Purpose of this document

The purpose of this document is to provide guidance, context, and instruction to users preparing returns for Jurisdictions where SAF-T is a requirement.

1. Introduction

1.1. What is SAF-T?

SAF-T (Standard Audit File for Tax) is a data standard that was implemented by some EU Jurisdictions in order to improve the efficiency and accuracy of tax compliance. In short, it's a way for businesses to provide standardized data to tax authorities in order to facilitate audits and reduce the risk of errors.

The idea behind SAF-T is simple enough: by making it easier for tax authorities to access accurate information, businesses can avoid being hit with hefty fines for errors or inaccuracies in their tax filings.

1.2. Who does this apply to?

At present SAF-T is not mandatory in most Jurisdictions. In fact, only Poland, Portugal, Norway and Romania have made it mandatory to date.

Requirements differ by Jurisdiction and as such, some countries may be required to report the following relevant data:

- Sales
- Purchases
- Both (Sales and Purchases) i.e. Poland are required to report both Sales and Purchase data

1.3. What does this mean?

When filing a return, for SAF-T, the relevant additional boxes will be generated for the Return.

Example:

For Poland, the requirement is to generate both **List Sales** and **List Purchases**, both boxes will be generated and displayed in the Return Review tab (Numerical Boxes) in Comply.

Numerical Boxes

Non-Numerical Boxes

Section	Description	Original Value	Submitted Value	
Box 69	Amended taxable base and output tax referred to under Art. 89a sec. 1 of the Act VAT	0.00	0.00	
Box 71	Number of sales lines	57.00	57.00	
Box 73	Number of purchase lines	24.00	24.00	
Box 72	Output tax	143,589.00	143,589.00	
Box 74	Input tax	135,802.00	135,802.00	
List Sales	List Sales	143,589.24	143,589.24	
List Purchases	List Purchases	135,802.36	135,802.36	

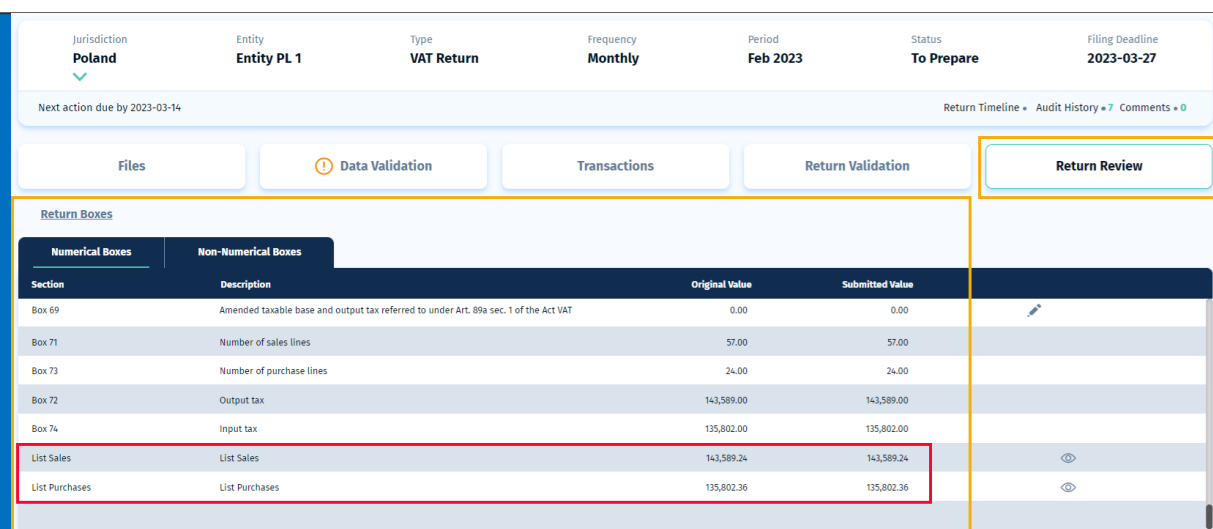

Please note: Where a Jurisdiction requires only List Sales or List Purchases, only one box will be generated and displayed in Comply.

