18.1. Data Validation.....	51

Release Overview

This release focuses on updates and improvements to comply and how it handles:

- **Intrastat Returns**
- **Spain VAT**
- **UI and Core Functionality Updates**

This guide will categorise these updates by Jurisdiction and Functionality.

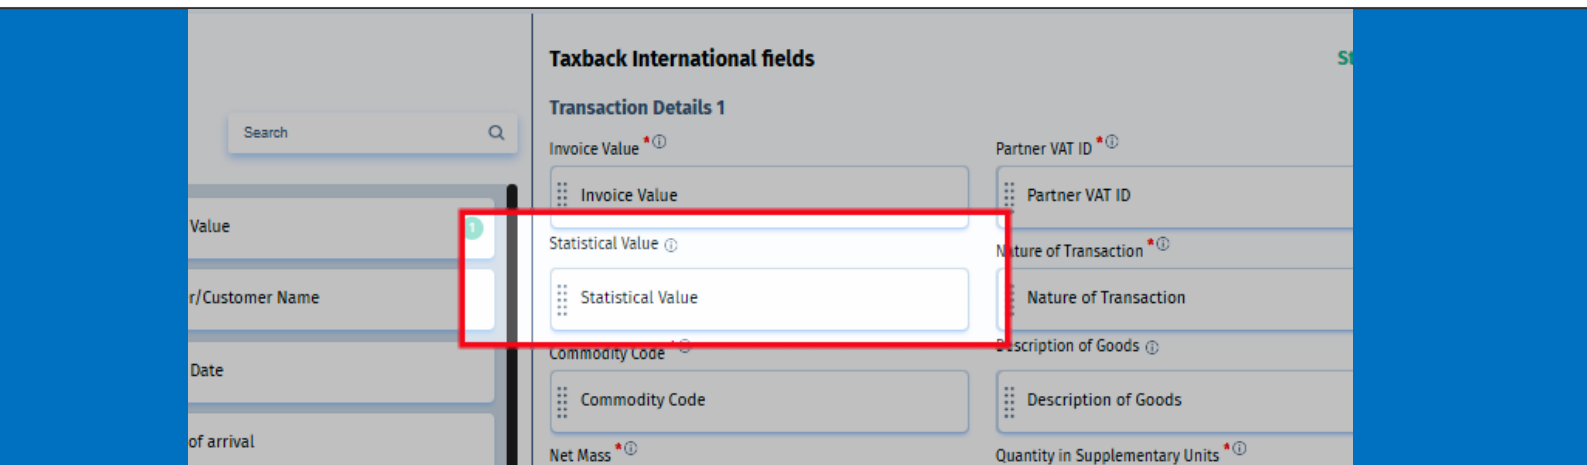

1. Austria

1.1. Mandatory Field – Statistical Value

When preparing Simplified Intrastat Arrivals/Dispatches, **Statistical Value** has been removed as a Mandatory Field. This will be reflected in the following screens:

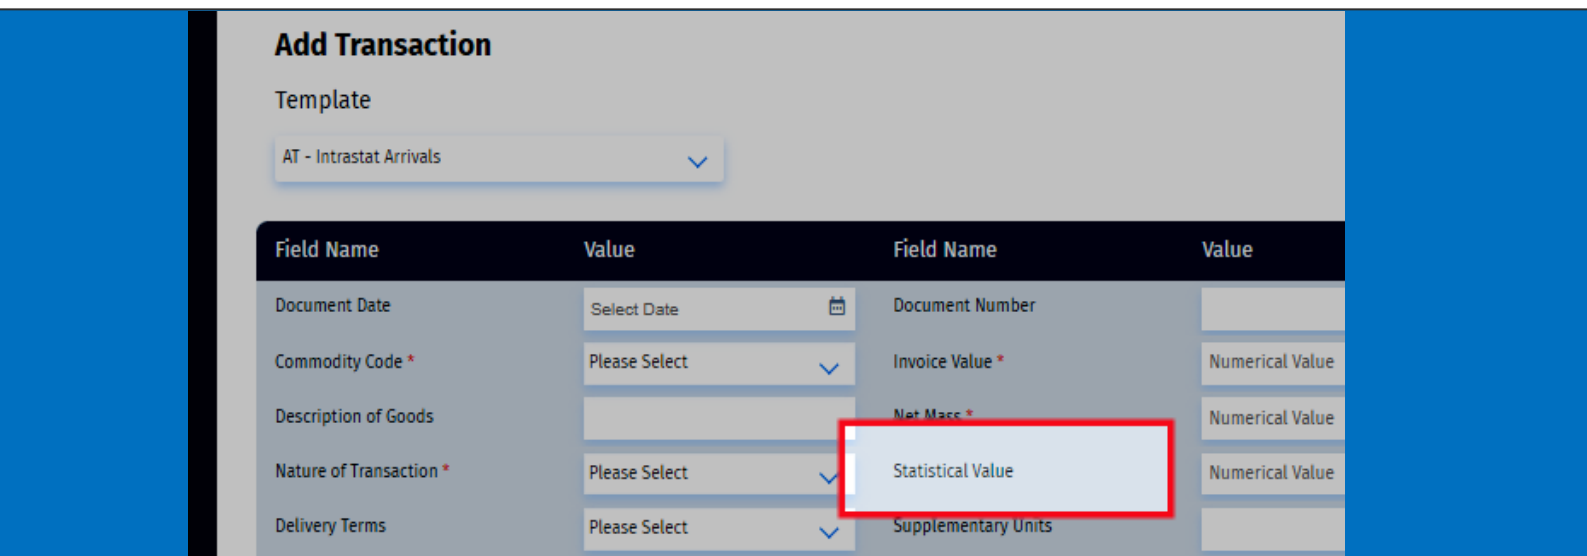

1.1.1. Template Screen

When creating/editing a template, the Statistical Value field will not display a red Asterix.

1.1.2. Add Transaction Screen

When add manual transactions at return level, the Statistical Value field will not display a red Asterix.

