns for 'Preparer', 'Reviewer', and 'Approver', all of which have 'Keith O'Sullivan' assigned.

Jurisdiction	Data Provider	Preparer	Reviewer	Approver
Apply to All	Select User	Select User	Select User	Select User
Poland	System Bot	Keith O'Sullivan	Keith O'Sullivan	Keith O'Sullivan

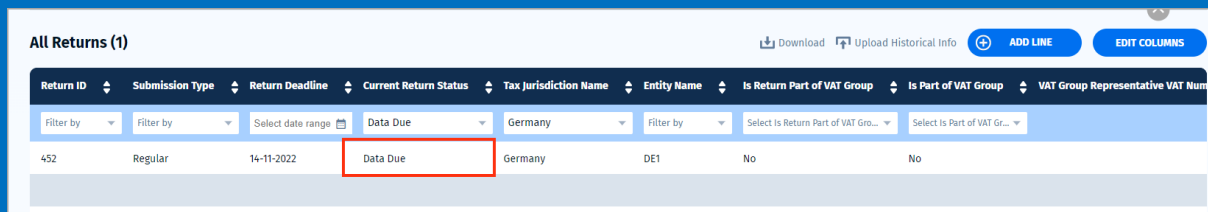

All relevant client data will be uploaded via the API and pushed through preconfigured mapping and validation. The Return details will be made available to the Preparer and will have a status of To Prepare.

5.1. Return Status

Clients using API to upload return data will only manually process returns in Comply which have a status of **To Prepare**.

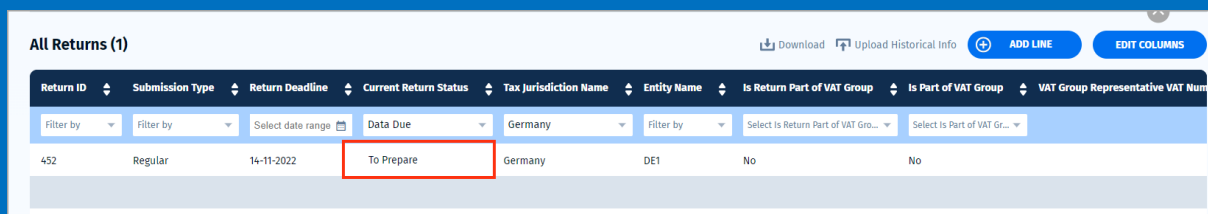

Data Due	Return Status Displayed
Prior to first transaction pushed via API	Data Due
After first transaction pushed via API	To Prepare

5.1.1. Before first transaction is pushed via API

Return ID	Submission Type	Return Deadline	Current Return Status	Tax Jurisdiction Name	Entity Name	Is Return Part of VAT Group	Is Part of VAT Group	VAT Group Representative VAT Num
452	Regular	14-11-2022	Data Due	Germany	DE1	No	No	

5.1.2. After first transaction is pushed via API

Return ID	Submission Type	Return Deadline	Current Return Status	Tax Jurisdiction Name	Entity Name	Is Return Part of VAT Group	Is Part of VAT Group	VAT Group Representative VAT Num
452	Regular	14-11-2022	To Prepare	Germany	DE1	No	No	

6. Preparer

Based on the scheduled due date for the To Prepare step, the assigned preparer will receive an email notification (based on how they have configured their notification preferences).

6.1. Data Validation.

Click the Data Validation Tab.

This displays a list of the rules and validation checks. If any of these display errors, the preparer needs to assess and make the necessary changes where possible.

Rule ID	Validation	Total	OK	Error	Warning	Errors		Warning		Reviewer		Approver	
						Fixed	Accepted	Fixed	Accepted	Reported	Resolved	Reported	Resolved
C1.13	Valid Input VAT Percentage	133	131	2	0	0	0	0	0	0	0	0	0
C1.14	Valid Input VAT Rate Within Date Range	133	131	2	0	0	0	0	0	0	0	0	0
D1.01	Check Domestic Transaction VAT Rate Input	133	131	2	0	0	0	0	0	0	0	0	0
H1.104	Check Input Net Amount Multiplied By VAT Rate Equals VAT Amount	133	131	2	0	0	0	0	0	0	0	0	0
C1.12	Valid Input VAT Rate TBI VAT Rate	133	131	2	0	0	0	0	0	0	0	0	0
H1.69	Check Output Sign Net Amount Corresponds To Sign VAT Amount	133	133	0	0	0	0	0	0	0	0	0	0
E1.09	Null Data VAT Rate	133	133	0	0	0	0	0	0	0	0	0	0

To make changes or to fix any errors:

1. Click on the relevant row on which the error has been displayed.
This will display the rule, where the validation has failed.
2. Use the scroll bar to locate the highlighted section, this will display the validation error.

Fix data error in the file below

Files Data Validation Transactions Return Validation Return Review

Correct: 133 Error: 0 Warning: 0 Total: 133 Processed: 133 of 133 ✓

Go to return validation >

Rule ID	Validation	Total	OK	Error	Warning	Errors		Warning		Reviewer		Approver	
						Fixed	Accepted	Fixed	Accepted	Reported	Resolved	Reported	Resolved
H1.69	Check Output Sign Net Amount Corresponds To Sign VAT Amount	133	133	0	0	0	0	0	0	0	0	0	0
B2.19	Format Check Output VAT Rate	133	133	0	0	0	0	0	0	0	0	0	0
A2.16	Null Data Output Transaction To Tax Jurisdiction Currency Fx	133	133	0	0	0	0	0	0	0	0	0	0
B2.06	Format Check Output Net Amount	133	133	0	0	0	0	0	0	0	0	0	0
C1.18	Check Input Invoice Date Before Return Period Start Date	133	133	0	0	0	0	0	0	0	0	0	0

In this case, all the errors were in fact related to the incorrect VAT Rate, so by changing it in error, has fixed all the other related errors. We can see that all 133 validation checks have now been processed successfully.

He user can now move onto the next step.

6.2. Transactions.

Click the **Transactions** tab.

The data preparer, should review the transactions here, to confirm they are in good order.

