Note: This process is available to Admin users only.

2. Overview

The User Management screen allows the admin user to View and perform the following user specific tasks:

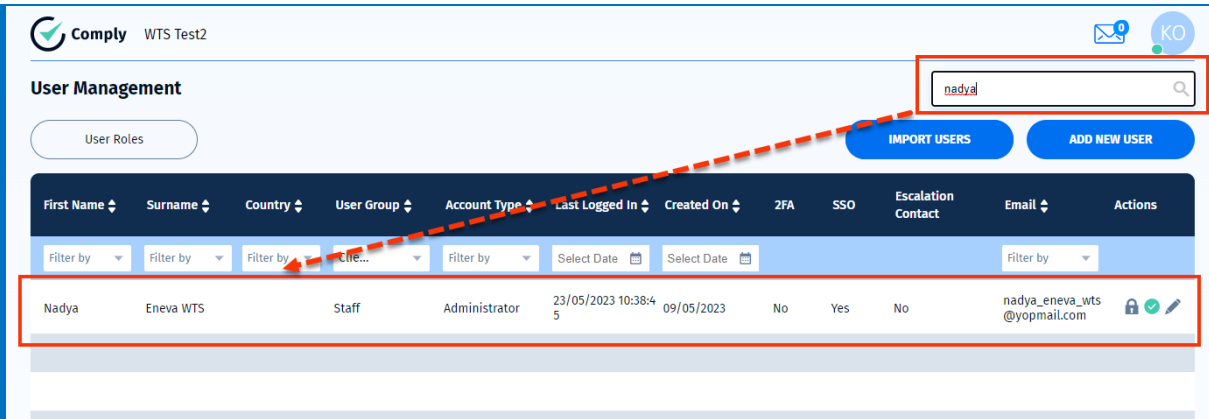

- Import New Users (Bulk Upload).
- Add New User (Individual).
- Deactivate a User.
- Edit User Details.

The screenshot shows the 'User Management' screen in the Comply application. The interface includes a top navigation bar with the 'Comply' logo and 'WTS Test2' text. Below this, the 'User Management' section has a 'User Roles' tab and two main buttons: 'IMPORT USERS' (labeled 2) and 'ADD NEW USER' (labeled 3). A search bar (labeled 1) is located above these buttons. The main area contains a table of users with columns for First Name, Surname, Country, User Group, Account Type, Last Logged In, Created On, 2FA, SSO, Escalation Contact, Email, and Actions. The table is filtered by 'Filter by' (labeled 4). The table lists four users: Stela Yordanova (Administrator), Petya Marinova (Standard User), API Sys User Bot (Standard User), and Arnold Agnes (Administrator). The 'Actions' column for each user includes icons for lock, check, and edit (labeled 5). At the bottom, there are pagination controls (Prev, 1, 2, 3, 4, Next) and a 'View by' dropdown set to 15.

First Name	Surname	Country	User Group	Account Type	Last Logged In	Created On	2FA	SSO	Escalation Contact	Email	Actions

2.1. Search

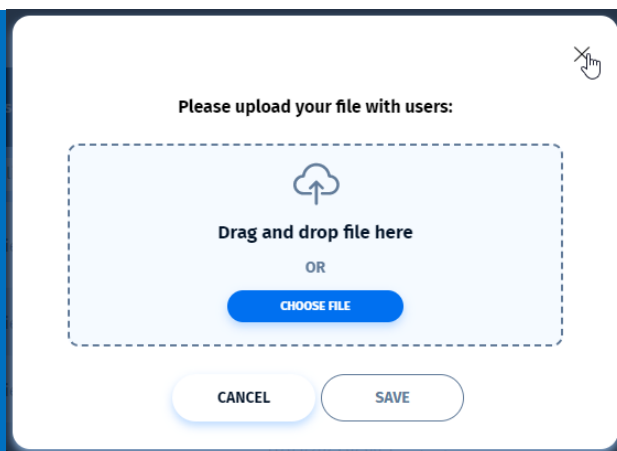

For clients with large numbers of users, the view can be searched easily to locate a specific user as required.

2.2. Import Users

Here the user can import new user via a bulk upload. This requires the user to upload a preconfigured spreadsheet with the new user details.

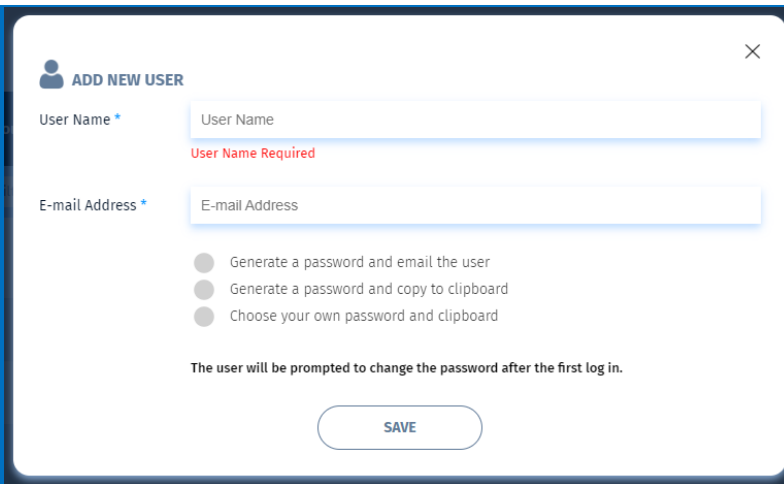

1. Click the **Import Users** button.
2. Click **Choose File** or **Drag and Drop** the relevant file.
3. Click **Save**.