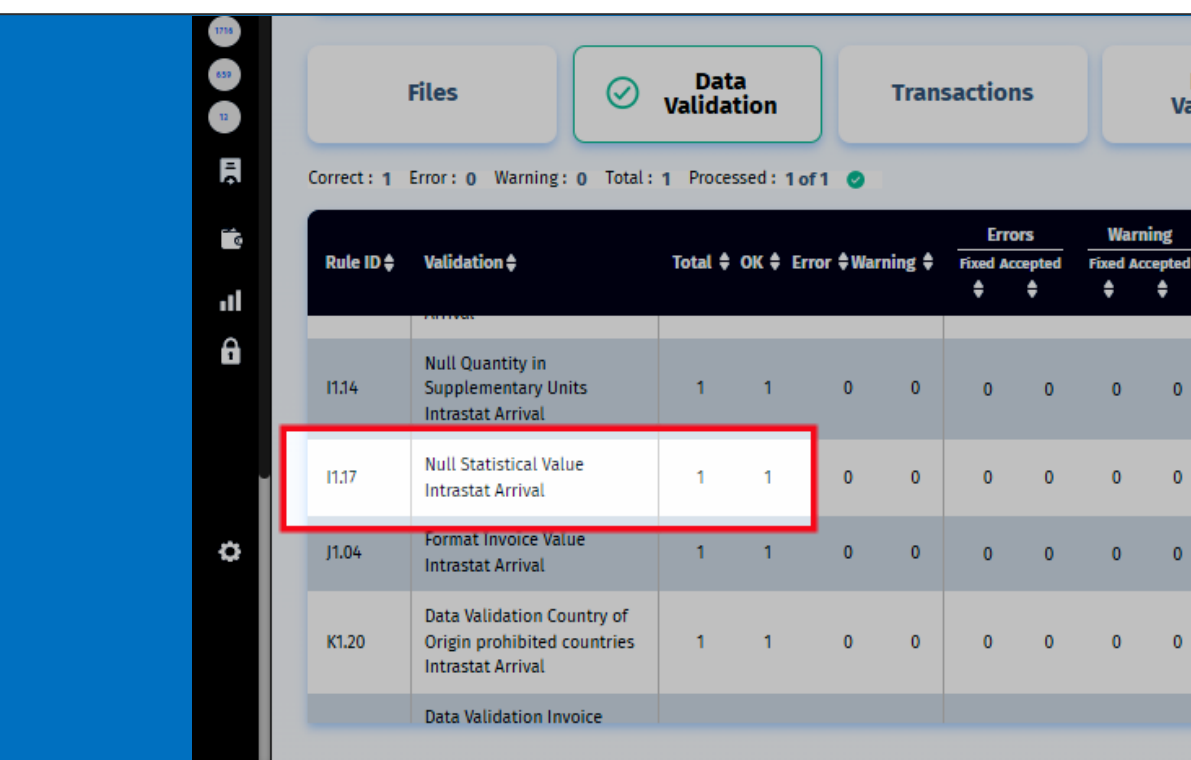

1.1.3. Data Validation Screen

As Statistical Value is no longer a Mandatory Field, the following Null Rules have been updated:

- I1.17 – Null Statistical Value Intrastat Arrival
- I2.17– Null Statistical Value Intrastat Dispatch

These rules will run as part of the Data Validation but will no longer trigger a flag/error if Statistical Value is not uploaded.

Files **Data Validation** Transactions

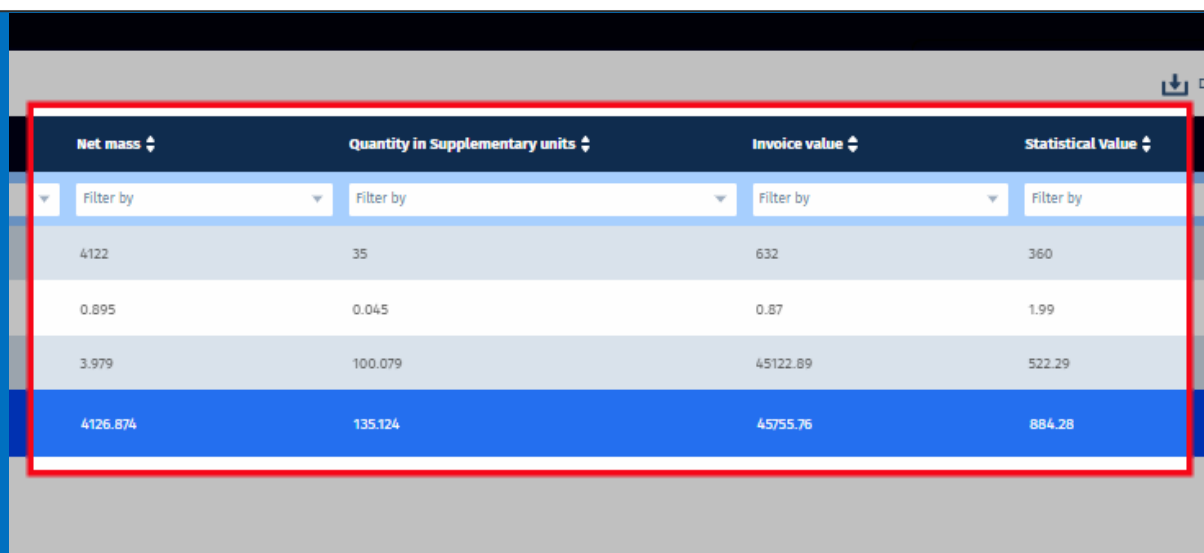

Correct: 1 Error: 0 Warning: 0 Total: 1 Processed: 1 of 1

Rule ID	Validation	Total	OK	Error	Warning	Errors		Warning	
						Fixed	Accepted	Fixed	Accepted
I1.14	Null Quantity in Supplementary Units Intrastat Arrival	1	1	0	0	0	0	0	0
I1.17	Null Statistical Value Intrastat Arrival	1	1	0	0	0	0	0	0
J1.04	Format Invoice Value Intrastat Arrival	1	1	0	0	0	0	0	0
K1.20	Data Validation Country of Origin prohibited countries Intrastat Arrival	1	1	0	0	0	0	0	0
	Data Validation Invoice								

1.2. Rounding of Values

When preparing a return and the user is on the List Sales/List Purchases boxes, then the values for the for the following boxes are automatically rounded as below:

List Column	Decimal Rounding
Net Mass Quantity in Supplementary Units	Round to 3 decimal places
Invoice Value Statistical Value	Round to 2 decimal places

Net mass	Quantity in Supplementary units	Invoice value	Statistical Value
Filter by	Filter by	Filter by	Filter by
4122	35	632	360
0.895	0.045	0.87	1.99
3.979	100.079	45122.89	522.29
4126.874	135.124	45755.76	884.28

2. Belgium

2.1. Rounding of Values

When preparing a return and the user is on the List Sales/List Purchases boxes, then the values for the for the following boxes are automatically rounded as below:

List Column	Decimal Rounding
Net Mass	If the Value is less than 0.01, then it is automatically rounded to 0.01. E.g. 0.004 will be rounded to 0.01
Quantity in Supplementary Units	Round to 2 decimal places

Example:

Net mass	Quantity in Supplementary units	Invoice
156.28	12.46	315
0.01	0.67	22
2	28	2366
158.29	41.13	2703

3. Croatia

3.1. Place of Delivery Field

Place of Delivery is a Mandatory Field, and the field appears in the following screens:

- Templates
- Add Data Transformation Rules
- Data Validation
- Transactions Tab
- Add Transactions
- All Transactions
- Edit Columns

Examples:

3.1.1. Templates Screen

When creating/editing a Template, **Place of Delivery** is Mandatory Field.