1. Display Transactions by:

These colour coded buttons allow the user display transactions by:

- Transactions Added
- Transactions Modified
- Transactions sent for Correction
- Transactions Excluded

2. Download Transactions

This allows the user to download the full list of transactions in the table displayed

3. Add Transactions

This allows the user to manually add transaction perhaps not included in the upload.

Add Transaction

Template

DETemp

Mandatory Fields

Field Name	Value	Field Name	Value
TBI Transaction Type *	Please Select	TBI Transaction Category *	Please Select
TBI Goods Services Category *	Please Select	Invoice No *	
Invoice Date *		Net Amount *	
Vat Rate *		Vat Amount *	

Customer/Supplier Details Intrastat Invoice Details Ship To/From Transaction Amount

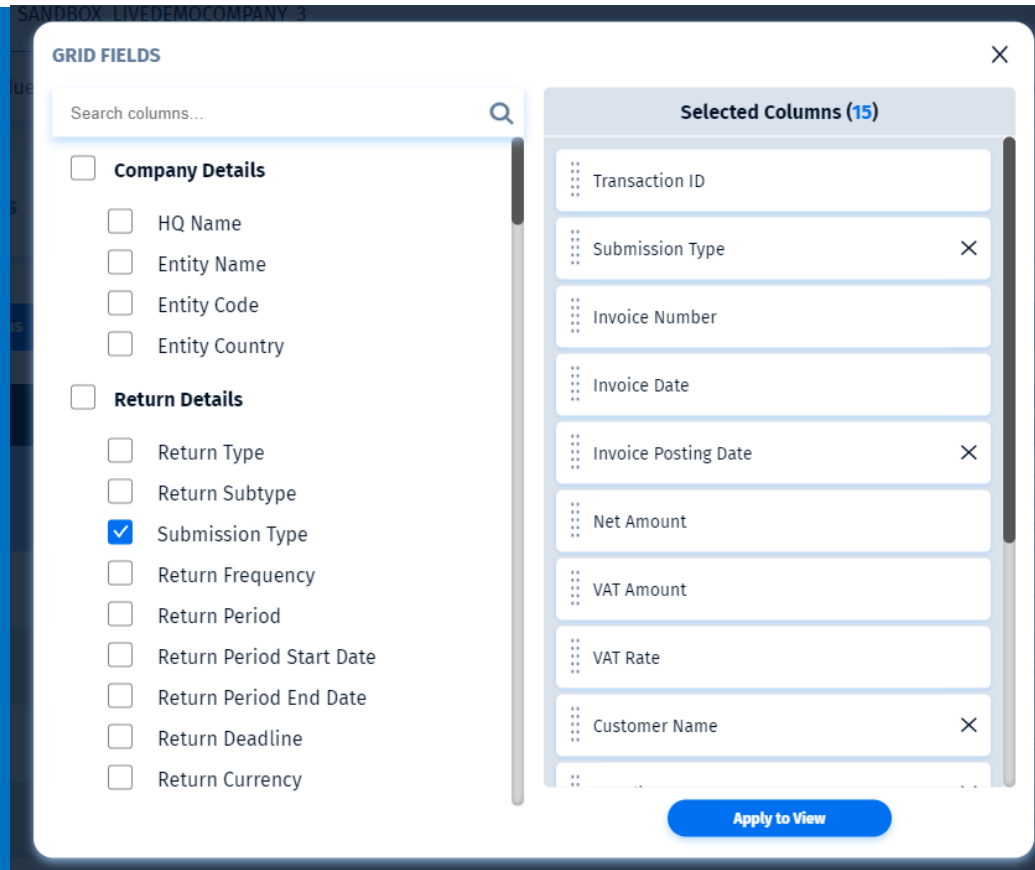

Drop files here, browse files or import from:

My Device Google Drive Dropbox

The user can manually complete the required fields and upload any relevant files.

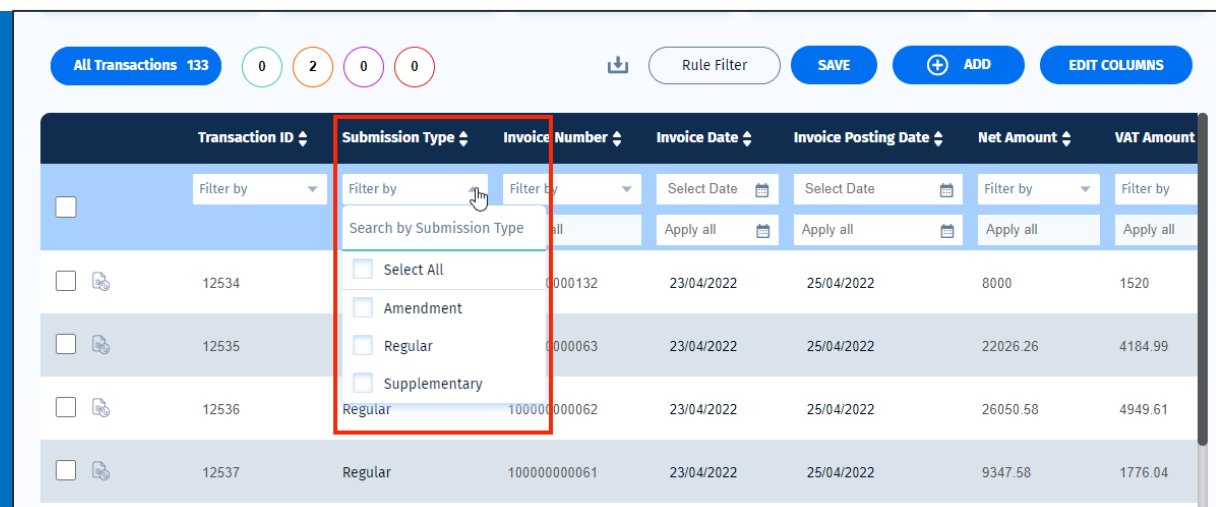

4. Edit Columns

This allows the user to edit the view to display specific relevant columns and data.

