Overview

The following releases notes are a high level reflection of work completed during Fix Version 3.2.0. These include both client facing and back end updates.

The main areas of focus for this release are as follows:

- Control List for Estonia
- Out of Scope Transactions
- 1 to Many Mapping
- Additional Changes

1. Estonia.

1.1. Drop Down in List Purchases VAT Return – Estonia

Description:

As a Comply User (Preparer/Reviewer), there is now a three option drop down menu in the **Special Code** in **List Purchases** numerical return box.

DECLARATION DETAILS - list purchases

CANCEL SAVE Download

me	Invoice Number	Invoice Date	Gross Amount	Value added tax amount stated on the invoice *	Input VAT reported on VAT Return	Special Code
☐	Filter by	Select date range	Filter by	Filter by	Filter by	Filter by
	Apply all		Apply all			Apply all
☒	F ORA 972	05/01/2023	360.00	Numerical Value	60.00	
☐	977	05/01/2023	1090.00		90.00	
☐	ution L 979	05/01/2023	1104.00		184.00	
☐	F ORA 973	05/01/2023	360.00		30.00	
☐	ution L 983b	05/01/2023	864.00		144.00

			4717.00		527.00	

The user can provide more accurate reporting to the Tax Authorities. The drop-down provides 3 available options to choose from:

- Blank
- 11
- 12

1.2. Select Option in List Sales & List Purchases – VAT Return

Estonia

Description:

As a Comply user (Preparer & Reviewer at To Prepare/To Review), in the VAT Return for Estonia there is an option to select particular or all transactions from the pop-up windows in **List Sales** or **List Purchases**.

Navigate to Returns Review > Numerical Boxes > List Sales/List Purchases > Click the Eye icon.

Here the tick boxes all are available and the user can select 1 or multiple rows to edit as required.

Line Number	Customer VAT Number	Customer Name	Invoice Number	Invoice Date	Invoice total without val
1	EE290167297	Rafe Cannon	VPM-3060	21/01/2023

1.3. Apply All Function in List Sales & List Purchases – Estonia VAT Return

Description:

As a Comply user (Preparer/Reviewer), users can find an **Apply All** function in the return list boxes **List Sales** and **List Purchases**. This allows the user to enter a value once and apply it to all cells within the editable columns and allows faster preparation of Control Lists.

Navigate to Returns Review > Numerical Boxes > List Sales/List Purchases > Click the Eye icon.

Once the row or rows are selected using the tick boxes, the user can use the **Apply All** field to apply the same change to each selected row.

The screenshot shows the 'DECLARATION DETAILS - list sales' window. It features a table with columns: Line Number, Customer VAT Number, Customer Name, Invoice Number, Invoice Date, and Invoice total without value added tax. The first three columns have 'Filter by' dropdowns and 'Apply all' buttons. The 'Invoice total without value added tax' column has a 'Filter by' dropdown and a text input field containing '12345.00'. A red box highlights the checkboxes in the first column, and another red box highlights the 'Apply All' field in the last column. A red dashed arrow points from the 'Apply All' field to the selected rows.

Line Number	Customer VAT Number	Customer Name	Invoice Number	Invoice Date	Invoice total without value added tax

CREATE RETURN BOXES VIEW RETURN SEND FOR REVIEW

2. Czech Republic

2.1. Delivery Terms Defined by Jurisdiction – Intrastat Returns

Description:

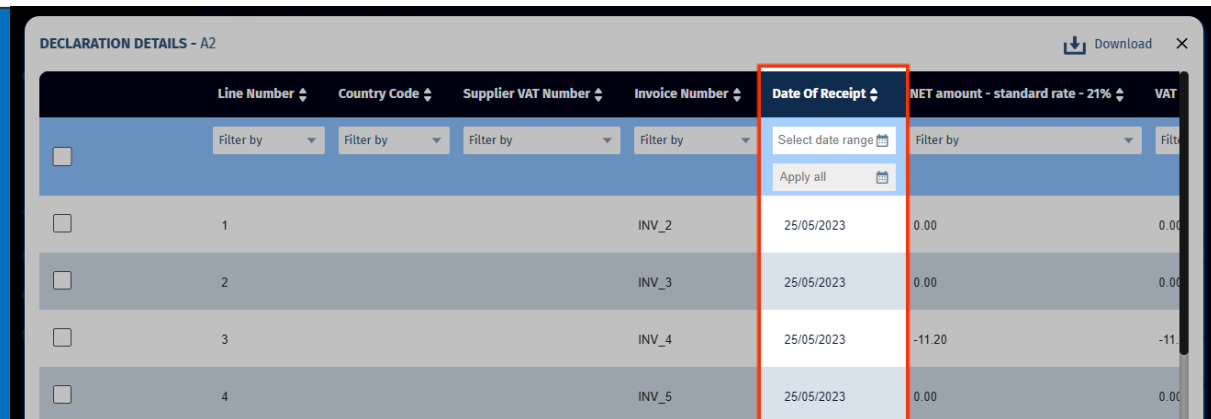

As a Comply user, delivery terms are defined by Country ID.

Delivery terms K, L, M, and N have been added to the existing delivery terms listing for Czech Republic. This means that if the user presents these terms in their data, then the data validation will check the country to be Czech Republic and accept the delivery terms as being valid.

2.2. Date of Supply & Date of Receipt Auto-Populate

Description:

As a Comply user (Preparer / Reviewer), for the Control List of Czech Rep. the columns **Date of Receipt** and **Date of Supply** in boxes A1, A2, A3, A4, B1, and B2 will auto-populate with Tax Point or Posting Date.

Line Number	Country Code	Supplier VAT Number	Invoice Number	Date Of Receipt	NET amount - standard rate - 21%	VAT
1			INV_2	25/05/2023	0.00	0.00
2			INV_3	25/05/2023	0.00	0.00
3			INV_4	25/05/2023	-11.20	-11.20
4			INV_5	25/05/2023	0.00	0.00

This means users will no longer have to complete these manually if they are already uploaded.

2.3. Numerical Boxes for Control List (Czech Rep.)

Description:

As a Comply User (all roles), numerical return boxes are available in the Return Review for the Control List in Czech Republic. This means that all users can submit returns with the correct numerical return boxes.

3. Templates & Mapping

3.1. Map One Client Field to Many TBI Fields

Description:

During mapping, the imported client fields are visible and can be mapped using drag and drop functionality. This new change allows the user to drag and drop a client field not just once, but each field remains in the “Your Imported Fields” section after mapping it, and can then be used again to map the same field to more TBI fields.

Drag and drop the data from your template into the corresponding boxes on the bottom to match them up with ours.

3.2. Substitute an Existing Mapped Field via Drag and Drop

Description:

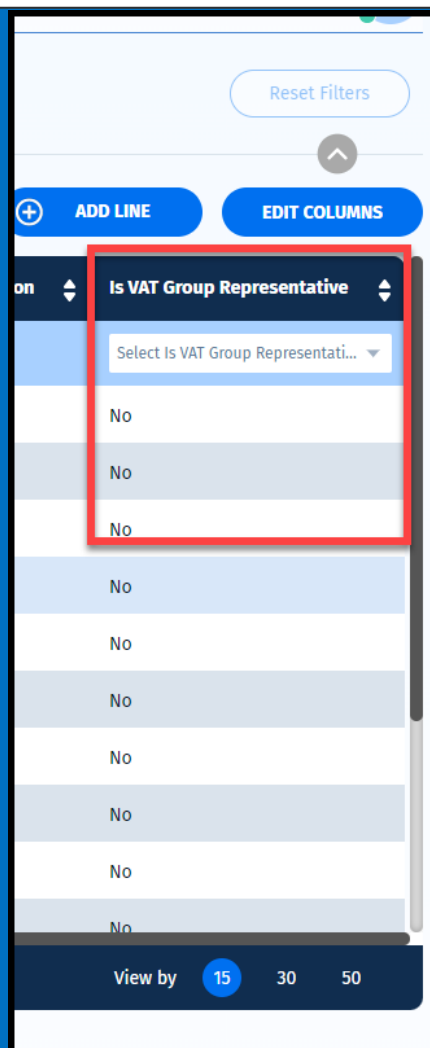

The platform now allows the user to replace/substitute a TBI field which has already been mapped. This can be done via the drag and drop functionality from “Your Imported Fields”.

