3.5.2.	Dispatches	13
4.	User Interface (UI) Update	14
4.1.	Excluded Transactions.....	14

1. Release Overview

This minor release focuses on updates for France only. This includes updates to:

- VAT (2024)
- Intrastat
- UI Change
 - Excluded Transactions

2. VAT (2024)

2.1. Return Boxes

When preparing VAT returns from 2024 onwards, Original and Submitted Values in the following Numerical Boxes to be displayed as Positive Values (even if the transactions included are negative E.g., Credit notes).

- Box B5
- Box 15
- Box 15_0602
- Box A4
- Box I1_net
- Box I2_net
- Box I4_net
- Box I1_vat
- Box I2_vat
- Box I4_vat
- box 21
- box 21_2
- Box 21_3
- box 24
- Box F8
- box F2
- Box F4

2.2. Numerical Boxes Y6/29/AB

When preparing VAT Returns from 2024 onwards, these Numerical Boxes are not Automatically Calculated. These are displayed with a Pencil Icon for the user (Preparer/Reviewer) to manually enter the values.

Return Boxes					
Numerical Boxes		Non-Numerical Boxes			
Section	Description	Original Value ⓘ	Submitted Value ⓘ	Previous Period ⓘ	Deviation ⓘ
Box Y6	TIC (Energy Excise) credit transferred to the group head company on summary declaration 3310-CA36 (carryover from line Y4)	0.00	0.00	0.00	0.00
Box X5	TIC credit (Energy Excise) charged to VAT (carryover from line X4)	0.00	0.00	0.00	0.00
Box 28	Net VAT due (line TD – line X5)			0.00	
Box 29	Amount of tax credit calculated on line 3310	0.00	0.00	0.00	0.00
Box Z5	Total TIC (Energy Excise) due (carryover from line Z4)	0.00	0.00	0.00	0.00
Box AB	Amount payable by the head company on 2024-2025 (line Z5-2025)	0.00	0.00	0.00	0.00

2.3. Numerical Box Y5

The calculation logic for Box Y5 has been updated to only calculate when there is Excise on Energy (If there are values > 0 in boxes TD/X4/Y4).

- Example 1: If boxes TD, X4 and X5 are “0”, then Box Y5 will also be “0”.
- Example 2: If boxes X4 and/or X5 are > “0”, then Box Y5 will be calculated as follows:
 - Box TD = 999
 - Box X4 = 420
 - Box Y4 = 0
 - Then Box Y5 = 579 (420 + 0 – 999)

Example:

Return Boxes				
Numerical Boxes		Non-Numerical Boxes		
Section	Description	Original Value ①	Submitted Value ①	Pre
Box TD	VAT due (line 15 - line 23)	999.00	999.00	
Box Excise On Electricity	Excise on electricity	0.00	420.00	
Box Excise On Natural Gases	Excise on natural gases	0.00	0.00	
Box Excise On Coal	Excise on coal	0.00	0.00	
Box TOTAL	Total	420.00	420.00	
Box X1	Credit applied to VAT (within the limit of the TD line) (b)	0.00	420.00	
Box X2	Credit applied to VAT (within the limit of the TD line) (b)	0.00	0.00	
Box X3	Credit applied to VAT (within the limit of the TD line) (b)	0.00	0.00	
Box X4	Credit applied to VAT (within the limit of the TD line) (b)	420.00	420.00	
Box Y1	Balance of credit to be repaid (ab)	0.00	0.00	
Box Y2	Balance of credit to be repaid (ab)	0.00	0.00	
Box Y3	Balance of credit to be repaid (ab)	0.00	0.00	
Box Y4	Balance of credit to be repaid (ab)	0.00	0.00	

Then Y5 =

Box Z2	Tax due	0.00	0.00	
Box Z3	Tax due	0.00	0.00	
Box Z4	(Z1 + Z2 + Z3) to report line Z5	0.00	0.00	
Box Z6	Credit reimbursement requested on form no. 3519	0.00	0.00	
Box AA	VAT credit transferred to the group head company on 33010CA3G	0.00	0.00	
Box Z7	Credit to be carried forward (line Z5 - line Z6) (This sum must be carried forward on line Z2 of the next declaration)	0.00	0.00	
Box Y5	Reimbursement of remaining TIC (Energy Excise) requested (carryover from line Y4)	579.00	579.00	

Please note: Y5 will always be displayed as an Absolute Value (Positive Number).

3. Intrastat

3.1. Mandatory Field – “Country Of Origin”

When the user is preparing a **Detailed Intrastat Dispatches** return and is Creating a New/Amending an Existing Template, then Country Of Origin is a mandatory field.