5. Filter the displayed data.

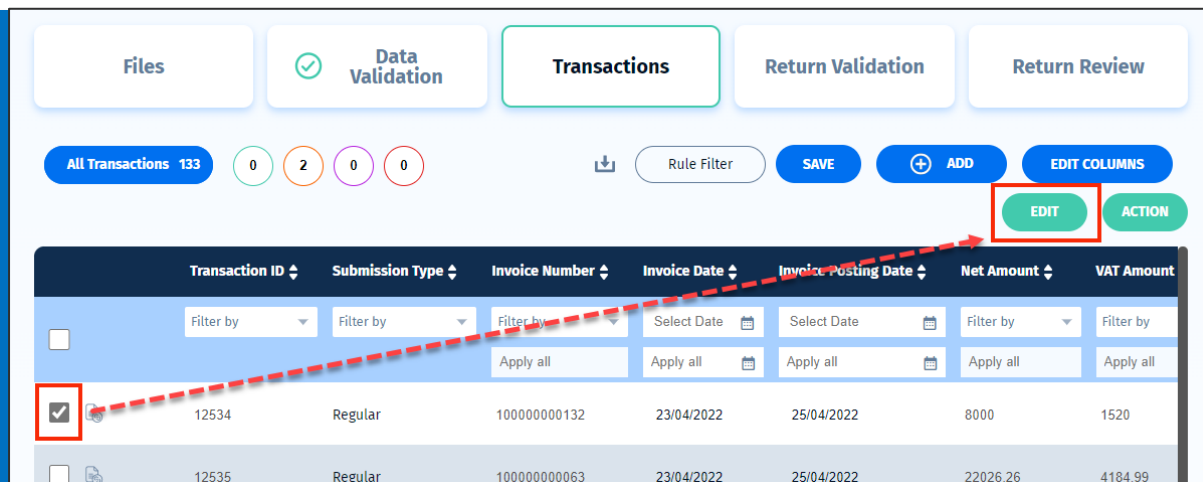

The user can also filter the data to display on a subset of the transactions.

6.2.1. Edit a transaction

If required during review, the preparer can amend transactions at this stage. To do this:

1. Select the relevant transaction to amend (Click the check box).
2. Click the **Edit** button.

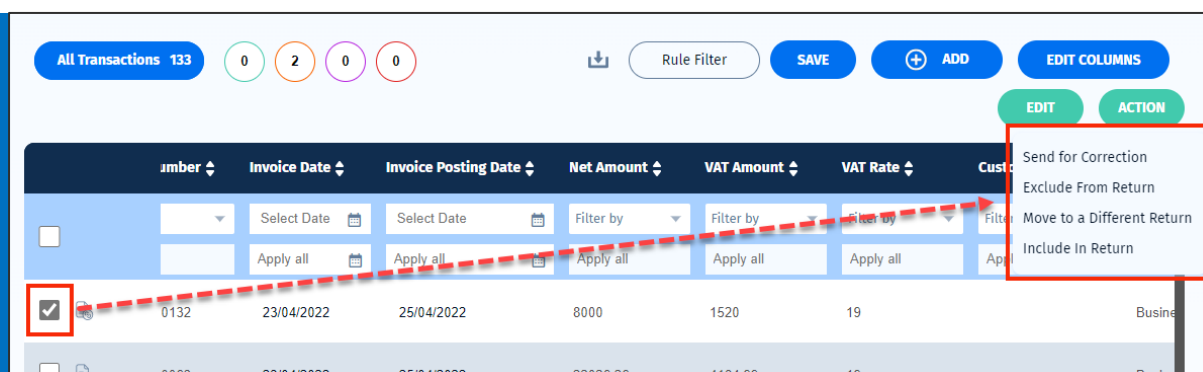

3. Complete/update the relevant available fields.
4. To save the changes, simply untick the box.

6.2.2. Transaction Actions

The user can also perform specific actions in relation to these transactions. Again, to perform any of these the user can:

1. Select the relevant transaction to amend (Click the check box).
2. Click the **Action** button.

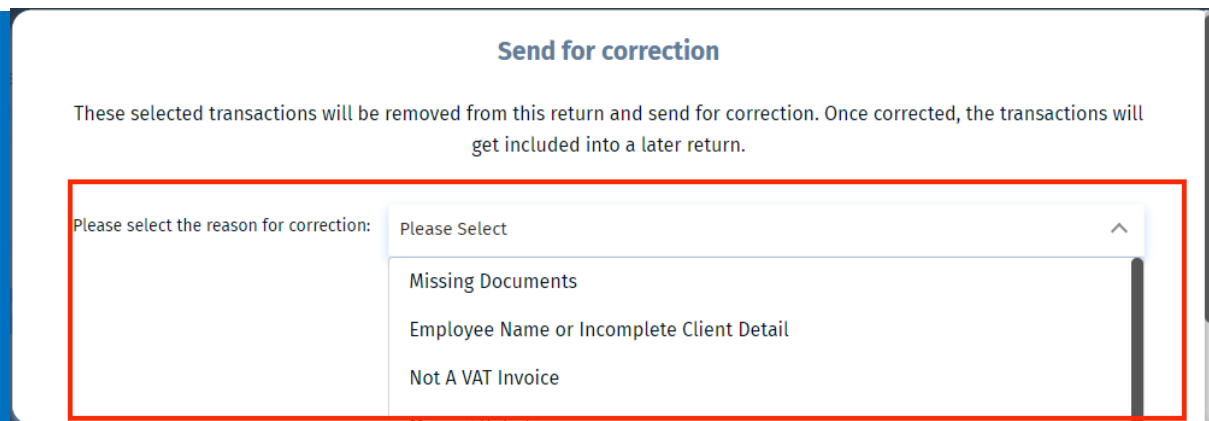

3. Select the required Action.

Send for Correction

Upon review, the user can choose to send the transaction back to be corrected. In this case the user must select a reason from the drop down menu and click Save.

This does not impact the ability to process this return, but once corrected, the transaction will be added to a later return.