4. VAT Group

4.1. VAT Group Representative Column

Description:

As a Comply User, values for **Is VAT Group Representative** are now listed as **Yes** and **No**. This makes it more intuitive for the user.

5. Data Validation - Rules

5.1. Data Validation – Intrastat Dispatch

Description:

As a Comply User, there is new logic for **Rule Code: K2.23 Data Validation Nature of Transaction_Italy_Intrastat Dispatch**.

This new logic is checking that (Where the return is Intrastat Dispatches for Italy) the Invoice Value for the same Return Type and Jurisdiction last year was greater or less than €20m. If it was greater **and** the Nature of Transactions Code is **NOT** a double digit code then the rule should fail.

The user should use the I icon after the Error, and follow the suggested solution to make the required correction.

5.2. Data Validation – Intrastat Arrival

Description:

As a Comply User, there is new logic for **Rule Code: K1.23 Data Validation Nature of Transaction_Italy_Intrastat Arrival**.

This new logic is checking that (Where the return is Intrastat Arrivals for Italy) the Invoice Value for the same Return Type and Jurisdiction last year was greater or less than €20m. If it was greater **and** the Nature of Transactions Code is **NOT** a double digit code then the rule should fail.

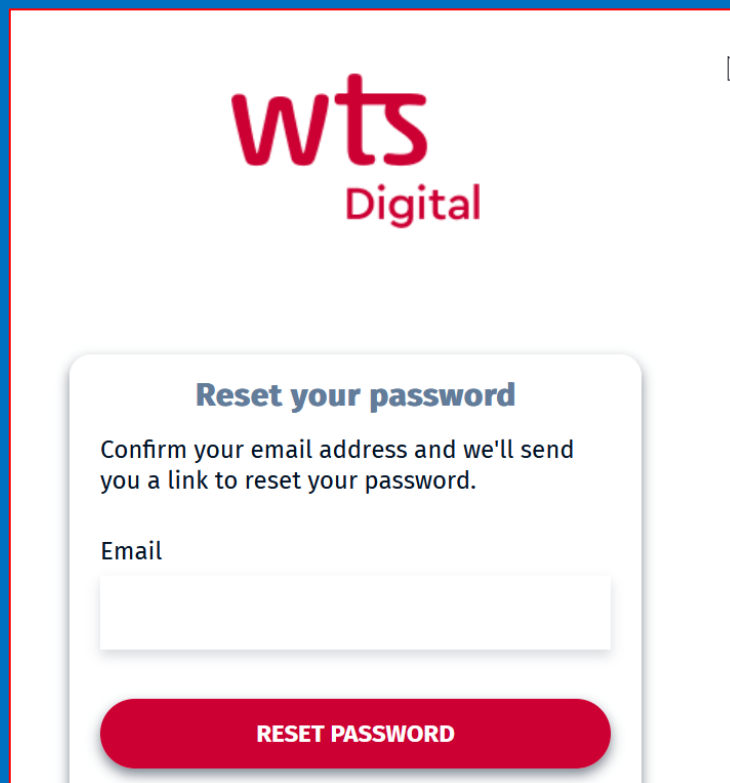

The user should use the I icon after the Error, and follow the suggested solution to make the required correction.

6. Client Specific Changes

6.1. WTS – Text Changed on Forgot Password

Description:

For WTS users, Taxback International has been replaced with WTS in the text that appears after a user clicks on Forgot Password and Reset Password.

A screenshot of a web form for resetting a password. At the top, the logo "wts Digital" is displayed in red. Below the logo, the heading "Reset your password" is shown in bold. The text "Confirm your email address and we'll send you a link to reset your password." follows. There is a label "Email" above a white input field. At the bottom of the form is a red button with the text "RESET PASSWORD" in white capital letters. The entire form is set against a white background with a subtle shadow, and the whole image is framed by a blue border.

7. Additional Changes

7.1. Ability to Select Between Local Languages and English

Description:

As a Comply User (all users), there is now the ability to select the Local Language for the return box descriptions in the **Return Review** (Numerical, Non-Numerical Boxes). This makes it easier for users to understand.