2.3. Add New User

Rather than bulk uploading multiple users, the user can add a single new user.

1. Click the **Add New User** button.
2. Add a **Username**.
3. Add an **Email Address** for the new user.
4. Select the relevant **password** creation option.
5. Click **Save**.

ADD NEW USER

User Name *
User Name Required

E-mail Address *

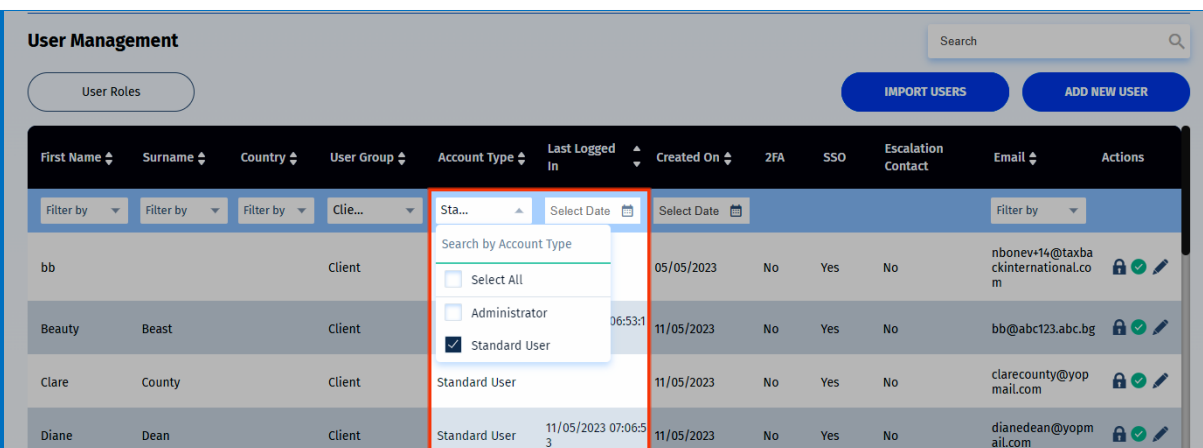

☐ Generate a password and email the user
☐ Generate a password and copy to clipboard
☐ Choose your own password and clipboard

The user will be prompted to change the password after the first log in.

SAVE

2.4. Filter the User Roles View

Use the filter options on relevant columns to display only a specific set of users.

2.5. Actions

The admin user can perform 2 actions from here:

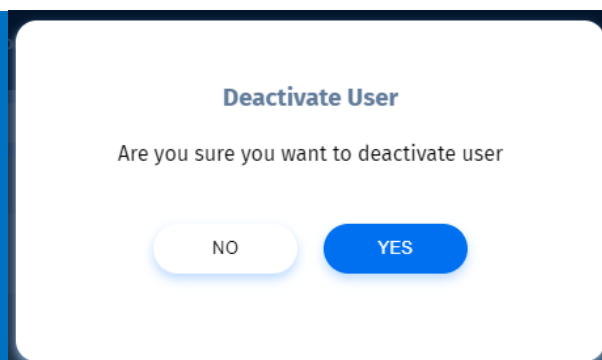

- Activate/Deactivate User
- Edit User

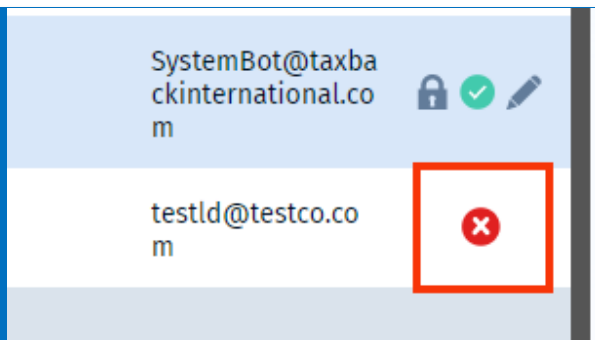

2.5.1. Deactivate User

To deactivate a user...

1. Click the **Green Active** Icon .
2. Click **Yes** on the Deactivate User Confirmation pop-up.

The user is then displayed as inactive.