2. Return Review Screen

Once the Data has been uploaded (via API or File Upload), the data goes through the relevant data validation and generates the relevant boxes.

Navigate to: Return > Return Review > Numerical Boxes

The new boxes are generated at the bottom of the Numerical Boxes list, so the user will be required to scroll to locate them.

The screenshot shows the 'Return Review' screen for a VAT Return. The top navigation bar includes fields for Jurisdiction (Poland), Entity (Entity PL 1), Type (VAT Return), Frequency (Monthly), Period (Feb 2023), Status (To Prepare), and Filing Deadline (2023-03-27). Below this, there are tabs for Files, Data Validation, Transactions, Return Validation, and Return Review. The 'Return Review' tab is selected. The main content area shows the 'Return Boxes' section, which is divided into 'Numerical Boxes' and 'Non-Numerical Boxes'. The 'Numerical Boxes' section is expanded, showing a table with the following data:

Section	Description	Original Value	Submitted Value
Box 69	Amended taxable base and output tax referred to under Art. 89a sec. 1 of the Act VAT	0.00	0.00
Box 71	Number of sales lines	57.00	57.00
Box 73	Number of purchase lines	24.00	24.00
Box 72	Output tax	143,589.00	143,589.00
Box 74	Input tax	135,802.00	135,802.00
List Sales	List Sales	143,589.24	143,589.24
List Purchases	List Purchases	135,802.36	135,802.36

Please note: Only Preparers/Reviewers can make changes to information in the List Sales or List Purchases boxes.

To view the information in any of these, click the  icon beside the relevant box.

3. List Sales

Line Number	VAT Number Prefix	Customer VAT Number	Customer Name	Invoice Number	Invoice Date	Date of Supply	K10	K11	K12	K13
1	TW	125647893	Name	PL01-292	23/11/2022	Select Date	.00	.00	.00	.00
2	PL	567843007	Name	PL01-254	23/11/2022	Select Date	.00	.00	.00	.00

5	ES	321655007	Name	PL01-270	23/11/2022	Select Date	.00	.00	.00	.00
6	PL	567842951	Name	PL01-234	23/11/2022	Select Date	.00	.00	.00	.00

TOTAL NUMBER OF COMPLETED LINES: 46

View by: 15, 30, 50

After clicking the Eye icon, this opens the Declaration Details screen for List Sales.

1. This table can be filtered using the filter options across the columns.
2. If you are a Preparer or Reviewer, the check box options are visible and allow you to select one(or more) rows to be edited.
3. The scroll bar allows you scroll horizontally to view all columns in the table
4. The user can choose to display 15/30/50 rows per page.

3.1. Search & Filter

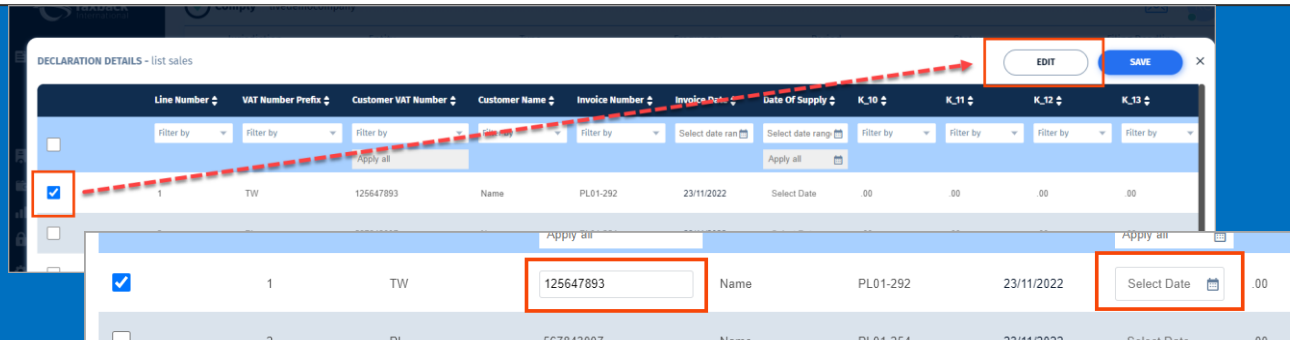

The user can search and filter the List Sales Screen using the Search and Filter options on the headers of columns.