Navigate to: Settings > Templates - then Create Template/Existing Template

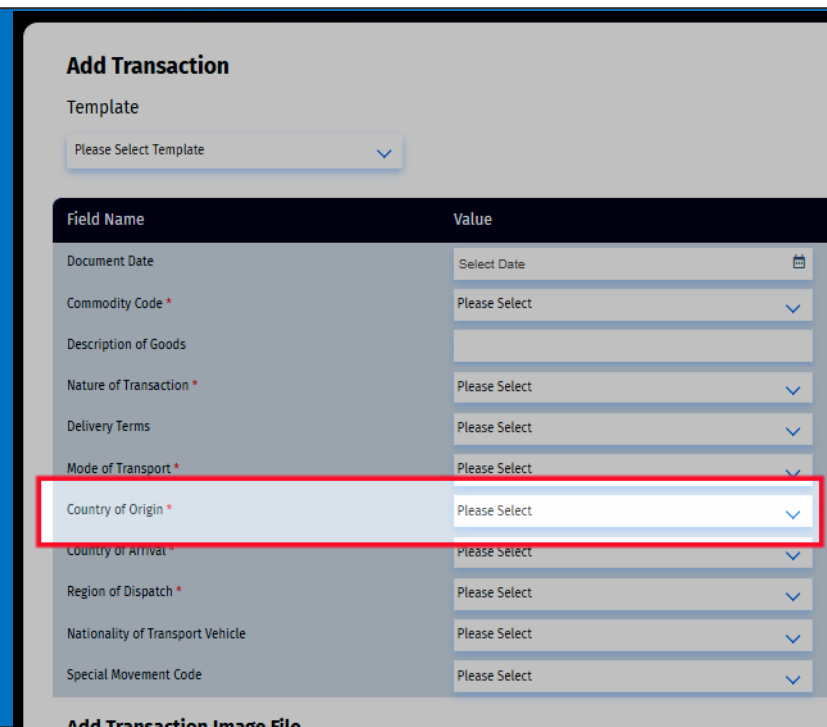

The screenshot shows a web form titled "Taxback International fields" with a progress indicator "Step 1 of 4". The form is divided into two columns. The left column contains fields for "Country of Arrival", "Mode of Transport", "Country of Origin", "Nationality of Transport Vehicle", and "Port/Airport Code". The right column contains fields for "Region of Dispatch", "Delivery Terms", "Commodity Flow", "Regime Code", and "Special Movement Code". The "Country of Origin" field is highlighted with a red box. Below the form are "Back" and "NEXT" buttons.

Taxback International fields	
Step 1 of 4	
Shipping Details	
Country of Arrival *	Region of Dispatch *
Country of arrival	Region of dispatch
Mode of Transport *	Delivery Terms
Mode of transport	
Country of Origin *	Commodity Flow
Country of origin	
Nationality of Transport Vehicle	Regime Code *
	Regime code
Port/Airport Code	Special Movement Code
Back	NEXT

3.2. Add Transaction Tab – “Country of Origin”

When the user is preparing a **Detailed Intrastat Dispatches** return, and is on the Transactions Tab, “Country of Origin” is a mandatory field when adding a new Transaction.

Navigate to: Return > Transactions Tab > Add > Add Transaction

The screenshot shows the 'Add Transaction' form. At the top, there is a 'Template' dropdown menu with the text 'Please Select Template'. Below this is a table with two columns: 'Field Name' and 'Value'. The table contains several rows of fields, each with a 'Please Select' dropdown menu. The 'Country of Origin' row is highlighted with a red rectangular border. Below the table, there is a section labeled 'Add Transaction Image File'.

Field Name	Value
Document Date	Select Date
Commodity Code *	Please Select
Description of Goods	
Nature of Transaction *	Please Select
Delivery Terms	Please Select
Mode of Transport *	Please Select
Country of Origin *	Please Select
Country of Arrival *	Please Select
Region of Dispatch *	Please Select
Nationality of Transport Vehicle	Please Select
Special Movement Code	Please Select

3.3. Data Validation – “Country of Origin”

3.3.1. Validation Rule K2.04

When the user is preparing a Detailed Intrastat Dispatches Return, and the uploaded data does not match with the eligible Country of Origin list, then the rule fails.

The screenshot displays the 'Data Validation' section of a software interface. At the top, there are tabs for 'Files', 'Data Validation', and 'Transactions'. Below the tabs, a summary bar shows: 'Correct: 0 Error: 15 Warning: 0 Total: 15 Processed: 15 of 15'. The main table lists validation rules with columns for Rule ID, Validation, Total, OK, Error, Warning, and Errors (Fixed, Accepted).