The screenshot displays the 'Taxback International fields' form, specifically 'Step 1 of 4'. The form is titled 'Shipping Details' and contains several input fields. A red box highlights the 'Place Of Delivery Code' field, which is marked as mandatory with a red asterisk and a question mark icon. Other visible fields include 'Country of Origin', 'Nationality of Transport Vehicle', 'Regime Code', 'Port/Airport Code', 'Special Movement Code', and 'Additional Statistical Code'. The form also features a 'Back' button and a 'NEXT' button at the bottom.

3.1.2. Add Transactions Screen

When the user is preparing a return and is adding manual transactions, then Place of Delivery is a Mandatory Field.

Field Name	Value
Document Number	
Invoice Value *	Numerical Value
Net Mass *	Numerical Value
Statistical Value	Numerical Value
Supplementary Units	
Quantity in Supplementary Units *	Numerical Value
Country of Arrival *	Please Select
Region of Dispatch	Please Select
Nationality of Transport Vehicle	Please Select
Special Movement Code	Please Select
Place Of Delivery Code *	Please Select

3.1.3. Edit Columns

When the user is adding/editing columns:

GRID FIELDS

Search columns...

- ☒ Mode of Transport
- ☒ Delivery Terms
- ☒ Net Mass
- ☒ Quantity in Supplementary Units
- ☒ Supplementary Units
- ☒ Statistical Value
- ☒ Nationality of Transport Vehicle
- ☒ Port/Airport Code
- ☒ Regime Code
- ☒ Special Movement Code
- ☒ Additional Statistical Code
- ☒ Statistical Procedure
- ☒ Place Of Delivery Code
- ☒ Transaction Invoice Details

Selected Columns (34)

- Document Number
- Document Date
- Supplier/Customer Name
- Supplier Name
- Commodity Code
- Description of Goods
- Country of Dispatch
- Region of Arrival
- Submission Type

3.1.4. [Grouping](#)

Place of Delivery will be considered part of the grouping when preparing Simplified Intrastat Arrivals/Dispatches.

It will be displayed in the Return Review table and Excel File in the Return Review and View Return sections.

3.2. Data Validation – Place of Delivery

3.2.1. [Place of Delivery NULL Rule](#)

A new **Place of Delivery NULL Rule** has been added to the Data Validation tab. When preparing a Simplified Intrastat Arrivals/Dispatches return, and Data has been uploaded, then this rule will run as part of the Data Validation and trigger an Error/Warning if Place of Delivery is missing.

3.2.2. [Place of Delivery Data Validation Rule](#)

A new **Place of Delivery Data Validation Rule** has been added to the Data Validation tab. When preparing a Simplified Intrastat Arrivals/Dispatches return, and Data has been uploaded, then this rule will run as part of the Data Validation and trigger an Error/Warning if the Place of Delivery data entered does not match the data/format required for that field.

3.2.3. [Statistical Value NULL Rule \(I1.17 and I2.17\)](#)

The following NULL Rules do not run as part of the Data Validation for Simplified Intrastat Arrivals/Dispatches:

- I1.17 – Null Statistical Value Intrastat Arrival
- I2.17– Null Statistical Value Intrastat Dispatch

No Flags/Errors will be triggered if Statistical Value is not uploaded.

3.3. Nature Of Transactions

This applies to the XML file only and is not represented in the Comply UI.

When submitting an Intrastat Arrivals/Dispatches return and the user is on the View Return screen, when the XML is created then:

The Nature of Transactions value is split between Box A and Box B.

E.g. Nature Of Transaction Value is 23

Then:

Nature of Transaction Code A = 2

Nature of Transaction Code B = 3

3.4. Commodity Codes

When preparing Intrastat Arrival/Dispatch returns from 01/01/2024, 2 new Commodity Codes have been added and the description of the commodity codes will appear in Croatian.

This means that the Data Validation process will look for these in the mapped data and will not flag an error during Data Validation as incorrect codes.

- 99908700
- 99908800

4. Czech Republic

4.1. Return Review Screen

When preparing Intrastat Arrivals/Dispatches and the user is on the Return Review screen, then the ordering of the Columns has been updated.

4.1.1. Arrivals

List Arrivals:

DECLARATION DETAILS - list arrivals Download

Country of Dispatch	Country of origin	Nature of transaction	Mode of Transport	Delivery terms	Special Movement Code
Filter by	Filter by	Filter by	Filter by	Filter by	Filter by
CZ	CZ	21	3	K	ST
CZ	CZ	23	4	K	ST
CZ	BG	23	4	K	ST
CZ	CZ	23	5	K	ST

4.1.2. Dispatches

List Dispatches:

DECLARATION DETAILS - list dispatches Download

Partner VAT ID	Country of Arrival	Country of origin	Nature of transaction	Mode of Transport	Delivery terms	Special Movement Code
Filter by	Filter by	Filter by	Filter by	Filter by	Filter by	Filter by
CZ123456	CZ	CZ	22	3	K	MZ
CZ123456	CZ	CZ	23	3	K	MZ
CZ123456	CZ	BG	23	5	K	MZ
CZ123456	CZ	CZ	23	5	K	MZ
CZ123456	CZ	BG	23	5	M	MZ
CZ123456	CZ	CZ	51	4	M	MZ

4.2. Additional Statistical Code

Additional Statistical Code has been removed as a Mandatory field. This is reflected in the following screens (No Red Asterix):

- Create/Edit Template
- Add Transaction

4.2.1. Template

So, when creating/editing a Template and are mapping the TBI fields, the Additional Statistical Code field is not mandatory (does not display the red Asterix).

The screenshot shows a web form titled "Taxback International fields" with a "Step 1 of 4" indicator. The form is divided into two columns under the heading "Shipping Details". The left column contains fields for "Mode of transport", "Country of Origin" (with a red asterisk and a help icon), "Country of origin", "Regime Code" (with a help icon), "Special Movement Code" (with a red asterisk and a help icon), "Entity Code", and "Place Of Delivery Code" (with a help icon). The right column contains fields for "Delivery Terms", "Nationality of Transport Vehicle" (with a help icon), and "Port/Airport Code" (with a help icon). A red box highlights the "Additional Statistical Code" field, which has a help icon but no red asterisk. At the bottom left is a "Back" button and at the bottom right is a "NEXT" button.

4.2.2. Add Transaction

So, when you are preparing a return and are adding a Transaction via the Transaction Tab, the Additional Statistical Code field is not mandatory (does not display the red Asterix).

Add Transaction

Template

Please Select Template

Field Name	Value

Add Transaction Image File

5. Estonia

5.1. Partner VAT ID – Mandatory Field

When preparing a **Simplified Intrastat Dispatches** return, Partner VAT ID is Mandatory. This is reflected in the **Templates** section and **Add Transactions** tab. These fields display the Red Asterix which identify a field as mandatory.