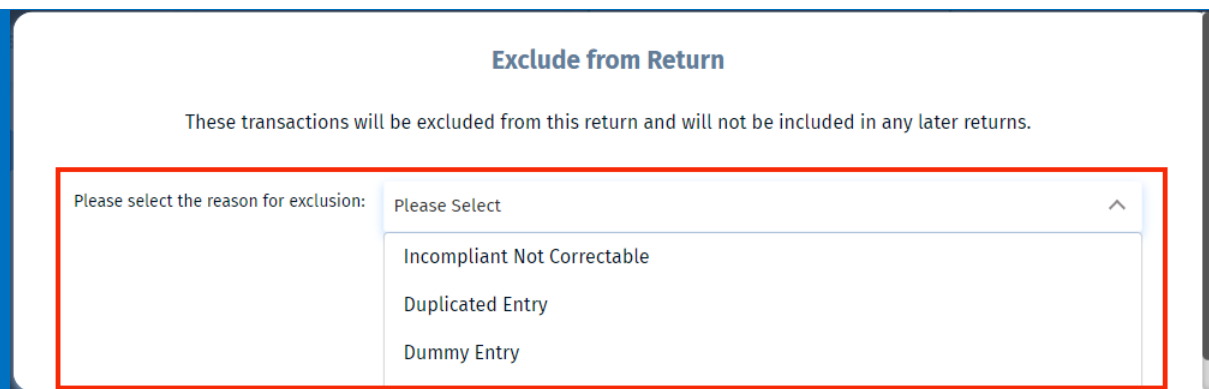

The screenshot shows a web interface titled "Send for correction". Below the title, a message states: "These selected transactions will be removed from this return and send for correction. Once corrected, the transactions will get included into a later return." Below this message is a form with a label "Please select the reason for correction:". To the right of the label is a dropdown menu. The dropdown menu is open, showing a list of options: "Please Select", "Missing Documents", "Employee Name or Incomplete Client Detail", and "Not A VAT Invoice". The dropdown menu is highlighted with a red border.

Exclude from Return

Upon review, the user can choose for the transaction back to be excluded from this return. In this case the user must select a reason from the drop down menu and click Save.

This does not impact the ability to process this return and the transaction will not be added to any later return.

The screenshot shows a web interface titled "Exclude from Return". Below the title, a message states: "These transactions will be excluded from this return and will not be included in any later returns." Below this message is a form with a label "Please select the reason for exclusion:". To the right of the label is a dropdown menu. The dropdown menu is open, showing a list of options: "Please Select", "Incompliant Not Correctable", "Duplicated Entry", and "Dummy Entry". The dropdown menu is highlighted with a red border.

Move to a Different Return

If the user reviews and identifies a transaction which does not belong in this return, they can choose to move it.

To do this, the user must select the reason from the drop down menu and also select the relevant return for it to be moved to.

Move to a different Return

These transactions will be excluded from this return and will be added to the return selected below.

Please select the reason for exclusion: Does Not Belong To This Reporting Period

	Return ID	Entity Name	Tax Jurisdiction Name	Return Frequency	Current Return Stat
	Filter by	Filter by	Filter by	Filter by	Filter by
☐	10	Entity PL 1	Poland	Monthly	Data Due
☐	11	Entity PL 1	Poland	Monthly	Data Due
☐	12	Entity PL 1	Poland	Monthly	Data Due

That complete the Transactions section.

6.3. Return Validation

Click the **Return Validation** tab.

The Data Preparer should review the validation checks for errors or warnings. They should also check and review the Variance Analysis.

Here, Comply provides built in Analytics tools to help the preparer in identifying trends, variances and data analysis.

Validation	OK	Error	Warning	Total Transactions
Complete Return Calculation	1	0	0	1
Check Annual Return Output Tax Amount Matches Monthly Returns	1	0	0	1
Check Annual Return Input Tax Amount Matches Monthly Returns	1	0	0	1
Count of Transaction Difference Compared to Previous Return	1	0	0	1
Check Total Output Higher Than Total Inputs	1	0	0	1
Inputs Difference Compared to Previous Return	1	0	0	1
Output Difference Compared to Previous Return	1	0	0	1
Input VAT Difference Compared to Previous Return	1	0	0	1
Output VAT Difference Compared to Previous Return	1	0	0	1

You can also view **Analytics** from the main menu.

6.4. Return Review

Click the **Return Review** tab.

From here the data preparer can review the return in detail in preparation for sending for review.

Here they can:

- View/Amend Numerical Boxes
- View/Amend Non-Numerical Boxes
- View and download the Return in its downloadable formats
- Change the review from English to local Language

6.4.1. Numerical Boxes

Here the user can review the numerical boxes and their values. These again should be reviewed for accuracy and amended if required.

Section	Description	Original Value	Submitted Value
row 52	Output Value Added Tax	0.00	0.00
row 62	Remaining amount	-113,060.11	-113,060.11
row 66	Tax prepayment / surplus	-113,060.11	-113,060.11
Box 41	Intra-community SUPPLY (§ 4 / 1 b UStG) to customers with a VAT ID	0.00	0.00
Box 44	Intra-Community supply (§ 4 / 1 b UStG) of new vehicles to customers without a VAT ID	0.00	0.00
Box 49	Intra-Community supply (§ 4 / 1 b UStG) of new vehicles outside a company (§ 2a UStG)	0.00	0.00
Box 62	Further tax-free supplies with input tax deduction (for	0.00	0.00

To amend a box:

1. Click the pencil icon .
2. Click **Add**.

6.4.2. Return Review Deviations

The Numerical Boxes now include relevant previous period data. This is used as a visual comparison with previous periods which allows the user to make informed decisions relating to the current return.

This includes the following new columns which have been added to the Numerical Boxes:

- Previous Period
- Deviations
- Previous Year
- Attachments

Section	Description	Original Value	Submitted Value	Previous Period	Deviations	Previous Year	Attachments
Box 1	Acts and transactions subject to tax at a rate of 20%	78,500.43	78,500.43	-9106.09		-9271.64	
Box 2	Acts and transactions subject to tax at a rate of 9%	108,671.76	108,671.76	91799.47	↑ 18.38%	83845.93	
Box 2.1	Acts and transactions subject to tax at a rate of 5%	77,711.15	77,711.15	55276.8	↑ 40.59%	0	
Box 3	Acts and transactions subject to tax at a rate of 0%, incl.	1,284,561.70	1,284,561.70	420	↑ 305748.02%	420	
	Intra-Community supply of medical services						

Columns

- Previous Period – this displays the values from the previous return.
- Deviations – this displays deviations of the current month compared with the previous month.
- Previous Year – this displays the values from the same period of the previous year
- Attachments – the ability to attach supporting files which help provide clarity on the deviations (PDF, Word, Xls, Xlxs , JPEG ,PNG or copies of emails on a numerical return box).