Line Number	VAT Number Prefix	Customer VAT Number	Customer Name	Invoice Number	Invoice Date
1	TW	125647893	Name	PL01-292	23/11/2022
2	PL	567843007	Name	PL01-254	23/11/2022

3.2. Edit List Sales

To edit any row:

1. Click the **Check box**.
2. Click the **Edit** button.

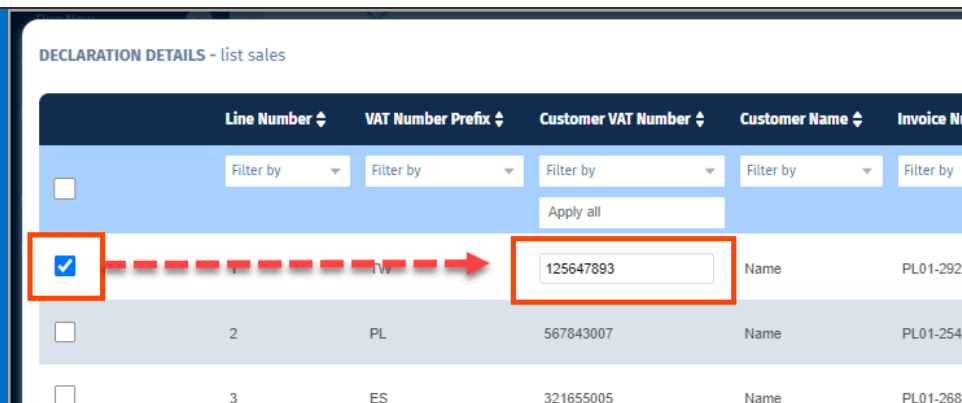

This will open only the columns which are available for editing

3.2.1. Edit Customer VAT Number

The user can elect to change the Customer VAT number for either 1 row, multiple rows or Apply to All rows.

Edit 1 Row

1. Tick the relevant check box for the row to be edited.
2. Click the **Edit** button.

3. Type the new Customer VAT Number.
4. Click the **Save** Button.

Edit Multiple Rows

1. Tick each relevant check box for the rows to be edited.
2. Click the **Edit** button.

TOTAL NUMBER OF COMPLETED LINES : 46

3. Type the new VAT Number in the Apply All field – this will apply the number in all rows.
4. Click the **Save** button.

Please note: If you change the Customer VAT Number here, then the amended Customer VAT number will now be displayed in the **Transactions Tab**.

3.2.2. Margin Scheme Sales

	K_30	K_31	K_32	K_33	K_34	K_35	K_36	Margin Scheme Sales	Document Type
☐	Filter by	Filter by	Filter by	Filter by	Filter by	Filter by	Filter by	Filter by	Filter by
☐	.00	.00	.00					Numerical Value	
☐	.00	.00	.00					Numerical Value	
☐	.00	.00	.00					Numerical Value	

This is a new column added to this screen. *This is blank by default, but can be populated with a relevant numeric value as required.*

To add a value:

1. Click the **check box(s)** for the relevant row
2. Click the **Edit** button.
3. Type the new numeric value in the relevant field (or the Apply All field – this will apply the number in all rows).
4. Click the **Save** button.

3.2.3. Line Number

The **Line Number** column has been added and is populated with sequential numbering starting at number 1. These numbers represent the serial numbers of the Input Tax records. These are not editable.