5.1.1. Templates Screen

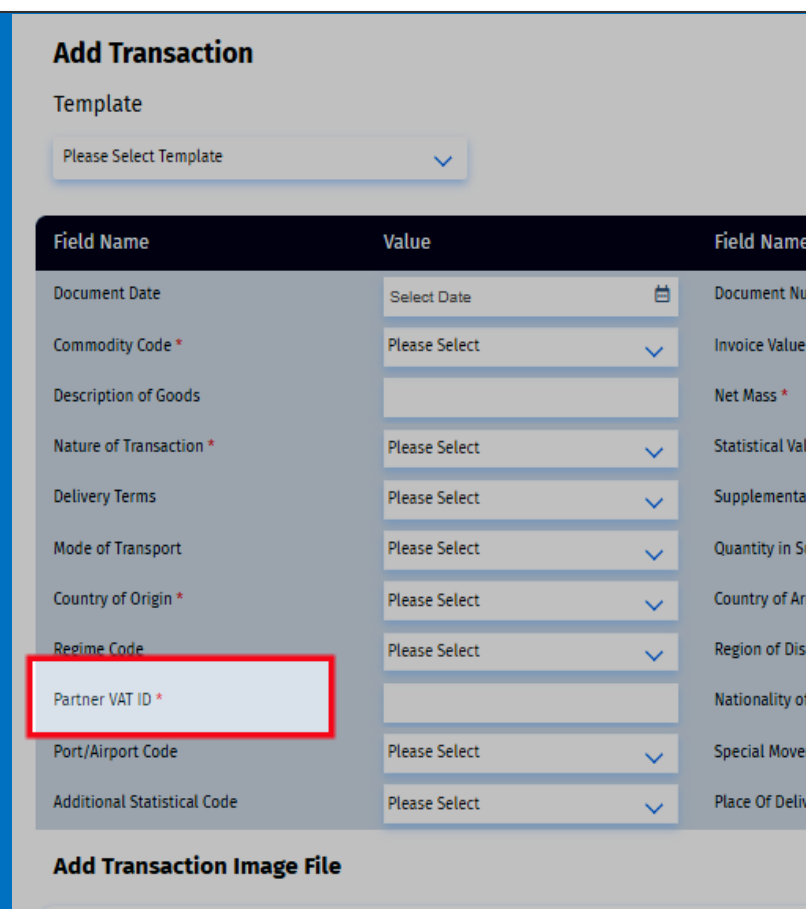

When creating/editing a template.

The screenshot shows the 'Taxback International fields' screen, Step 2 of 4. The 'Transaction Details 1' section contains several fields, each with a red asterisk indicating it is mandatory. The 'Partner VAT ID' field is highlighted with a red box. The fields are:

- Invoice Value *
- Statistical Value
- Commodity Code *
- Net Mass *
- Supplementary Units
- Partner VAT ID *
- Nature of Transaction *
- Description of Goods
- Quantity in Supplementary Units *

5.1.2. Add Transactions Screen

When manually adding Transactions.

Regime Code	Please Select	Region of Dis
Partner VAT ID *		Nationality of
Port/Airport Code	Please Select	Special Mover
Additional Statistical Code	Please Select	Place Of Deliv

Add Transaction Image File

5.2. Submission Deadline

When preparing an Intrastat Arrivals/Dispatches return and the Submission Deadline is a non-working day, then Comply moves that to the next working day.

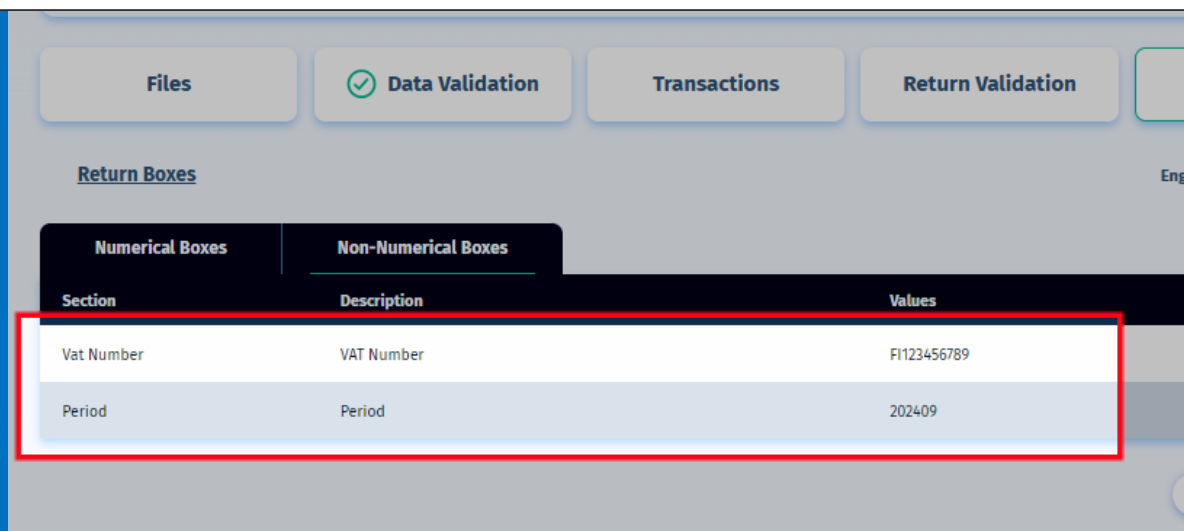

E.g. Submission Deadline Date is Sunday, then Comply moves the deadline to the next day (Monday).

6. Finland

6.1. Non-Numerical Box

When preparing a return and the user has navigated to the Return Review screen, then the Non-Numerical Boxes tab is populated with the following boxes:

- VAT Number
- Period

The screenshot shows the 'Return Review' screen with a 'Return Boxes' section. The 'Non-Numerical Boxes' tab is active, displaying a table with the following data:

Section	Description	Values
Vat Number	VAT Number	F123456789
Period	Period	202409

The values for VAT Number will be automatically populated with the Country Prefix and VAT number.