Default Toggle English

The screenshot shows the 'Return Review' tab selected. At the top, there is a header with fields for Jurisdiction (Czech Republic), Entity (CZ-1-11), Type (Control List), Frequency (Monthly), Period (Jun 2023), Status (To Prepare), and Filing Deadline (2023-07-25). Below this, there is a navigation bar with buttons for Files, Data Validation, Transactions, Return Validation, and Return Review. The 'Return Review' button is highlighted. In the bottom right corner, there is a language toggle switch set to 'English'. The main content area shows a table with two tabs: 'Numerical Boxes' and 'Non-Numerical Boxes'. The 'Numerical Boxes' tab is active, and it contains a table with three rows: A1, A2, and A3. Each row has a 'Section' column and a 'Description' column. The descriptions are in English.

Section	Description
A1	Taxable supplies in domestic reverse charge regime from which the customer is obliged to declare tax according to Article 92a of the VAT Act
A2	Taxable purchase transactions, from which the customer is obliged to declare tax according to Article 108 section 2 a 3 (Article 24 and 25) of the VAT Act
A3	Supplies in special regime for investment gold according to Article 101c section 1c) point 2 of the VAT Act

Toggle Local Language

The screenshot shows the 'Return Review' tab selected. At the top, there is a header with fields for Jurisdiction (Czech Republic), Entity (CZ-1-11), Type (Control List), Frequency (Monthly), Period (Jun 2023), Status (To Prepare), and Filing Deadline (2023-07-25). Below this, there is a navigation bar with buttons for Files, Data Validation, Transactions, Return Validation, and Return Review. The 'Return Review' button is highlighted. In the bottom right corner, there is a language toggle switch set to 'Local language'. The main content area shows a table with two tabs: 'Numerical Boxes' and 'Non-Numerical Boxes'. The 'Numerical Boxes' tab is active, and it contains a table with four rows: A1, A2, A3, and A4. Each row has a 'Section' column and a 'Description' column. The descriptions are in Czech.

Section	Description
A1	Uskutečněná zdanitelná plnění v režimu přenesení daňové povinnosti, u kterých je povinen přiznat daň příjemce plnění podle § 92a
A2	Přijatá zdanitelná plnění, u kterých je povinen přiznat daň příjemce dle § 108 odst. 2 a 3 (§ 24, § 25) (v případě plnění podle § 108 odst. 3 písm. b) jde o plnění přijatá od 29. 7. 2016)
A3	Uskutečněná plnění ve zvláštním režimu pro investiční zlato podle § 101c odst. 1 písm. c) bod 2
A4	Uskutečněná zdanitelná plnění a přijaté úplaty s povinností přiznat daň dle § 108 odst. 1 s hodnotou nad 10.000,- Kč včetně daně a všechny provedené opravy v souvislosti s nedobytými pohledávkami

7.2. Drop-Down Menu for Supply Code column

Description:

As a Comply User (Preparer/Reviewer), there is now a drop down menu in the column 'Supply Code' in A1 and B1 numerical return boxes. This change allows users to complete required data manually.

DECLARATION DETAILS - A1

Line Number	Customer VAT Number	Invoice Number	Date Of Supply	Net Amount	Supply Code
1	CZ15	INVSale_5	Select Date	-55.44	14 (Mobile phones)
TOTAL NUMBER OF COMPLETED LINES: 1					-55.44

Navigation: Prev 1 Next View by 15 30 50

7.3. Model for Return Listing APIs

Description:

Comply users should be notified that there is now a model for all APIs related to the Returns Page.

7.4. New Fields for Date to be Added

Description:

As a Staff User and Client Admin, there are new fields below the existing fields in the Invoice Data section. These are non-mandatory and only for VAT Related Returns. This means that the user has the diversity for mapping additional fields, if they are available in source data.

- Input Credit Note Number
- Input Date of payment
- Input Date of receipt
- Input Tax reporting date
- Input Date of supply
- Output Credit Note Number
- Output Date of payment
- Output Date of receipt
- Output Tax reporting date
- Output Date of supply

7.5. Lithuania – Codes Amended for the Supplementary Unit Type

Description:

As a Comply user, the Supplementary Unit Type (SUT) codes for Lithuania are saved to the SUT table. This allows the correct codes to appear in the platform for Lithuania.