DECLARATION DETAILS - list sales

	Line Number	VAT Number Prefix	Customer VAT Number	Customer Name
☐	Filter by	Filter by	Filter by	Filter by
			Apply all	
☐	1	TW	125647893	Name
☐	2	PL	567843007	Name

☐	6	PL	567842951	Name

TOTAL NUMBER OF

3.2.4. Date of Supply

The Date of Supply should be automatically populated.

DECLARATION DETAILS - list sales

	Name	Invoice Number	Invoice Date	Date Of Supply	K_10	K_11	K_12
☐		Filter by	Select date range	Select date range	Filter by	Filter by	Filter by
				Apply all			
☐		PL01-292	23/11/2022	Select Date	.00	.00	.00
☐		PL01-254	23/11/2022	Select Date	.00	.00	.00
☐		PL01-268	23/11/2022	Select Date	.00	.00	.00
☐		PL01-269	23/11/2022	Select Date	.00	.00	.00

This should be mapped to the **Tax Point Date** and will be populated automatically. However if it **is not mapped** or is not available in the data file then this will appear **Blank**.

3.2.5. Columns TT_WNT and TT_D

DECLARATION DETAILS - list sales

	WSTO_EE	IED	TP	TT_WNT	TT_D	MR_T
☐		Filter by	Filter by	Filter by	Filter by	Filter by
	Apply all	Apply all	Apply all	Apply all	Apply all	Apply all
☐				1		
☐				1		
☐						
☐						
☐						

Column Name	Description	Populated
TT_WNT	If Trans Type = Input Trans Cat = Triangulation Intermediary	Displays a 1
TT_D	If Trans Type = Output Trans Cat = Triangulation Intermediary	Displays a 1

Note: If neither column meets these rules, then the column appears Blank.

To manually adjust this value:

1. Click the check box beside the relevant row.
2. Click the **Edit** Button.
3. Select the relevant option from the drop-down menu (Blank or 1).
4. Click the **Save** button.

Please note: Any changes made are automatically added to the Audit History.

3.2.6. Additional Columns

Unlike the TT-WNT/ TT_D (Triangulation indicators mentioned above), not all of these additional indicators will be mapped using Map Transaction codes and hence will not have associated rules to run against in the Data Validation process. These will/may then require manual intervention.

Therefore, these additional columns are populated as blank by default. But can be manually adjusted by selecting an option from the drop-down menu (Blank or 1).

The screenshot shows a web application window titled 'DECLARATION DETAILS - list sales'. It contains a table with the following columns: 'Document Type', 'GTU_01', 'GTU_02', 'GTU_03', 'GTU_04', 'GTU_05', 'GTU_06', 'GTU_07', 'GTU_08', 'GTU_09', 'GTU_10', 'GTU_11', 'GTU_12', 'GTU_13', and 'WSTU_EE'. Each of the GTU columns has a 'Filter by' dropdown menu. The first row of data shows 'Apply all' for all 'Filter by' dropdowns. The second row shows empty dropdown menus. The table has a 'Save' button in the top right corner. A red box highlights the table area.

To do this:

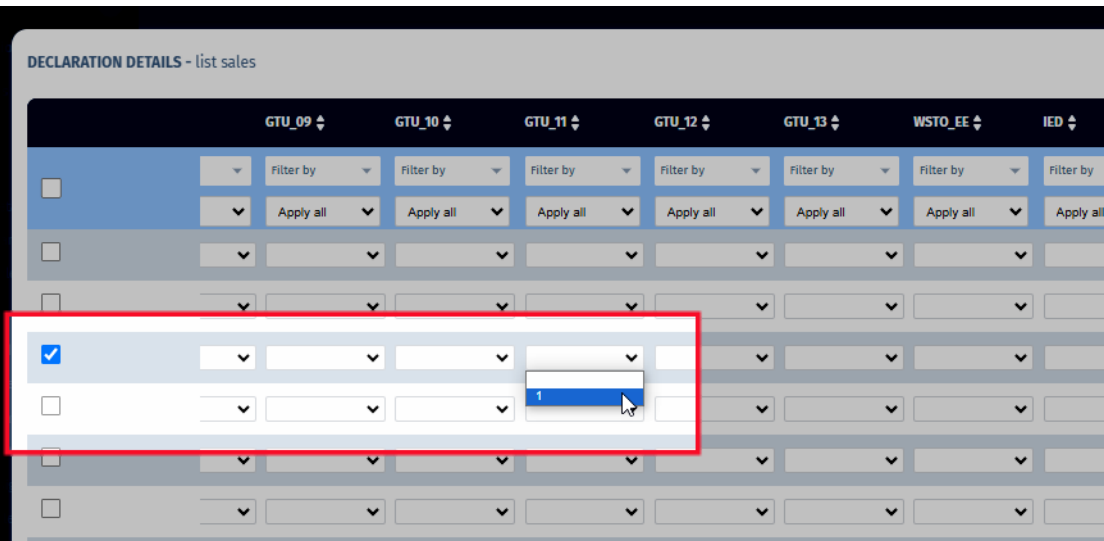

1. Click the check box beside the relevant row.
2. Click the **Edit** Button.
3. Select the relevant option from the drop-down menu (Blank or 1).
4. Click the **Save** button.

Please note: Any changes made are automatically added to the Audit History.

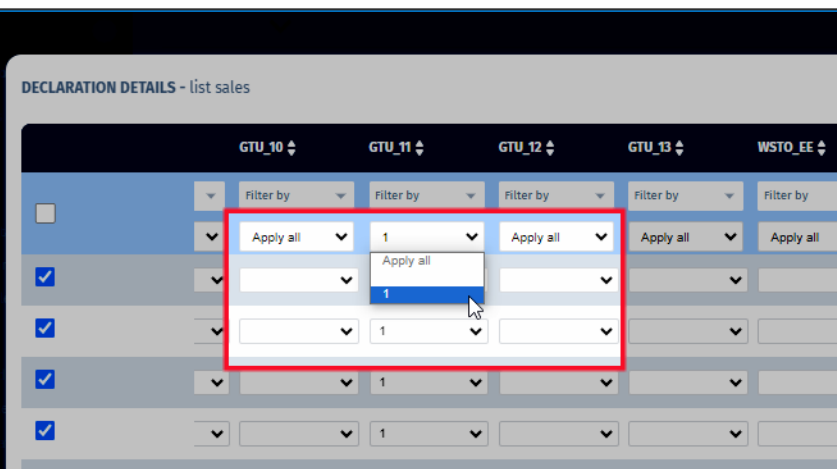

Filter

When the user requires one of these indicators to be configured (Set to 1 or reset to Blank), then they should:

1. Select the relevant rows to be edited using the check boxes.
2. Click **Edit**.
3. The user can then manually update the indicator for those selected rows.

Alternatively the user can use the Apply All drop-down menu to make a selection and this will be applied to all rows. This is particularly useful when the user has hundreds/thousands of rows which required the indicator to be updated.

4. List Purchases

After clicking the Eye icon, this opens the Declaration Details screen for List Purchases.

1. This table can be filtered using the filter options across the columns.
2. If you are a Preparer or Reviewer, the check box options are visible and allow you to select one(or more) rows to be edited.
3. The scroll bar allows you scroll horizontally to view all columns in the table
4. The user can choose to display 15/30/50 rows per page.

4.1. Search & Filter

The user can search and filter the List Purchases screen using the Search and Filter options on the headers of columns.

