4.4.1. Onboarding	24

Release Overview

This release focuses on updates based on the following:

- User Interactions
 - Templates/Mapping
 - User Role Search

- Core Functionality by Jurisdiction
 - Estonia
 - France
 - Germany
 - Hungary
 - Portugal
 - Spain
 - Sweden

- New Returns/Workflow Countries
 - Austria (Annual Return)
 - Chile (Workflow only)
 - Ireland (Annual Return)
 - Malaysia (Workflow Only)

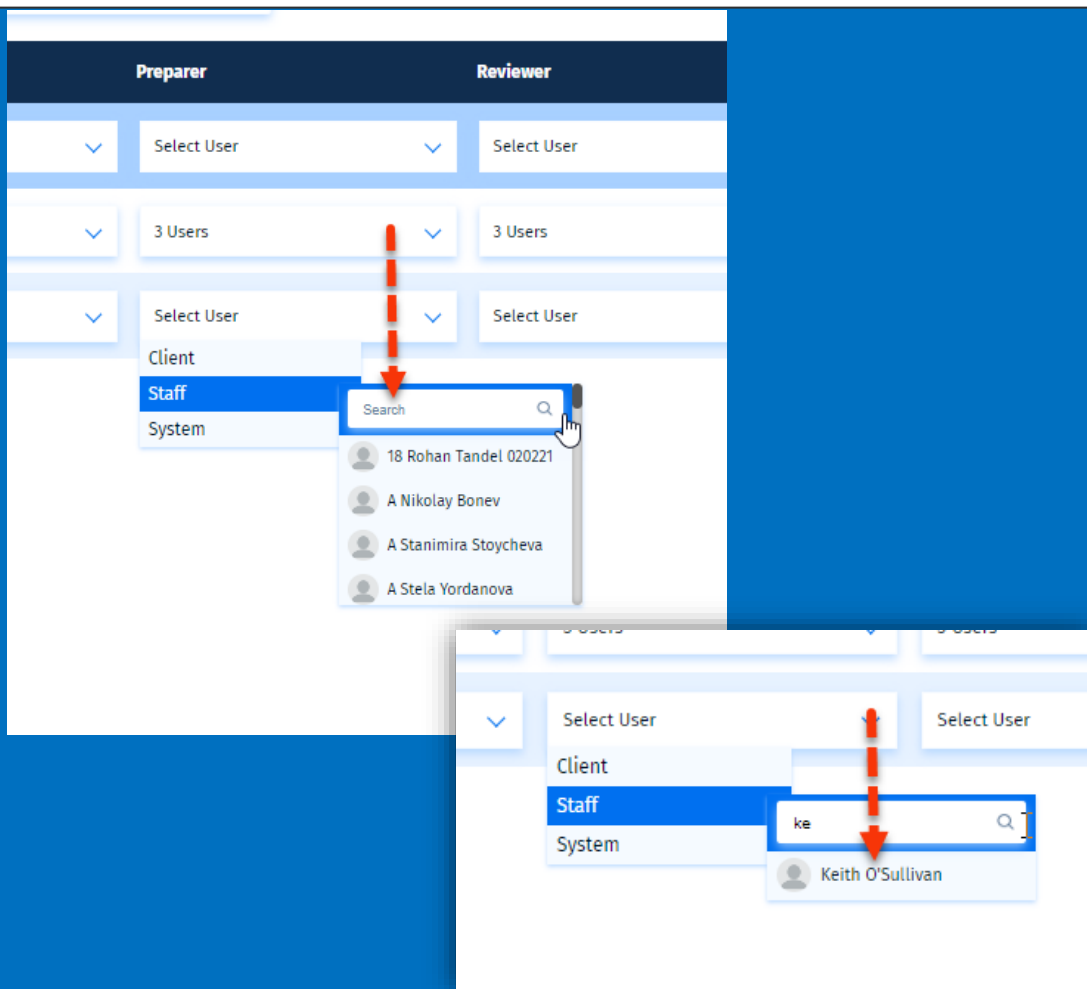

1. User Interactions

1.1. User Roles – Search functionality (Admin User)

When an admin user is configuring/updating user roles, a search field has been added to the user drop-down lists. This allows the user to type letters/names to quickly select the user from the filtered list (prior to this the user had to scroll through an alphabetised list).