Column Headers

The user can hover over each column header for more information on what the column displays:

Previous Period ⓘ	Deviations ⓘ	Previous Year ⓘ	Attachments
-9106.09	Values from the previous return	-9271.64	
91799.47	↑ 18.38%	83845.93	
55276.8	↑ 40.59%	0	
420	↑ 305748.02%	420	

Previous Period

This column displays the value from the Submitted Value from the previous return.

Current Return

Previous Period ⓘ	Deviations ⓘ	Previous Year ⓘ	Attachments
-9106.09		-9271.64	
91799.47	↑ 18.38%	83845.93	
55276.8	↑ 40.59%	0	

Previous Return (5686)

Submitted Value ⓘ		Previous Period ⓘ	Deviations ⓘ	Previous Year
-9,106.09		-9206.09		
91,799.47		91639.47	↑ 0.17%	
55,276.80		55166.8	↑ 0.2%	

Deviations

The Deviations column displays a % fluctuation (Positive/Negative) of the current month compared to the previous month. It is also colour coded.

Previous Period ⓘ	Deviations ⓘ	Previous Year ⓘ
-9106.09		-9271.64
91799.47	↑ 18.38%	83845.93
55276.8	↑ 40.59%	0
420	↑ 305748.02%	420

Logic	Description
Green	Where the deviation is below 50%, then that value is shown in green.
Red	Where the deviation is equal to/above 50%, then that value is shown in red.
Up Arrow	If the percentage is positive, then the value displays a Up Arrow Icon.
Down Arrow	If the percentage is negative, then the value displays a Down Arrow Icon.

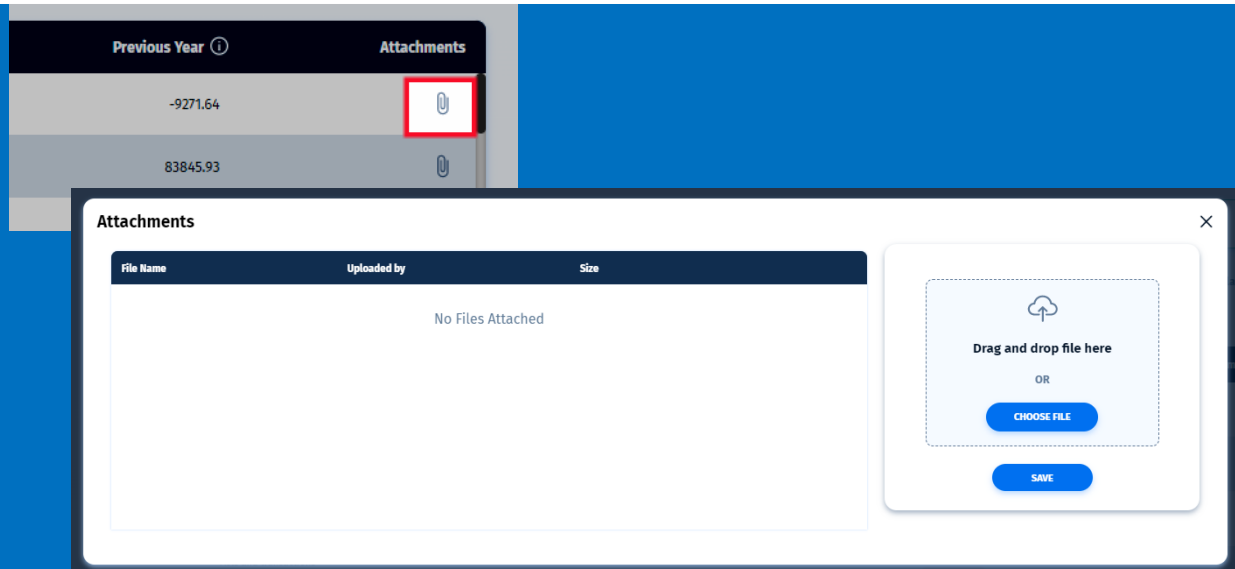

Previous Year

This Column displays the Submitted Values from the same period, but from the previous year.
E.g. The submitted values figure from Jan 2022 are populated in the Previous Year field for the Jan 2023 return.

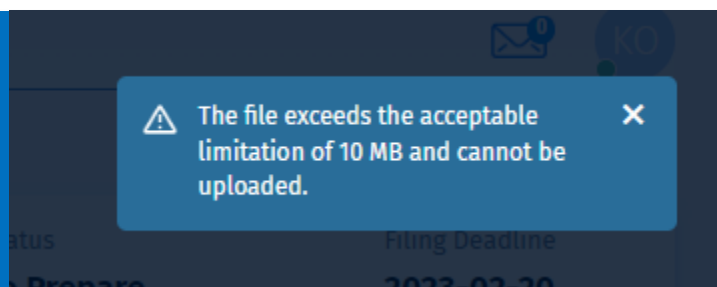

Previous Period ⓘ	Deviations ⓘ	Previous Year ⓘ	Attachments
-9106.09		-9271.64	
91799.47	↑ 18.38%	83845.93	
55276.8	↑ 40.59%	0	
420	↑ 305748.02%	420	

Attachments

This allows the user to add/view supporting files to add clarity around the deviation.

Please note: A max limit of 10 MB is placed on file uploads.

6.4.3. Non-Numerical Boxes

Here the user can review the non-numerical boxes and their values. These again should be reviewed for accuracy and amended if required.

To amend a box:

1. Click the pencil icon

Section	Description	Values	Edit	Audit History
tax number *	Tax Number			
tax office details *	Tax Office			
company name *	Company Name	Entity DE01		
street name *	Street Name			
street number *	Street Number			
address line 2 *	Additional Address Details			
city *	City			

2. Add/Amend the information in the editable field.
3. Click the Pencil icon again to save the changes.

Please Note: The Orange Info button, allows the user to see an Audit Trail of amendments made.