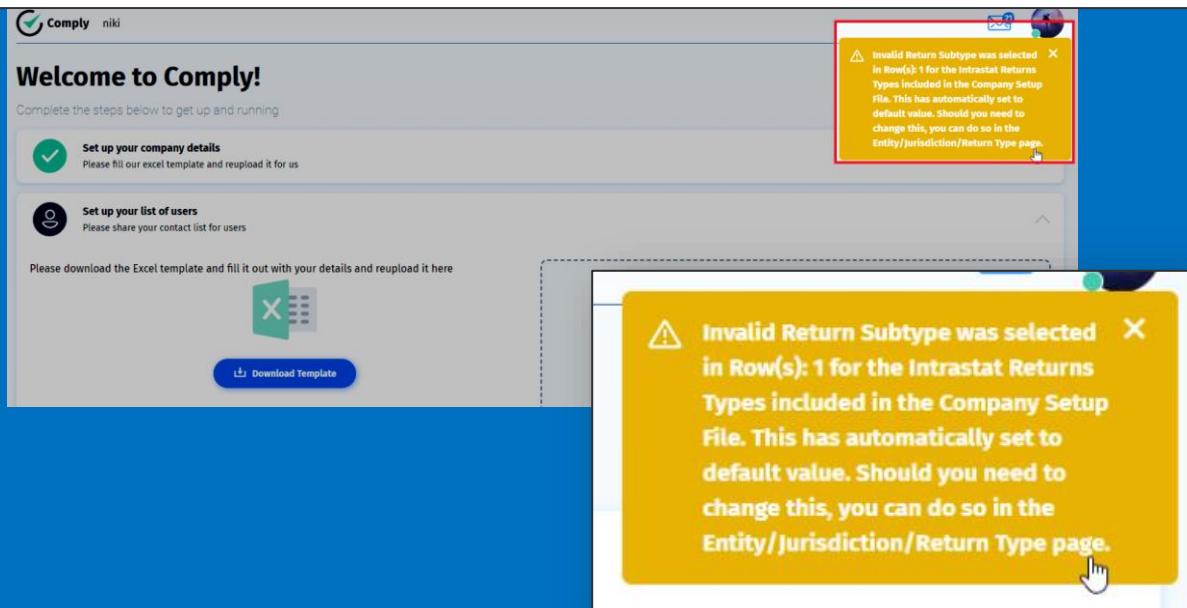

The Period will be populated with the date in YYYYDD format.

6.2. Removed Detailed Intrastat Dispatches

Detailed Intrastat Dispatches have been removed as an option for Finland. The following changes have been made to relevant screens to reflect this update:

6.2.1. Error Message:

An error will be displayed if the user tries to onboard an entity with a Return Type of Detailed.

6.2.2. Create Template:

When creating a Template, if the user selects detailed, then Finland is not an option in the Tax Jurisdiction drop-down.

Create a template

Complete the steps in order to create a template to use with your returns.

Name and upload your template document

Please name your template and upload a sample of your returns document so that we can create a template from it.

NAME THE TEMPLATE

RETURN TYPES

Country

Tax Office Details

6.2.4. [Return Details Page:](#)

When the user visits the Return Details page in the Entity Section and is editing the Return Submission Details section, then the **Return Subtype drop-down** does not include **Detailed**.

The screenshot shows the 'Return Details' page. On the left, there's a table with columns: Return Period, Status, Status Owner, Deadline, and Date Submitted. The table is empty with the message 'No data to show'. In the center, a modal titled 'Return Submission Details' is open. It contains a 'Return Frequency' dropdown set to 'Monthly', a 'Return Subtype' dropdown set to 'Simplified' (highlighted with a red box), a search bar, and a 'Funding Entity' dropdown set to 'FinIntDisp2'. On the right, there's a 'Return Bank Account Details' section with fields for Bank Name, Description / NickName, BIC / SWIFT, and IBAN.

6.2.5. [Add Return Screen](#)

If the user is on the All Returns screen and is adding an Intrastat Dispatches Return, then the Return Subtype will automatically be Simplified.

The screenshot shows the 'Add Return' screen. It has a form with the following fields: 'Entity Code*' (dropdown with 'FinIntDisp'), 'Jurisdiction*' (dropdown with 'Finland'), 'Frequency*' (dropdown with 'Monthly'), 'Return Type*' (dropdown with 'Intrastat Dispatches'), 'Return Start Date*' (calendar icon with 'Select date range'), and 'Return End Date*' (calendar icon with 'Select date range'). A 'SUBMIT' button is at the bottom.

6.3. Data Validation

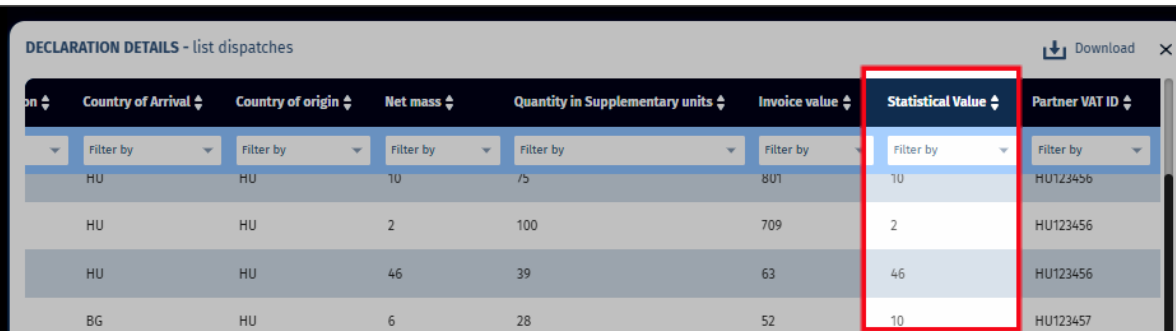

Validation has been amended so that only rules relevant for Simplified Intrastat Dispatches will run.

7. Hungary

7.1. Return Boxes

When preparing a Simplified Intrastat Arrivals/Dispatches return and viewing the List Arrivals/List Dispatches boxes, then the following new List Column is displayed to the right of Invoice Value:

- Statistical Value

Country of Arrival	Country of origin	Net mass	Quantity in Supplementary units	Invoice value	Statistical Value	Partner VAT ID
HU	HU	10	75	807	10	HU123456
HU	HU	2	100	709	2	HU123456
HU	HU	46	39	63	46	HU123456
BG	HU	6	28	52	10	HU123457

When there is a value in this column in the grouped transactions, then this value is included in the submission file.

8. Ireland

8.1. Non-Numerical Boxes

When preparing Intrastat Arrivals and are navigated to the Non-Numerical boxes on the Return Review screen, then the box **Arrivals** is displayed.

Return Boxes		
Numerical Boxes		Non-Numerical Boxes
Section	Description	Values
Email *	E-mail address	dvalcheva@t
Telephone *	Telephone Number	
Vat Number *	VAT Number	25456
Arrivals *	Arrivals Reporting Required	1
Dispatch *	Dispatches Reporting Required	1
Arrivals Stats Value Required *	Arrivals Statistical Values Required	
Representative Address Line 1	Representative Address Line 1	

When preparing Intrastat Dispatches and are navigated to the Non-Numerical boxes on the Return Review screen, then the box **Dispatch** is displayed.