This applies to Client, Staff & System drop-down lists.

Navigate to: Security > User Roles

1.2. Audit History (Changes to Non-Numerical Boxes)

When a user makes changes to NNBs, a log is stored in the Audit History at return level.

Return 22830

Jurisdiction: **France** Entity: **France VAT** Type: **VAT Return** Frequency: **Monthly** Period: **Mar 2024** Status: **To Prepare** Filing Deadline: **2024-04-19**

Next action due by 2024-04-10 Return Timeline • Audit History • 29 Comments • 0

1.4. Template Fields (VAT Returns)

When preparing a Template for VAT Related Returns, the following Fields have been removed from Step 3 – Taxback International Fields Invoice Data:

- Input Date Of Supply
- Output/Input Date of Supply
- Output Date Of Receipt
- Output/Input Date Of Receipt

FR template
Mapping template fields

Drag and drop the titles from your template into the corresponding boxes on the bottom to match them up with ours.

[Back a step](#) [NEXT](#)

1.5. Templates – Search Bar in Your Imported Fields screen.

This applies to VAT Related Returns and Intrastat Arrivals/Dispatches.

When preparing a Template and the user is in the TBI Fields step, a search bar has been added to allow the user to easily filter the fields based on the search criteria entered.

The screenshot shows the 'FR template' mapping interface. At the top, there are three tabs: 'Fields Mapping' (active), 'Mapping Tax Transaction Codes', and 'File Name Mapping'. Below the tabs, the title 'FR template' is followed by 'Mapping template fields'. A instruction says: 'Drag and drop the titles from your template into the corresponding boxes on the bottom to match them up with ours.'

On the left, under 'Your imported fields', there is a section 'ALL COLUMNS FROM YOUR EXCEL' containing several field boxes: 'Supplier/Customer Name', 'Supplier/Customer Address', 'Supplier/Customer VAT ID', and 'Supplier/Customer VIES VAT ID'. A search bar is located above these fields, containing the text 'Supp' and a magnifying glass icon. This search bar is highlighted with a red rectangle.

On the right, there is a section for 'Taxback International' with 'Invoice Data' and 'INPUT' fields for 'Supplier Invoice No.' and 'Supplier Invoice Date'.

1.6. Templates – VAT Rate

When preparing a Template and the user is mapping a Tax Code, if the VAT Rate drop-down only displays one VAT Rate, then that rate is automatically selected. (The user will only need to select one if there are multiple rates displayed in the drop-down list).

The screenshot shows the 'Map tax transaction codes' interface. It includes a section 'Map goods or services codes' and a 'Map tax transaction codes' section with a description: 'Enter your tax transaction code and choose the corresponding elements it applies to. Add as many as you would like.'

The 'Map tax transaction codes' section contains several dropdown menus: 'TAX TRANSACTION CODE', 'JURISDICTIONS' (set to 'France'), 'ENTITY CODE', 'TRANSACTION TYPE' (set to 'Output'), 'TRANSACTION CATEGORY' (set to 'Domestic purchase'), 'GOODS OR SERVICES' (set to 'Goods or Services subcategory'), 'GOODS OR SERVICES SUBCATEGORY', 'REVERSE CHARGE' (set to 'Yes'), 'VAT RATE CODE' (set to 'Standard'), 'VAT RATE', and 'DEDUCTIBILITY' (set to 'Deductibility').

The 'VAT RATE' dropdown menu is open, showing two options: '20.00' and '20.00'. The first '20.00' is highlighted with a red rectangle, and a red dashed arrow points to it from the 'Standard' dropdown.

1.7. Templates – Restrict Deductibility drop-down.

When mapping tax codes, the **Deductibility** drop-down has been disabled if the user has selected any of the following Transaction Categories:

- Digital Service
- Distance Sale
- Domestic Sale
- EU Supply
- Export
- Supply with Installation

This is to prevent selecting a deductibility Rate for Output transactions.