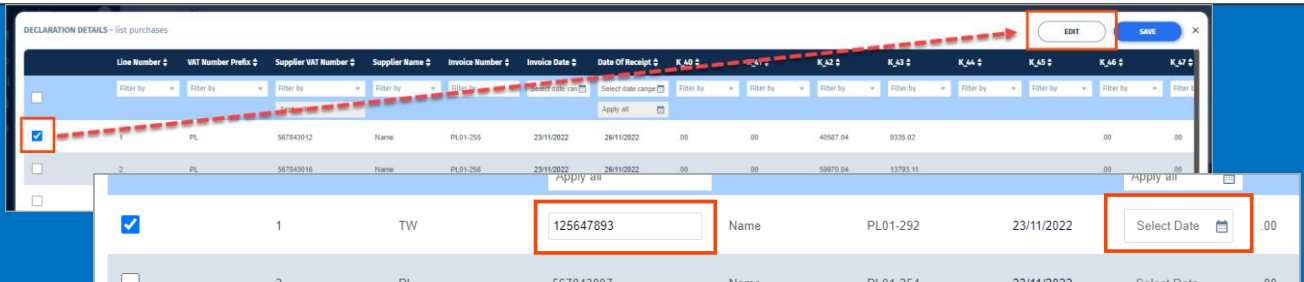

DECLARATION DETAILS - list purchases

Line Number	VAT Number Prefix	Supplier VAT Number	Supplier Name
☐	Filter by	Filter by	Filter by
☐	1	3012	Name
☐	2	PL	567843016

4.2. Edit List Purchases

To edit any row:

3. Click the **Check box**.
4. Click the **Edit** button.

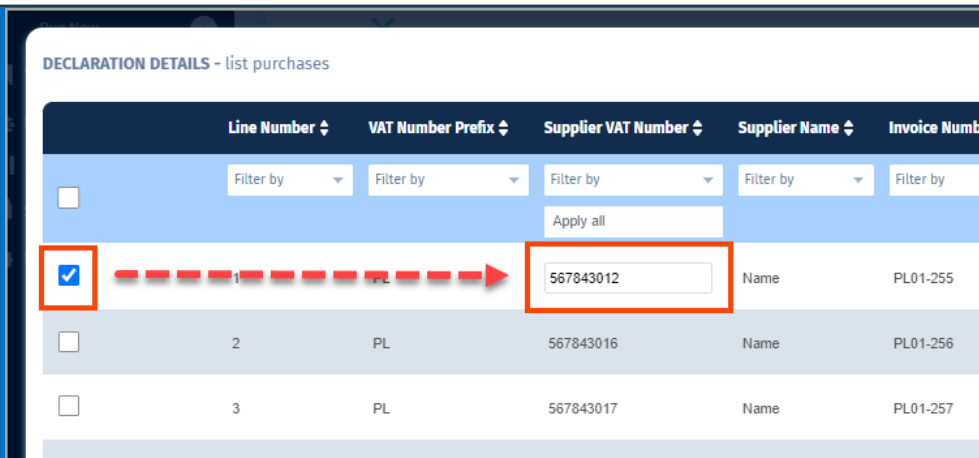

This will open only the columns which are available for editing

4.2.1. Edit Supplier VAT Number

The user can elect to change the Supplier VAT number for either 1 row, multiple rows or Apply to All rows.

Edit 1 Row

1. Tick the relevant check box for the row to be edited.
2. Click the **Edit** button.

3. Type the new Supplier VAT Number.
4. Click the **Save** Button.

Edit Multiple Rows

1. Tick each relevant check box for the rows to be edited.
2. Click the **Edit** button.

☒	3	PL	12345678	Name	PL01-257
☒	4	PL	12345678	Name	PL01-258

3. Type the new VAT Number in the Apply All field – this will apply the number in all rows.
4. Click the **Save** button.

Please note: If you change the Supplier VAT Number here, then the amended Supplier VAT number will now be displayed in the **Transactions Tab**.