Return Boxes		
Numerical Boxes		Non-Numerical Boxes
Section	Description	Values
Email *	E-mail address	dvalcheva@t
Telephone *	Telephone Number	
Vat Number *	VAT Number	254565476
Dispatch *	Dispatches Reporting Required	1
Arrivals *	Arrivals Reporting Required	1
Dispatches Stats Value Required *	Dispatches Statistical Values Required	
Representative Address Line 1	Representative Address Line 1	

8.1.1. Arrivals Value

When preparing an Intrastat Dispatches return, the value in the **Arrivals** numerical box is populated depending on whether there are records in the Data Type/Field Type ID columns.

- Records in the Data Type Column – Value in Arrivals = 2
- Records in the Filed Type ID Column – Value in Arrivals = 1

Return Boxes		
Numerical Boxes		Non-Numerical Boxes
Section	Description	Values
Dispatch *	Dispatches Reporting Required	1
Arrivals *	Arrivals Reporting Required	1
Dispatches Stats Value Required *	Dispatches Statistical Values Required	
Representative Address Line 1	Representative Address Line 1	

8.2. Nature of Transactions Codes

The Nature of Transactions codes have been updated with new codes, and new descriptions. This means that when preparing Intrastat Arrivals/Dispatches and my transactions include any of these Nature of transaction codes, then they will pass the Data Validation process.

- **Codes 6 & 7 have new descriptions.**
- **Codes 11 and above are new.**

The screenshot displays the 'Add Transaction' form. A red dashed arrow points from the 'Nature of Transaction' field to a dropdown menu. The dropdown menu is open, showing a list of transaction codes and their descriptions. The list includes:

- leasing longer than 24 months).
- 11 - Outright sale/purchase except direct trade with/by private consumers
- 12 - Direct trade with/by private consumers (incl. distance sale)
- 21 - Return of goods
- 22 - Replacement for returned goods
- 23 - Replacement (e.g. under warranty) for goods not being returned

The form also includes fields for Document Date, Commodity Code, Description of Goods, Delivery Terms, Mode of Transport, Country of Origin, Regime Code, Partner VAT ID, Port/Airport Code, and Additional Statistical Code. A search bar is visible next to the dropdown menu.

9. Netherlands

9.1. Country of Origin

The **Country of Origin** parameter has been removed for **Simplified Intrastat Arrivals**. This has been reflected in the following screens:

9.1.1. Templates

When creating/editing a template for Simplified Intrastat Arrivals, then the **Country of Origin** field is not Mandatory – the red Asterix is not displayed.

Example:

Taxback International fields Step 1 of 4

Shipping Details

Country of Dispatch * ⓘ	Region of Arrival ⓘ
Mode of Transport * ⓘ	Delivery Terms ⓘ
Country of Origin ⓘ	Nationality of Transport Vehicle ⓘ
Regime Code ⓘ	Port/Airport Code ⓘ
Special Movement Code ⓘ	Additional Statistical Code ⓘ

9.1.2. Add Transaction

When the user is manually adding a transaction via the Transactions tab on the Return Screen, then the Country of Origin field is not mandatory and does not display the Red Asterisk on the Add Transaction pop-up.

Example:

Add Transaction

Template
Intrastat Arrivals Simplified

Field Name	Value
Document Date	Select Date
Commodity Code *	Please Select
Description of Goods	
Nature of Transaction *	Please Select
Delivery Terms	Please Select
Mode of Transport *	Please Select
Country of Origin	Please Select
Regime Code	Please Select
Partner VAT ID	
Port/Airport Code	Please Select

9.1.3. Return Boxes

When preparing a Simplified Intrastat Arrivals return and the **List Arrivals** box is open, then Country of Origin is not a displayed column on the table and is not considered in the grouping of transactions.

DECLARATION DETAILS - list arrivals

Download X

Line Number	Country of Dispatch	Nature of transaction	Commodity code	Quantity in Supplementary units	Net mass	Invoice Value
1	NL	21	01051199	85	5	774
2	NL	23	01051199	85	2	705
3	NL	23	01051199	70	2	481
4	NL	23	02032955	70	16	5118

9.1.4. Data Validation

The following 2 rules DO NOT run when preparing a Simplified Intrastat Return and transactions have been uploaded:

- I1.04 – Null Country of Origin Intrastat Arrival
- K1.04 – Data Validation Country of Origin Intrastat Arrival

Example:

Files

 Data Validation

Correct : 0 Error : 31 Warning : 0 Total : 31 Processed : 31 of 31 

Rule ID	Validation	Total	OK	Error
K1.02	Data Validation Commodity Code Intrastat Arrival	31	0	 31
K1.03	Data Validation Country of Dispatch Intrastat	31	11	 20
K1.19	Data Validation Nature of Transaction Intrastat Arrival	31	28	 3
K1.01	Check Country of Dispatch is not EU Intrastat	31	31	0
K1.06	Data Validation Description of Goods Intrastat Arrival	31	31	0
K1.07	Data Validation Mode of Transport Intrastat Arrival	31	31	0
K1.09	Data Validation Supplementary Units Intrastat Arrival	31	31	0

This means this step will not flag errors/warnings when Country of Origin is not included in the uploaded transactions.

10. Portugal

10.1. Data Validation

When preparing Intrastat returns the following Airport/Port Rules do not trigger Warnings/Errors if Port/Airport are not included in the uploaded transactions.

- I1.13 – Null Port/Airport Code Intrastat Arrival
- I2.13 – Null Port/Airport Code Intrastat Dispatch
- K1.10 – Data Validation Port/Airport Code Intrastat Arrival
- K2.10 – Data Validation Port/Airport Code Intrastat Dispatch

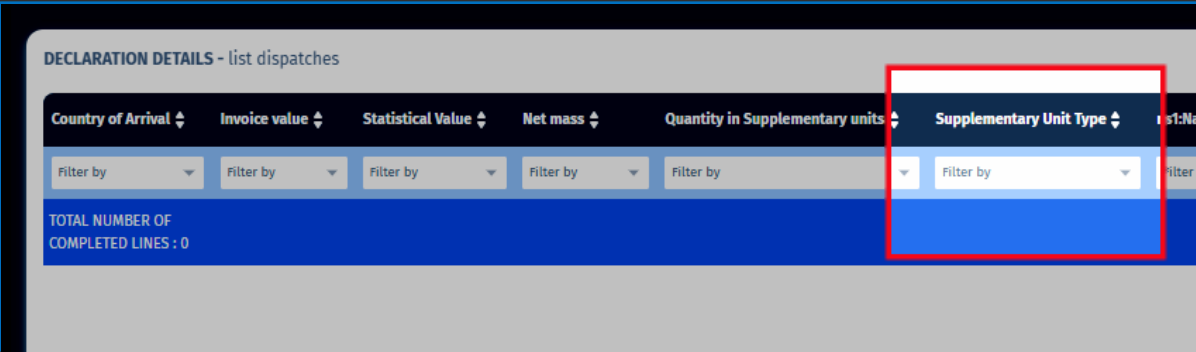

Example:

Files		Data Validation		Tra	
Correct: 0 Error: 3 Warning: 0 Total: 3 Processed: 3 of 3					
Rule ID	Validation	Total	OK	Error	Warning
K1.02	Data Validation Commodity Code Intrastat Arrival	3	0	3	0
K1.19	Data Validation Nature of Transaction Intrastat Arrival	3	0	3	0
X1.01	Force Stop Custom Rules - ASC	3	1	2	0
K1.05	Data Validation Delivery Terms Intrastat Arrival	3	2	1	0
K1.01	Check Country of Dispatch is not EU Intrastat	3	3	0	0
K1.03	Data Validation Country of Dispatch Intrastat	3	3	0	0
K1.04	Data Validation Country of Origin Intrastat Arrival	3	3	0	0
K1.06	Data Validation Description of Goods Intrastat Arrival	3	3	0	0
K1.07	Data Validation Mode of Transport Intrastat Arrival	3	3	0	0
K1.09	Data Validation Supplementary Units Intrastat Arrival	3	3	0	0
J1.02	Format Document Date Intrastat Arrival	3	3	0	0
J1.03	Format Invoice Date Intrastat Arrival	3	3	0	0

11. Romania

11.1. Supplementary Unit Type

When preparing a Simplified/Detailed Intrastat Dispatch return and the user is navigated to the Return Review screen, then the **Supplementary Unit Type** Column is displayed on the Return Table.

Values will populate here for Commodity Codes which have an associated Supplementary Unit Type.

11.2. Non-Numerical Box – Date Time Created

When viewing the Date Time Created non-numerical box, the Values field is formatted as follows:

- yyyy-MM-ddThh:mm:ss.SSSXXX

E.g. 2024-08-16T15:20:52.471+02:00

Return Boxes		
Numerical Boxes		Non-Numerical Boxes
Section	Description	Values
Vat Number *	VAT Number	123456792
Company Name *	Company Name	Romania

11.3. Data Validation.

When preparing an Intrastat Arrivals return then following NULL Rule does not run.

- 11.12 – Null Partner VAT ID

If Partner VAT ID is not added as part of the Data File for Upload, then this NULL Rule does not run and flag errors.

12. Non-Jurisdictional Intrastat Updates

12.1. Commodity Flow – Non-Mandatory

When creating/editing a template for Intrastat Arrivals/Dispatches and on the Mapping page, then the **Commodity Flow** parameter is Not Mandatory. This is reflected in the following Screens:

- **Templates.**
- **Transactions.**
- **Add Transaction.**
- **Data Validation.**
- **Return Review – List Tables.**

12.1.1. Commodity Flow Null Validation Rule

When transactions are upload which do not contain Commodity Flow data, then the following Null Rules do not trigger errors/warnings:

- I1.02
- I2.02

12.1.2. Commodity Flow Data Validation Rule

When transactions are upload which do not contain Commodity Flow data, then the following Data Validation Rules do not trigger errors/warnings:

- K1.12
- K2.12

12.2. Commodity Codes (Intrastat Returns)

This update relates to transactions uploaded which contain a certain list of Commodity Codes.

The **Description of Goods** for these commodity codes will appear in **English** in the following screens:

- Transactions Tab
- Add Transaction screen.
- Data Validation Error screen.

Please note:

- **For Polish Intrastat Returns, the Description of Goods will appear in Polish.**
- **For Croatian Intrastat Returns, the Description of Goods will appear in Croatian.**

12.3. Create Templates using the same Headers

When preparing Templates for Intrastat (Return Types and Subtypes) and the file consists of a set of Headers, as an Admin user, I can create separate templates for each Intrastat Return Type and Return Subtype using the same headers. (Previously headers in a newly created template would need to be manually changed).

E.g. A Template exists for Simplified Intrastat Arrivals for a client. The Admin user can now create a separate Template for Detailed Intrastat Arrivals for the same client and can Map the same headers.

13. VAT RETURN

13.1. Non-Numerical Box – Tax Office Subdivision Code

When preparing a VAT Return, the Tax Office Subdivision Code will be automatically populated with Tax Office Code “4000” if the user performs the following actions:

13.1.1. Entity Screen

In the Entity Screen, the user is on the Return Box Default Values:

1. Select **Tax Office Name**.
2. Chooses: **Specializovaný finanční úřad**
3. Sets the default Value for future returns to **YES**.

Non-Numeric Boxes - Default Values

Group Name
CZ_PROGRESS > Czech Republic > VAT Return

Section	Description	Sample Values	Overwrite Values	Edit	Audit History
taxpayer type *	Payer Type	Entity Details ➤	P (ref return id :1670)		
tax office code *	Tax Office Code	Entity Details ➤			
tax office name *	To the Tax Office for	Entity Details ➤			
tax office subdivision code *	Tax Office Subdivision Code	Entity Details ➤			
tax office subdivision name *	Tax Office Subdivision Name	Entity Details ➤			
signatory natural person name *	Signatory Details Name	Entity Details ➤			
signatory natural person surname *	Signatory Details Surname	Entity Details ➤			

A red dashed arrow points from the 'tax office name' field to a dropdown menu. The dropdown menu is open, showing a list of options. The option 'Specializovaný finanční úřad' is highlighted with a red box.

Dropdown menu options:

- Moravskoslezský kraj
- Středočeský kraj
- Specializovaný finanční úřad**
- Hlavní město Praha
- Kraj Vysočina
- Olomoucký kraj

13.1.2. Non- Numerical Box

On the Non-Numerical Boxes screen when the user selects **Specializovaný finanční úřad** as the Tax Office Name, then the Tax Office Code is automatically Populated with "4000".

The screenshot shows the 'Return Boxes' interface with the 'Non-Numerical Boxes' tab selected. The table below represents the data shown in the interface:

Section	Description	Values	Edit	Audit History
Date Reason For Amendment	The reasons for filing the additional tax return were determined on			
Period Change Code	Code of the tax period of the following the year			
Tax Office Name *	To the Tax Office for	Specializovaný finanční úřad		
Tax Office Code *	Tax Office Code	4000		
Tax Office Subdivision Name	Tax Office Subdivision Name			
Tax Office Subdivision Code	Tax Office Subdivision Code			

At the bottom of the screen, there are three buttons: 'CALCULATE RETURN BOXES', 'VIEW RETURN', and 'SEND FOR REVIEW'.