Date	Event Group	Change From	Change To	User	ID
26/05/2022	Non numeric Return Box Value change	-	- Company ABC	Keith O'Sullivan	1067
26/05/2022	Non numeric Return Box Value change	-	- Company ABC	Keith O'Sullivan	1066

Prev 1 Next View by 15 30 50

6.4.4. View Return

The user can also view the return in its available formats. To do this:

1. Click View Return.

The screenshot shows the 'Return Review' tab selected. Below the navigation bar, the 'Return Boxes' section is active. It displays a table with columns: Section, Description, Values, Edit, and Audit History. The table lists several boxes, including 'postcode', 'telephone', 'email', 'year', 'period', 'Box 10', and 'Box 22'. At the bottom of the table, there are three buttons: 'CREATE RETURN BOXES', 'VIEW RETURN' (highlighted with a red box), and 'SEND FOR REVIEW'.

The return documents will be displayed as clickable links in each format:

The screenshot shows the 'Review Return' section. A red box highlights a list of return documents: 'DE VAT Return' (PDF icon), 'DE VAT Return' (Excel icon), and 'DE_VAT_Return.xml' (XML icon). To the right of the list, there is a language toggle switch set to 'English'. At the bottom right, there is a 'Back' button and a 'SEND FOR REVIEW' button.

2. Click a link to open the review. This will download the relevant file.

32 Exempted intra-Community acquisitions; Acquisitions acc. to §§ 4b and 25c German VAT Act		
33 Taxable intra-Community acquisitions subject to a VAT rate of 19%		

6.4.5. Change the Return to Local Language

Comply produces the return by default in English, however the user can chose to change this to local language if required. To do this chose **Local Language** using the toggle as seen below.

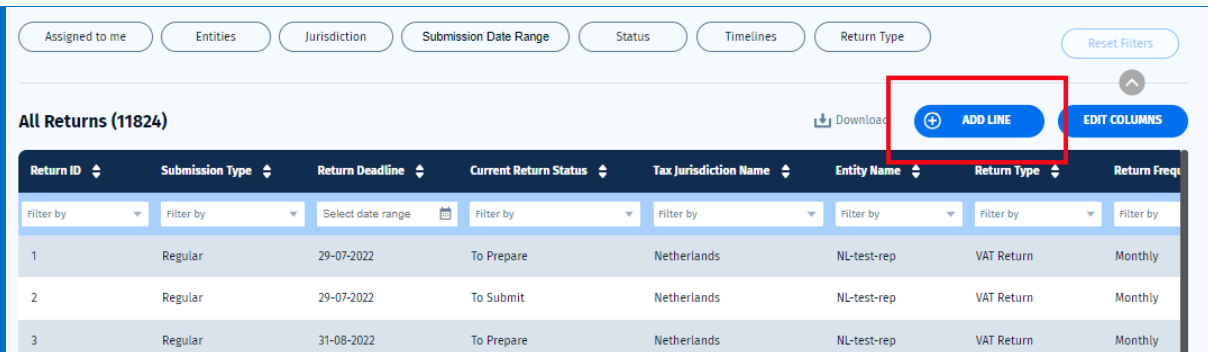

That completes the Data Preparers required actions. If the user is happy with the review and preparation, then they should click **Send For Review**.

6.5. Manually Add a New Return

To add a new return:

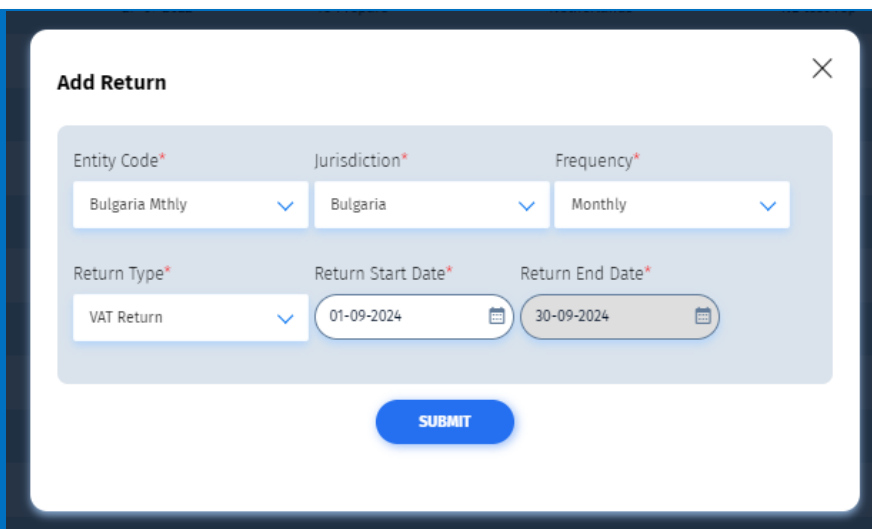

1. Go to the **All Returns** screen.
2. Click the **Add Line** button.

The screenshot shows the 'All Returns' screen with a table of returns. The 'ADD LINE' button is highlighted with a red box. The table has the following columns: Return ID, Submission Type, Return Deadline, Current Return Status, Tax Jurisdiction Name, Entity Name, Return Type, and Return Frequency.

Return ID	Submission Type	Return Deadline	Current Return Status	Tax Jurisdiction Name	Entity Name	Return Type	Return Frequency
1	Regular	29-07-2022	To Prepare	Netherlands	NL-test-rep	VAT Return	Monthly
2	Regular	29-07-2022	To Submit	Netherlands	NL-test-rep	VAT Return	Monthly
3	Regular	31-08-2022	To Prepare	Netherlands	NL-test-rep	VAT Return	Monthly

3. Complete the relevant mandatory fields on the **Add Return** Pop-Up. This includes:
 - a. Entity Code
 - b. Jurisdiction
 - c. Frequency
 - d. Return Type
 - e. Return Start and End Dates (End date will auto populate based on Return Frequency).