4.2.2. Margin Scheme Purchases

Name	Invoice Number	Invoice Date	Date Of Receipt	K_40	K_41	K_42	K_43	K_44	K_45	K_46	K_47	Margin Scheme Sales	Document Type	IMP
	PL01-255	23/11/2022	26/11/2022	.00	.00	40587.04	9335.02			.00	.00	Numerical Value		
	PL01-256	23/11/2022	26/11/2022	.00	.00	59970.04	13793.11			.00	.00	Numerical Value		
	PL01-257	23/11/2022	26/11/2022	.00	.00	58920.52	13551.72			.00	.00	Numerical Value		

This is a new column added to this screen. *This is blank by default, but can be populated with a relevant numeric value as required.*

To add a value:

1. Click the **check box(s)** for the relevant row
2. Click the **Edit** button.
3. Type the new numeric value in the relevant field (or the Apply All field – this will apply the number in all rows).
4. Click the **Save** button.

4.2.3. Line Number

The **Line Number** column has been added and is populated with sequential numbering starting at number 1. These numbers represent the serial numbers of the Output Tax records. These are not editable.

DECLARATION DETAILS - list purchases

☐	Filter by	Filter by	Filter by
			Apply all
☐	1	PL	567843012
☐	2	PL	567843016
☐	3	PL	567843017
☐	4	PL	567843020
☐	5	PL	567843021
☐	6	PL	567843025

4.2.4. Date of Receipt

The Date of Receipt should be automatically populated.

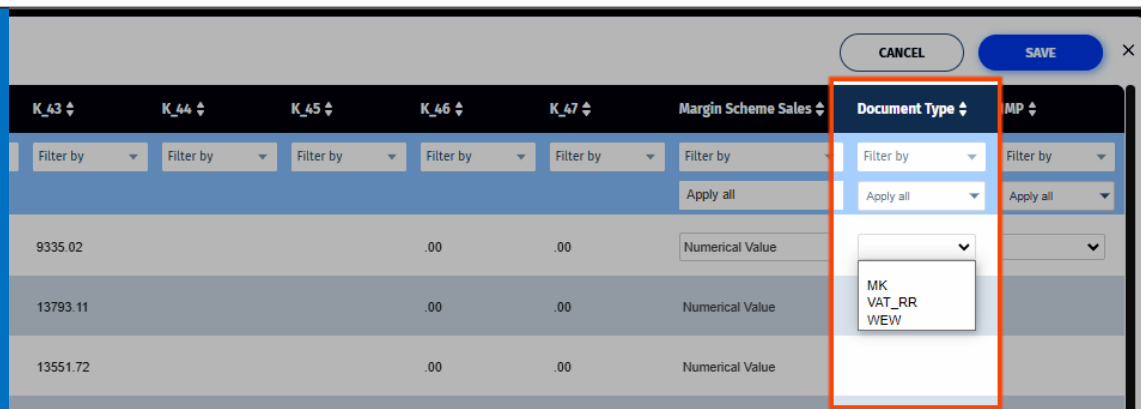

DECLARATION DETAILS - list purchases

	Name	Invoice Number	Invoice Date	Date Of Receipt	K_40
☐		Filter by	Select date range	Select date range	Filter b
				Apply all	
☐		PL01-255	23/11/2022	26/11/2022	.00
☐		PL01-256	23/11/2022	26/11/2022	.00
☐		PL01-257	23/11/2022	26/11/2022	.00
☐		PL01-258	23/11/2022	26/11/2022	.00
☐		PL01-259	23/11/2022	26/11/2022	.00

This should be mapped to the **Tax Point Date** and will be populated automatically. However if it **is not mapped** or is not available in the data file then this will appear **Blank**.

4.2.5. Document Type

By default the Document Type column/Fields will be blank.

But theses can be manually adjusted as required.