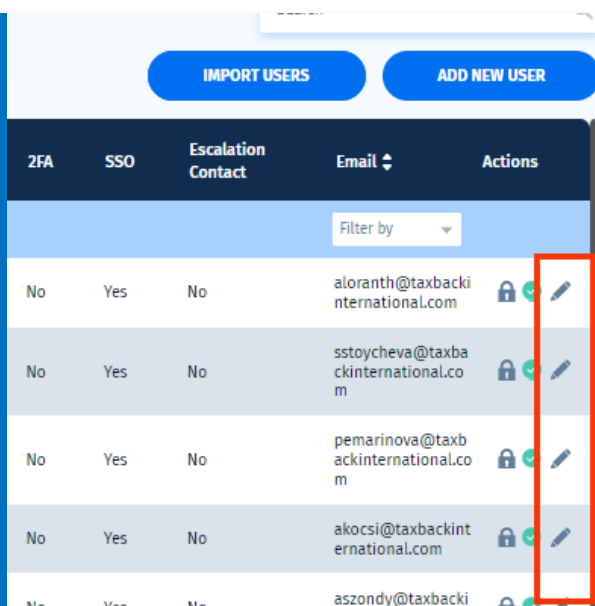

You can click the red X to reactivate the user as required.

2.5.2. [Edit User](#)

To Edit a user...

1. Click the Pencil Icon.
2. Make the relevant changes in the User Details screen.

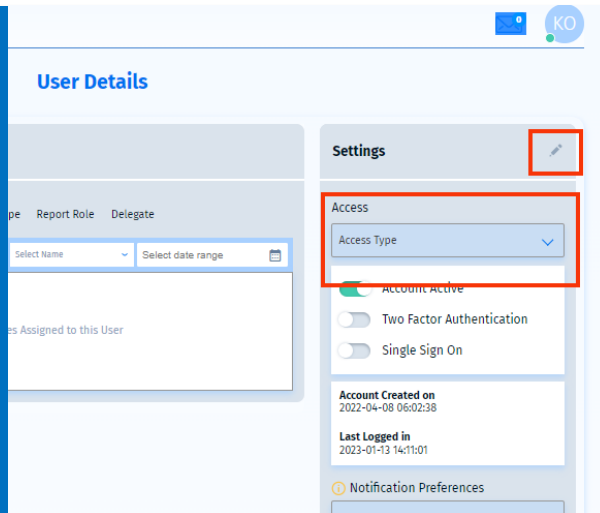

This will automatically open the User Details page for the selected user.

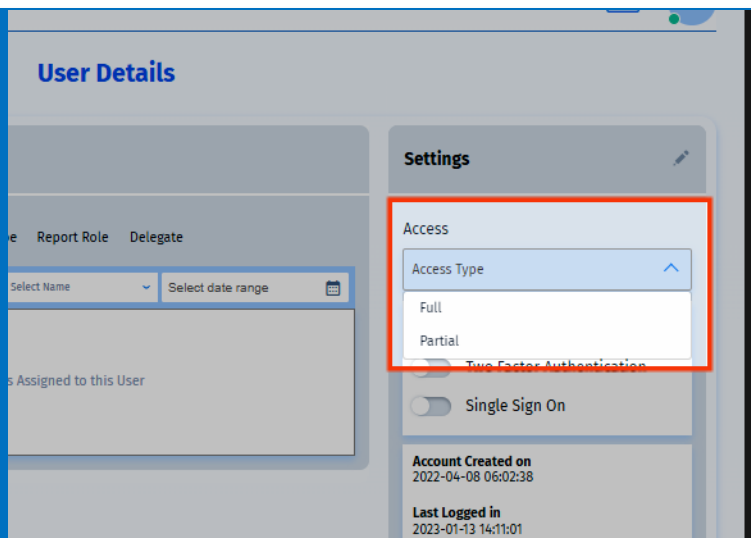

2.5.3. Grant Partial/Full Access

Here, Users can be granted either Partial or Full Access.

1. Click the Pencil Icon to enter edit mode.
2. Select the Access Type drop-down menu.

3. Choose the required option.

4. Click Save.

Please note: This can also be set in the Vault...see image below

The screenshot shows the TBI Vault user management interface. At the top, the header includes the TBI Vault logo, a user profile icon with the initials 'KO', and a settings gear icon. Below the header, the main content area displays information for a sandbox company: 'SANDBOX_LIVEDEMOCOMPANY_3' with ID '9192838184'. It notes 'ADDED ON: 2 YEARS AGO', 'LAST UPDATED: A YEAR AGO', and 'DATA LAST REFRESHED ON: NOT REFRESHED'. The email address '@taxbackinternational.com' is shown. A navigation bar contains tabs for 'User Details', 'History', 'Access' (which is highlighted in red), and 'Analytics Features'. The main content area is divided into four panels, each with a 'Full' (green) and 'Partial' (grey) status indicator and a 'Select products' dropdown menu. The panels are: 'DocTracker', 'Auto Audit', 'Comply (Legacy)', and 'Comply Platform'. The 'Full' status indicator for the 'Comply Platform' panel is highlighted with a red rectangle.

Feature	Status	Action
DocTracker	Full	Select products
Auto Audit	Full	Select products
Comply (Legacy)	Full	Select products
Comply Platform	Full	Select products