The screenshot shows the 'Add Return' pop-up form. It contains the following fields:

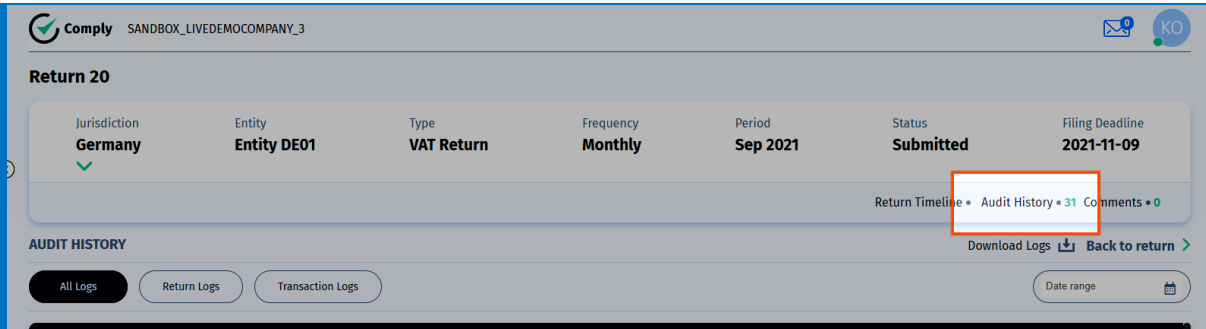

- Entity Code*: Bulgaria Mthly
- Jurisdiction*: Bulgaria
- Frequency*: Monthly
- Return Type*: VAT Return
- Return Start Date*: 01-09-2024
- Return End Date*: 30-09-2024

A blue 'SUBMIT' button is located at the bottom of the form.

4. Click **Submit**.

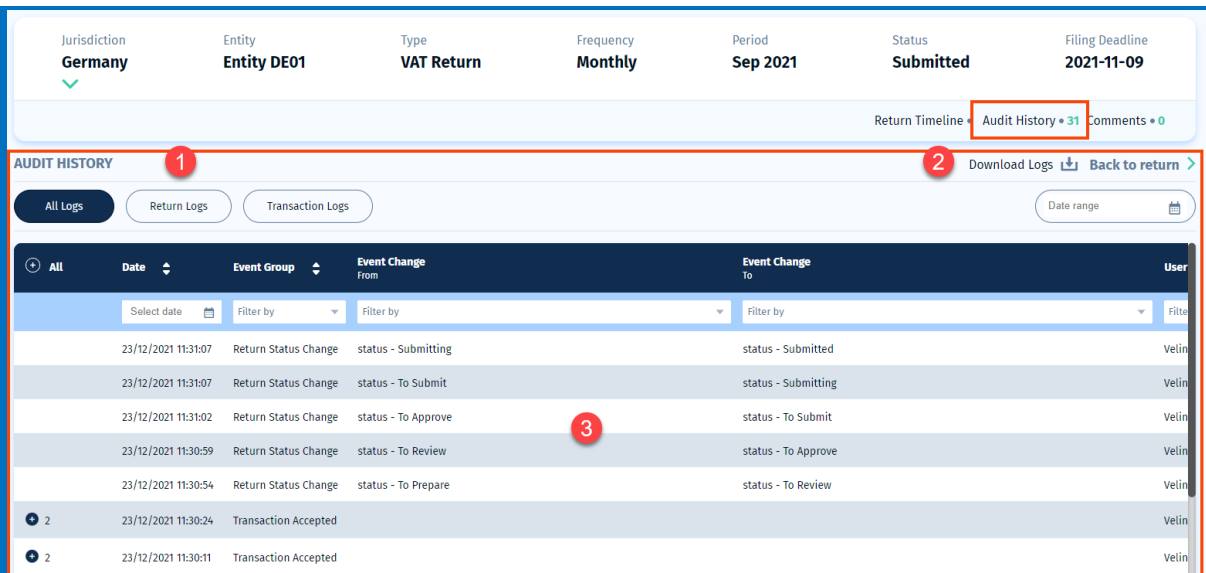

7. Audit History

Using the Audit History button at any stage during the lifecycle of a return, the user can review an audit trail of all changes made to that return.

Navigation:

- Open a Return
- Click the Audit History button.

1. The Audit History screen can be filtered to display:

- All History Logs – all changes made to the return across all Event Groups.
- Return Logs only – changes made at return level including statuses.
- Transaction Logs Only – changes made at transactional level only.

E.g. 1 Transactional Level:

A user makes a change to the posting date of a transaction.

2. Download Logs – here the user can download the logs to be reviewed/stored offline.

Note: The file downloaded will display the logs based on how the screen has been filtered (if filters are applied).

3. Audit History display – This displays the log in table form including each change/update by:

- Date & Time
- Event Group
- Event From
- Event To
- User Name
- Comments – This will display any comment added at the time of the change.
- Type- Transaction/Return
- ID

8. Reviewer

The Reviewer (again if they have configured their notifications), will receive the notification email that they have a return to action. And the return will be displayed in the Assigned to Me section of their returns screen in Comply.

Return Validation

Again here, the Reviewer is just checking the work completed by the Preparer, ensuring the validation of the data against the rules is complete and in good order.

Files	Data Validation	Transactions	Return Validation	Return Review
Validation				
Validation	OK	Error	Warning	Total Transactions
Complete Return Calculation	1	0	0	1
Check Annual Return Output Tax Amount Matches Monthly Returns	1	0	0	1
Check Annual Return Input Tax Amount Matches Monthly Returns	1	0	0	1
Count of Transaction Difference Compared to Previous Return	1	0	0	1
Check Total Output Higher Than Total Inputs	1	0	0	1
Inputs Difference Compared to Previous Return	1	0	0	1
Output Difference Compared to Previous Return	1	0	0	1

Return Review

The Reviewer here can review the final values and view the return files before sending for approval.