Rule ID	Validation	Total	OK	Error	Warning	Errors (Fixed, Accepted)
K2.19	Data Validation Nature of Transaction Intrastat Dispatch	15	0	15	0	0, 0
K2.04	Data Validation Country of Origin Intrastat Dispatch	15	9	6	0	0, 0
I2.21	Null Additional Statistical Code Intrastat Dispatch	15	11	4	0	0, 0
I2.04	Null Country of Origin Intrastat					

The row for rule K2.04 is highlighted with a red border. A modal window titled 'Fix data error in the file below' is open, showing '6 Errors • Invalid Data For Country of Origin'. It contains a table with columns: Region of Dispatch, Country of Origin, Nature of Transaction, and M. The Country of Origin column is highlighted with a red border, showing invalid entries like '888', 'wefsd', 'fffff', 'tralala', 'dsfsd', and 'dfs'.

Region of Dispatch	Country of Origin	Nature of Transaction	M
10	888	20	3
10	wefsd	20	3
10	fffff	20	3
10	tralala	20	3
10	dsfsd	20	3
10	dfs	20	3

3.3.2. NULL Rule I2.04

When the user is preparing a Detailed Intrastat Dispatches Return, and the Country-of-Origin field is **blank** in the uploaded data, then the rule fails.

3.4. Grouping for Intrastat Arrivals/Dispatches

The grouping logic has been amended so that **Country of Origin** and **Additional Statistical Code** are included in the grouping of the List Table for Arrivals/Dispatches.

3.4.1. Arrivals

The list table is grouped by:

- Commodity Code
- **Country of Origin**
- Country Arrival Dispatch ISO Code
- Region of Arrival Dispatch
- Nature of Transaction
- Transport Mode
- Regime Code
- **Additional Statistical Code**

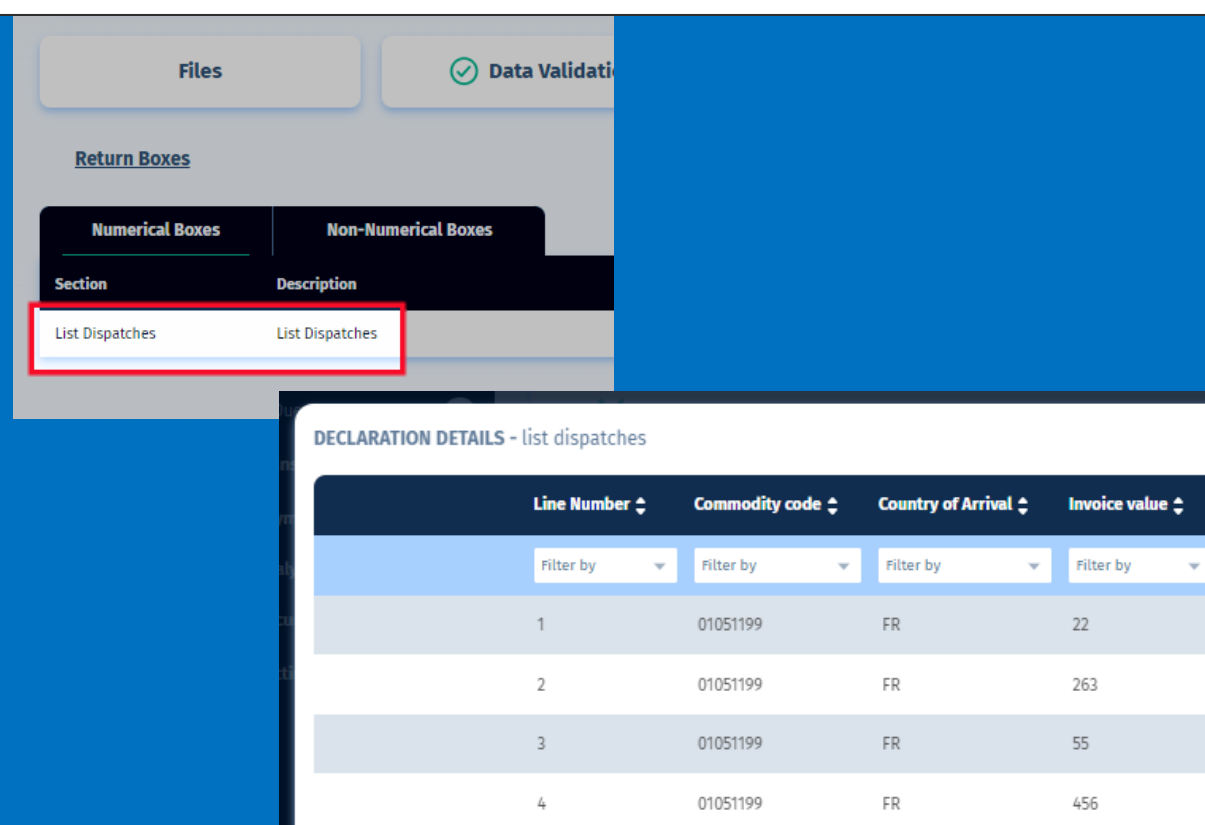

The screenshot displays the 'Return Boxes' section of the software. Under 'Numerical Boxes', the 'List Arrivals' option is selected and highlighted with a red box. Below this, a table titled 'DECLARATION DETAILS - list arrivals' is shown. The table has four columns: 'Line Number', 'Commodity code', 'Country of Dispatch', and 'Invoice value'. Each column has a 'Filter by' dropdown menu. The table contains four rows of data:

Line Number	Commodity code	Country of Dispatch	Invoice value
1	02062999	BG	55
2	01051199	FR	481
3	02032955	FR	5118
4	01051199	FR	774

3.4.2. Dispatches

The List table is grouped by:

- Commodity Code
- Country Arrival Dispatch ISO Code
- Region of Arrival Dispatch
- Nature of Transaction
- Transport Mode
- Regime Code
- VAT Nr Supplier Customer
- **Additional Statistical Code**
- **Country of Origin**

The screenshot displays the 'Return Boxes' section of the software. Under 'Numerical Boxes', the 'List Dispatches' option is highlighted with a red box. Below this, a detailed view titled 'DECLARATION DETAILS - list dispatches' is shown, containing a table with the following data:

Line Number	Commodity code	Country of Arrival	Invoice value
1	01051199	FR	22
2	01051199	FR	263
3	01051199	FR	55
4	01051199	FR	456

3.5. Ordering of Columns in List boxes for Arrivals/Dispatches

When preparing an Intrastat Arrivals/Dispatches Return, the Columns in the list boxes are ordered as below:

3.5.1. Arrivals

Column Name	Order
Line Number	1
Commodity code	2
Country of dispatch	3
Invoice Value	4
Regime code	5
Net mass	6
Quantity in Supplementary Units	7
Nature of Transaction	8
Mode of transport	9
Region of arrival	10
Country of Origin	11
Additional Statistical Code	12

DECLARATION DETAILS - list arrivals

Line Number	Commodity code	Country of Dispatch	Invoice value	Regime code	Net mass	Quantity in Supplementary units	Nature of transaction	Mode of Transport	Region of Arrival	Country of Origin
1	02062999	BG	55	11	11	25	41	5	05	FR
2	01051199	FR	481	19	2	70	23	5	11	FR
3	02032955	FR	5118	11	16	70	21	5	01	FR

3.5.2. Dispatches

Column Name	Order
Line Number	1
Commodity code	2
Country of Arrival	3
Invoice Value	4
Regime code	5
Net mass	6
Quantity in Supplementary Units	7
Nature of Transaction	8
Mode of transport	9
Region of Dispatch	10
Country of Origin	11
Partner VAT ID	12
Additional Statistical Code	13

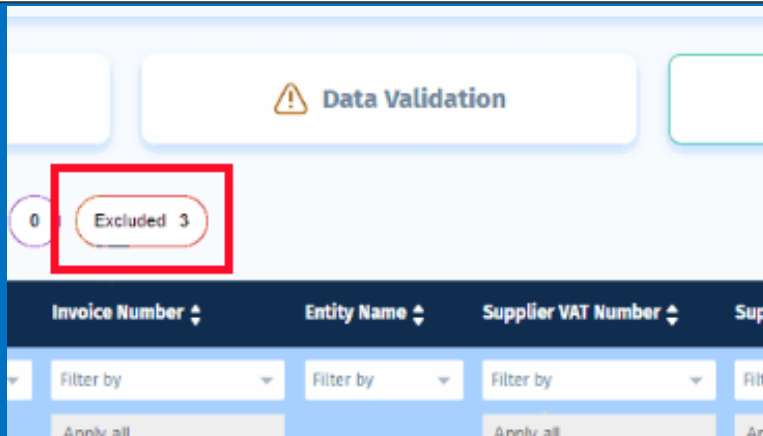

DECLARATION DETAILS - list dispatches Download

Line Number	Commodity code	Country of Arrival	Invoice value	Regime code	Net mass	Quantity in Supplementary units	Nature of transaction	Mode of Transport	Region
Filter by	Filter by	Filter by	Filter by	Filter by	Filter by	Filter by	Filter by	Filter by	Filter by
1	01051199	FR	22	29	1	20	37	3	10
2	01051199	FR	263	21	2	35	37	3	10
3	01051199	FR	55	21	1	30	37	3	10

4. User Interface (UI) Update

4.1. Excluded Transactions

When the user is in the Excluded Transactions Tab, then the Edit button is disabled.

The user can Hover over the button which reveals the following prompt...

“To enable Editing, include the transactions in the Return.”