7.6. Returns – Upload Historical Information

Description:

As a Staff User, the Historical Info button on the Returns page is no longer visible as it had no functionality implemented.

The screenshot displays the Taxback International Comply interface. On the left sidebar, the 'Returns' menu is expanded, and 'All Returns' is highlighted with a red box. The main content area shows a table of returns. The table has the following columns: Return ID, Submission Type, Return Deadline, Current Return Status, Tax Jurisdiction Name, Entity Name, and Return Type. Two rows are visible:

Return ID	Submission Type	Return Deadline	Current Return Status	Tax Jurisdiction Name	Entity Name	Return Type
692	Regular	21-12-2022	To Prepare	Australia	AU-1-11	VAT Return
693	Regular	23-01-2023	To Prepare	Australia	AU-1-11	VAT Return

A red box highlights the 'All Returns (1797)' header area above the table.

7.7. Record Commodity Codes

Description:

As a Comply user, the details for the listed bullet points are visible. The system will refer to the details for relevant year, based on the year of the return.

- Commodity Code ID
- Associated Description in English/Polish/Croatian
- Associated Supplementary Unit Type/Code

This means that when transactions are uploaded for a dated return, the system can check if the Commodity Code, Description of Goods, and SUT are valid for that year.

7.8. Drop Down Menu in List Sales

Description:

As a Comply user (Preparer/Reviewer), there is now a drop down menu in the column **Special Code** in **List Sales** numerical return box.

The screenshot displays the 'DECLARATION DETAILS - list sales' interface. It features a table with columns: 'Total without value added tax', 'VAT Rate', 'Taxable value of goods or services stated on the invoice', 'Taxable supply reported on VAT Return', and 'Special Code'. A dropdown menu is open for the 'Special Code' column, showing options 01, 02, and 03. The table contains several rows of data, including a total row at the bottom showing 1700.00. The interface also includes a 'Download' button and navigation controls at the bottom.

	Total without value added tax	VAT Rate	Taxable value of goods or services stated on the invoice	Taxable supply reported on VAT Return	Special Code
☐	by	Filter by	Filter by	Filter by	Filter by
☐	y all		Apply all		
☐		0.00		-320.00	
☐		9.00		200.00	
☐		0.00		100.00	
☐		0.00		850.00	
☐		0.00		-800.00	
☐		20.00		-110.00	
				1700.00	

7.9. Out of Scope – Transactions with TBI Category “Out of Scope” do not stop Calculations

Description:

For situations where data includes transactions which have a TBI Category “Out of Scope”, and this has been mapped successfully, then the data validation runs as normal and these transactions NO NOT stop the calculations.

The screenshot displays the 'Map tax transaction codes' interface, which has a status bar at the top indicating '3 CODES MAPPED SUCCESSFULLY'. Below this, a message states: 'Enter your tax transaction code and choose the corresponding elements it applies to. Add as many as you would like.' The interface is organized into several sections with dropdown menus, each marked with a green checkmark to indicate successful selection:

- TAX TRANSACTION CODE:** A text input field.
- JURISDICTIONS:** A dropdown menu with 'Jurisdiction' selected.
- ENTITY CODE:** A dropdown menu with 'Select jurisdiction' selected.
- TRANSACTION TYPE:** A dropdown menu with 'Select jurisdiction' selected.
- TRANSACTION CATEGORY:** A dropdown menu with 'Out of Scope' selected. This section is highlighted with a red rectangle.
- GOODS OR SERVICES:** A dropdown menu with 'Goods or Services' selected.
- GOODS OR SERVICES SUBCATEGORY:** A dropdown menu with 'Goods or Services subcategory' selected.
- REVERSE CHARGE:** A dropdown menu with 'NA' selected.
- VAT RATE CODE:** A dropdown menu with 'Select goods or services' selected.
- VAT RATE:** A dropdown menu with 'Select jurisdiction' selected.
- DEDUCTIBILITY:** A dropdown menu with 'Select jurisdiction' selected.
- EXPENSE TYPE:** A dropdown menu with 'Expense type' selected.