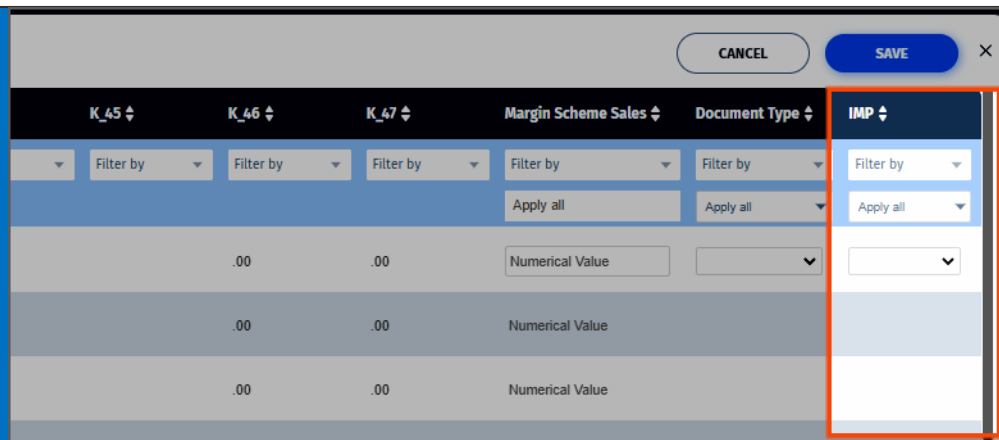

1. Click the check box beside the relevant row.
2. Click the **Edit** Button.
3. Select the relevant option from the drop-down menu (Blank, MK, VAT_RR or WEW).
4. Click the **Save** button.

You may also use the Apply All filter to select the option for all or each selected row.

Please note: Any changes made are automatically added to the Audit History.

4.2.6. IMP Column

This new column has been added to the List Purchases screen.

This applies to all purchases where:

- Transaction Type = Input
- Transaction Category = Import
- Goods and Services Category = Goods

Where all 3 of these conditions are met, the default value displayed is 1.

If any of these **are not** met, the default value displayed is Blank.

But theses can me manually adjust as required.

1. Click the check box beside the relevant row.
2. Click the **Edit** Button.
3. Select the relevant option from the drop-down menu.
4. Click the **Save** button.

You may also use the Apply All filter to select the option for all or each selected row.

Please note: Any changes made are automatically added to the Audit History.

4.2.7. IMPORTANT NOTE

- Any changes made to transactions from the List Sales screen automatically triggers the Data Validation to run again. This requires the preparer to review the Data Validation step for errors/warnings.
- Likewise, if any changes are made to transactions on the Transactions Tab, these will also be reflected in the List Sales screen.

5. SAF-T – View Return (XML)

To view the return:

1. Click **View Return**.

Return Boxes

Numerical Boxes		Non-Numerical Boxes

 PL_VAT_Return_Monthly.xml 

Please note, the frequency on the xml file will match that of the frequency for the Return.

3. This can then be submitted to the local Tax Authority. (This is usually via upload to Tax Authority Portal).

5.1. Self-Revisions Returns

When preparing an Amendment Return, comply generates 3 XML Templates:

These are:

- Evidence only File
- Full Correction File
- Return Only File

The file to be submitted may differ depending on the amendment/correction.

File Type	Submitted When...
Evidence Only	The Correction results in changes to the evidence component only E.g. The correction impacted the individual records reported in the SAFT (Invoice Dates/Invoice Numbers/Counterpart Details/Additional Codes, etc), but did not change the Net/VAT Amounts (declaration itself is unaffected).
Full Correction	The Correction results only changes to the declaration, and it is not affecting any items included in the evidence component (e.g. changes were made only in non-numerical boxes or boxes, which are not included in the SAFT part like brought forward amount).
Both	The Correction results in changes to both – I.e. values of the particular line items (new transactions, exclusions, modifications of net and VAT amount), which result in changes of the declaration part – In this case it is necessary to submit a correction of both declaration and evidence part of return.

When the user visits the Return Review screen on an Amendment Return, and clicks **View Return**, then the following 3 (Period specific) XML templates files are displayed.

Amendment Return (Monthly)