Example:

Map tax transaction codes 3 CODES MAPPED SUCCESSFULLY

Enter your tax transaction code and choose the corresponding elements it applies to. Add as many as you would like.

TAX TRANSACTION CODE	JURISDICTIONS	ENTITY CODE
	Poland	PolandTest

TRANSACTION TYPE	TRANSACTION CATEGORY	GOODS OR SERVICES	GOODS OR SERVICES SUBCATEGORY
Transaction type	Domestic sale	Goods or Services	Goods or Services subcategory

REVERSE CHARGE	VAT RATE CODE	VAT RATE	DEDUCTIBILITY
Reverse charge	Select goods or services	Select VAT rate code	Deductibility

EXPENSE TYPE

The following message is displayed if the user hovers over the Deductibility drop-down:

GOODS OR SERVICES SUBCATEGORY

Goods or Services subcategory

Deductibility applies for Purchase Categories.

Deductibility

2. VAT/VIES – Generated Files

2.1. VAT

XML files for the following jurisdictions are generated in the View Return tab, which can be submitted to the relevant Tax Authority portals:

- Austria
- Belgium
- Croatia
- Slovakia

2.2. VIES

The following files are generated in the View Return tab, which can be submitted to the relevant Tax Authority portals:

- Bulgaria – TXT File
- Netherlands – XML

3. Core Functionality Updates

3.1. Estonia

Box 4 has been updated as a Non calculation box.

Data Provider/Approver/Submitter

The box will be displayed with an **Eye icon**.

Box 5	Total amount of input VAT subject to deduction pursuant to	0.00	0.00	0.00	

3.2. France

3.2.1. Mapping Update

The mappings have been updated for 2024 which means that when the user uploads a data file for returns for 2024, the transactions will be allocated to the relevant boxes.

3.2.2. Removal of Subcategories

When the user is preparing Tax Code Mapping, the following Subcategories have been **removed** from the Goods and Services Subcategory drop-down:

- Supplies to Mainland France
- Intra-Group Transactions
- Supplies to/from Non-Established Business Partner

Map tax transaction codes 3 CODES MAPPED SUCCESSFULLY

Enter your tax transaction code and choose the corresponding elements it applies to. Add as many as you would like.

TAX TRANSACTION CODE	JURISDICTIONS	ENTITY CODE
	France	Entity code

TRANSACTION TYPE	TRANSACTION CATEGORY	GOODS OR SERVICES
Transaction type	Transaction category	Goods or Services

REVERSE CHARGE	VAT RATE CODE	VAT RATE
Reverse charge	Select transaction category	Select VAT rate code

3.6. Spain – VAT Return

3.6.1. Numerical Boxes

When preparing a VAT Return and the user is on the Return Review screen, then the following boxes are editable for Preparers/Reviewers, allowing them to make manual adjustments as required:

- Box 69
- Box 72
- Box 110

Example:

The screenshot shows the 'Return Boxes' interface. At the top, there are tabs for 'Numerical Boxes' and 'Non-Numerical Boxes'. Below the tabs is a table with columns: 'Section', 'Description', 'Original Value', 'Submitted Value', 'Previous Period', and 'Dev'. The table lists several boxes, including Box 110, Box 78, Box 87, Box 68, and Box 69. Box 110 and Box 69 have red dashed lines and arrows indicating they are being edited. At the bottom, there are three buttons: 'RETURN "TO PREPARE"', 'CALCULATE RETURN BOXES', and 'VIEW RETURN'.

Section	Description	Original Value	Submitted Value	Previous Period	Dev
Box 110	Quotas to be compensated from previous periods	0.00	333.00	0.00	
Box 78	Quotas to be compensated from previous periods applied in this period	0.00	0.00	0.00	
Box 87	Quotas to be compensated from prior periods pending for subsequent periods (110-87)	333.00	333.00	0.00	
Box 68	Annual Adjustment Results (Exclusively For Taxpayers Taxed Jointly To The Admon State And The Regional Councils) ;Annual Adjustment Result:	0.00	0.00	0.00	
Box 69	Result	0.00	4,000.00	0.00	

Buttons: RETURN "TO PREPARE", CALCULATE RETURN BOXES, VIEW RETURN