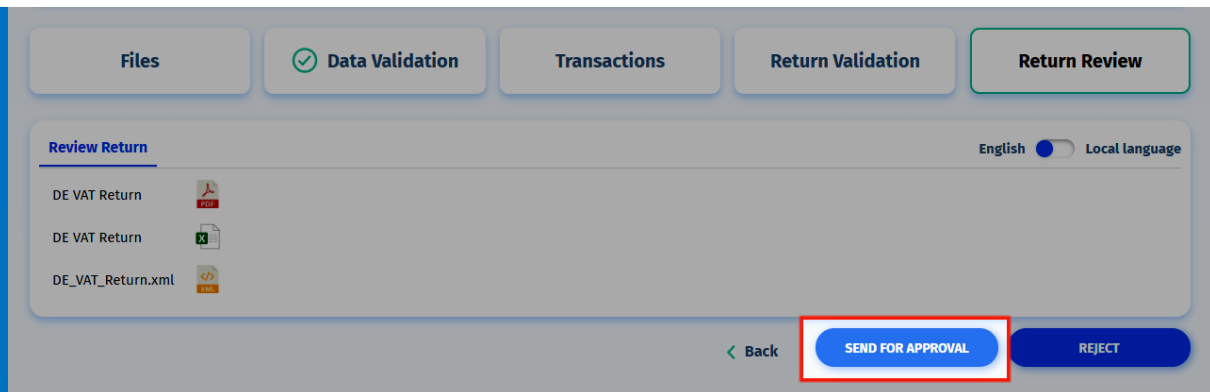

Files	Data Validation	Transactions	Return Validation	Return Review
Section	Description	Original Value	Submitted Value	
row 52	Output Value Added Tax			
row 62	Remaining amount			
row 66	Tax prepayment / surplus			
				VIEW RETURN SEND FOR APPROVAL REJECT

Files	Data Validation	Transactions	Return Validation	Return Review
Review Return				English ☒ Local language
DE VAT Return  DE VAT Return  DE_VAT_Return.xml 				
< Back				SEND FOR APPROVAL REJECT

Please note, if there are any issues found at this stage the user can Reject the return, in which case it reverts back to a Status of To Prepare and is returned to the Preparer for review.

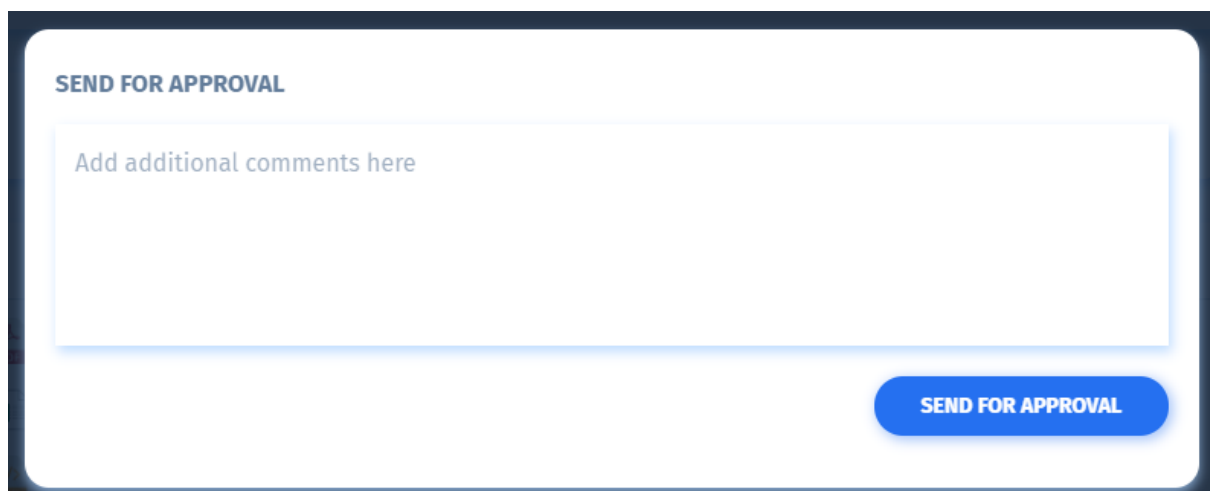

8.1. Send for Approval

If all is in good order, then the Reviewer simply clicks the **Send for Approval** button.

This changes the status to **To Approve**. Based on the schedule due date for the Approval step, a notification email is sent to the Approver that there is a return for them to action.

Please note: The user can leave a comment (If there is key information for the Approver to know).

That completes the Reviewer process.

9. Approver

The Approver essentially repeats the same data checks as the Reviewer before rejecting or Approving the return.

Return Timeline • Audit History • 0 Comments • 0

That completes the Approver process and triggers the notification mail to be sent to the Submitter.

10. Submitter

The Submitter will either log in directly to Comply or via a notification email advising that the return has been approved in is ready to be submitted.

Here the Submitter has the option to review the return details again or simply Submit the return. To do this, the user simply:

1. Open the Return.
2. Click the **Return Review** tab.
3. Click the **Submit** button. (if they are happy with the data).

The screenshot displays the 'Return Review' tab in the Comply Returns Processing interface. The top section shows return details: Jurisdiction (Germany), Entity (Entity DE01), Type (VAT Return), Frequency (Monthly), Period (Apr 2022), Status (To Submit), and Filing Deadline (2022-06-09). Below this, a navigation bar includes tabs for Files, Data Validation, Transactions, Return Validation, and Return Review (which is highlighted with a red box). A red dashed arrow points from the Return Review tab to the 'Submit' button at the bottom right. The main area shows a table of return boxes with columns for Section, Description, Original Value, and Submitted Value. The table lists various tax items with values of 0.00. At the bottom, there are buttons for 'RETURN TO PREPARE', 'CREATE RETURN BOXES', 'VIEW RETURN', and 'SUBMIT' (highlighted with a red box).

Section	Description	Original Value	Submitted Value
Row 52	Output Value Added Tax	0.00	0.00
Row 62	Remaining amount	0.00	0.00
Row 66	Tax prepayment / surplus	0.00	0.00
Box 41	Intra-community SUPPLY (§ 4 / 1 b UStG) to customers with a VAT ID	0.00	0.00
Box 44	Intra-Community supply (§ 4 / 1 b UStG) of new vehicles to customers without a VAT ID	0.00	0.00
Box 49	Intra-Community supply (§ 4 / 1 b UStG) of new vehicles outside a company (§ 2a UStG)	0.00	0.00
Box 43	Further tax-free supplies with input tax deduction (for example export, sales according to § 4 / 2 to 7 UStG)	0.00	0.00

4. This changes the status of the return to "Submitting".

Once this changes to **Submitted**, this automatically triggers an immediate Email Alert to the Approver and/or Treasurer advising the return has been successfully submitted and they should make payment.
