3. Czech Republic – Control List

3.1. Numerical Boxes

When preparing a Control List return, and the user is viewing the Numerical Boxes, the **Original** and **Submitted Values** are calculated as follows:

3.1.1. Box A1 and A3:

The Box values will be the Total of the **Net Amount Column** included in the box.

The screenshot displays the 'Return Boxes' section of the software. The 'Numerical Boxes' tab is selected, showing a table with the following data:

Section	Description	Original Value	Submitted Value
A1	Taxable supplies in domestic reverse charge regime from which the customer is obliged to declare tax according to Article 92a of the VAT Act	1,683.78	1,683.78
A2	Taxable purchase transactions, from which the customer is obliged to declare tax according to Article 108 section 2 a 3 (Article 24 and 25) of the VAT Act	2,430.20	2,430.20
A3			

Below the main table, a 'DECLARATION DETAILS - A1' window is open, showing a table of declaration lines. The 'Net Amount' column is highlighted, showing the following data:

Line Number	Customer VAT Number	Invoice Number	Date Of Supply	Net Amount	Supply Code
1	22138427	12342345	22/01/2024	34.26

5. Finland

5.1. API – Missing Status

5.1.1. Return Status

When comply receives a “Missing” response on Submission, then when the user is viewing the return, the status remains on “**Submitted to TA for Processing**”.

It will remain on this status to identify that the Tax Authority are reviewing it.

5.1.2. Audit History

In the case of a Missing status is received from the Tax Authority, then the status remains the same and no log is added to the Audit History.

5.2. Self Revisions VIES

This applies to Amendment VIES Returns for the following Jurisdictions:

- Czech Republic
- Finland
- Germany
- Hungary
- Poland
- Slovakia

When preparing an **Amendment VIES Return**, and there are edits made to transactions, then the Numerical Boxes are calculated and display only the grouped lines for the edited transactions.

If the boxes are recalculated, then a second corrective grouped row is displayed.

6. Lithuania – Control List

6.1. Numerical Boxes

6.1.1. Return Boxes:

When preparing a Control List return for Lithuania, then the List Sales and List Purchases boxes are available and include the relevant List Columns required. These are not editable and contain an eye icon to allow viewing only.

The screenshot shows the 'Return Boxes' section of the Lithuania VAT Control List return. The 'Type' dropdown is set to 'Control List'. The 'Return Boxes' section shows 'List Sales' and 'List Purchases' with their respective values.

6.1.9. Edits Reflected in Transactions Tab

When preparing a Control List and the user makes edits in the List Sales/List Purchases boxes, then these edits are automatically reflected in the same columns in the Transactions Tab.

For Example:

Name is edited in the List Sales/List Purchases Box, then the name change is automatically made in the Supplier/Customer Name in the Transactions Tab.

VAT Registration Number is edited in the List Sales/List Purchases Box, then this is automatically added to the Supplier VAT Number/Customer VAT number in the Transactions Tab.

The screenshot displays the 'AUDIT HISTORY' section with tabs for 'All Logs', 'Return Logs', and 'Transaction Logs'. Below these is a table with columns: All, Date, Event Group, Event Change From, Event Change To, and User. A row is highlighted with a red box, showing a 'Transaction Modified' event on 16/08/2024 at 09:23:37, with 'Invoice Number - 12342333' and 'Invoice Number - 12342333DD'.

Below the audit history is a 'Transactions' tab. It shows a table with columns: Transaction ID, Submission Type, Invoice Number, Invoice Date, Invoice Posting Date, Net Amount, and VAT Amount. A red box highlights the Invoice Number 12342333DD in the Transactions tab, which corresponds to the Invoice Number 12342333DD in the Audit History tab.