13.2. Germany (Annual VAT Return)

13.2.1. Numerical Boxes

When the user is viewing the Numerical boxes on the Return Review screen for returns for Germany from 2023 onwards, then the naming of the following boxes have been updated:

OLD	New
Row_98_net	Row_98_vat_Subsequently_removable
Row_99_net	Row_99_vat_Subsequently_removable
Row_100_net	Row_100_vat_Subsequently_removable

13.3. Edit Columns

When the user is on a VAT Related Return and clicks the Edit Columns button, then the **Transaction Intrastat Details** section is not displayed with options to add.

The screenshot shows a 'GRID FIELDS' dialog box with a search bar containing 'transaction'. The left pane lists various field categories with checkboxes. The right pane, titled 'Selected Columns (15)', shows a list of selected fields. The 'Transaction Details' category is expanded, showing 'Transaction Type' and 'Tax Transaction Code' as selected. The 'Transaction Invoice Details' and 'Transaction Original Values' categories are also visible but not expanded. The 'Apply to View' button is at the bottom right.

14. Spain (VAT)

14.1. New VAT Rates

New VAT Rates have been added which apply from **October 1st, 2024**.

When creating/editing a VAT Related Template and **Reduced** is selected for VAT Rate Code, then the **VAT Rate** drop-down includes:

- 10%
- 7.5%

The screenshot shows a web interface for configuring VAT settings for Spain. The 'JURISDICTIONS' dropdown is set to 'Spain'. The 'ENTITY CODE' dropdown is set to 'Entity code'. The 'TRANSACTION CATEGORY' dropdown is set to 'Distance sales'. The 'GOODS OR SERVICES' dropdown is set to 'Goods'. The 'VAT RATE CODE' dropdown is set to 'Reduced'. A red box highlights the 'VAT RATE' dropdown menu, which is open and shows two options: '10.00' and '7.50'.

When creating/editing a VAT Related Template and **Super-Reduced** is selected for VAT Rate Code, then the **VAT Rate** drop-down includes:

- 4%
- 5%
- 2%

The screenshot shows the same web interface as above, but with the 'VAT RATE CODE' dropdown set to 'Super-reduced'. A red box highlights the 'VAT RATE' dropdown menu, which is open and shows three options: '4.00', '5.00', and '2.00'.

14.2. Output Input Summary Scripts

From 01/07/2024, where amounts are populated in the following calculation boxes:

- 285
- 286
- 287
- 288
- 289

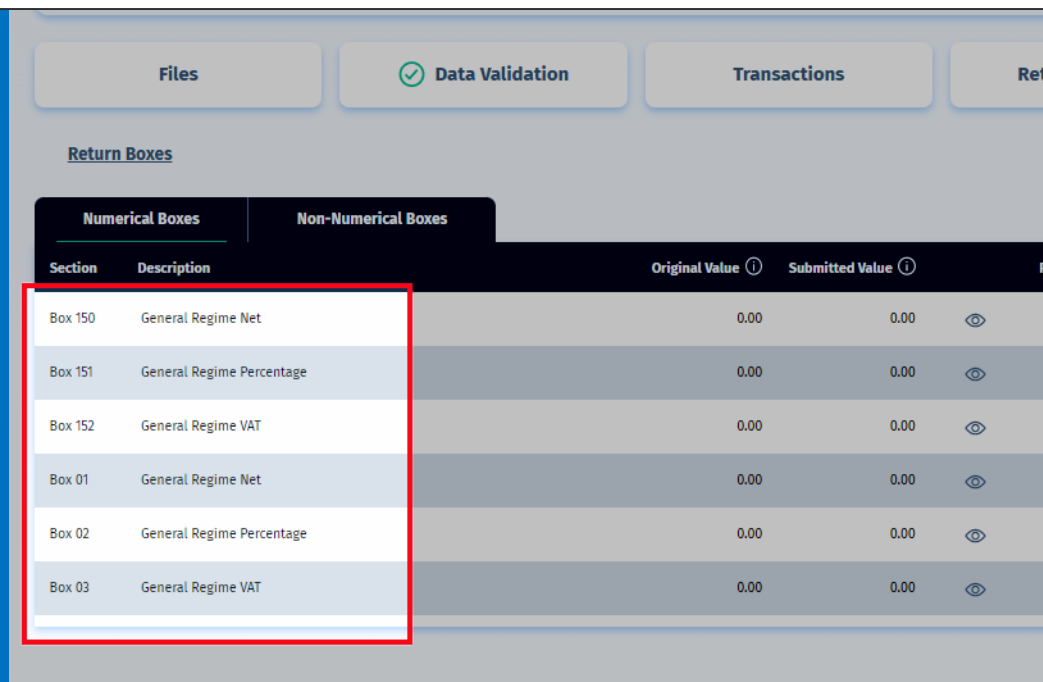

then the Output Input Summary Scripts have been updated to reflect this:

Output, NET Tax Position, Tax Payable, Tax Refundable, Balance Brought Forward and end-date as of 30-06-2024

14.3. Numerical Boxes

14.3.1. Ordering of Boxes

When preparing VAT Returns from 2023 onwards, the order of the Numerical Boxes has been updated and are calculated based on the calculation order.

Section	Description	Original Value ⓘ	Submitted Value ⓘ	
Box 150	General Regime Net	0.00	0.00	👁
Box 151	General Regime Percentage	0.00	0.00	👁
Box 152	General Regime VAT	0.00	0.00	👁

Box 02	General Regime Percentage	0.00	0.00	👁
Box 03	General Regime VAT	0.00	0.00	👁

14.3.2. New Numerical Boxes

When preparing VAT Returns from July 2024 onwards, new Numerical Boxes are displayed on the Return Review screen.

- Non Calculation Boxes will be displayed with a Pencil Icon.
- Calculation Boxes will not have a Pencil icon.
- Descriptions will display English and Local language for specific boxes.

Sample:

14.3.3. New Non- Numerical Boxes

When preparing VAT Returns from July 2024 onwards, the following new Non-Numerical Boxes are displayed on the Return Review screen:

- Rectificaciones
- Discrepancy

Section	Description	Values
Bank Address	Bank address	
City	City	
Country	Country	
Country Code	Country code	
Sepa Indicator *	SEPA Indicator	
Rectificaciones	Rectifications (except included in the following reason)	☐
Discrepancy	Administrative criteria discrepancy	☐

Default Values for these can be set at Entity level on the **Entity** Tab.

Section	Description	Sample Values	Overwrite Values	Edit
Country Code		Entity Details		
sepa indicator *	SEPA Indicator	Entity Details		
swift *	SWIFT-BIC	Entity Details		
iban *	IBAN	Entity Details		
Rectificaciones *	Rectifications (except included in the following reason)	☐	☐	
Discrepancy *	Administrative criteria discrepancy	☐	☐	

15. VIES

15.1. Associated Transactions

This applies to the following Jurisdictions only:

Austria, Belgium, Bulgaria, Czech Republic, Denmark, Estonia, Finland, France, Germany, Ireland, Lithuania, Luxembourg, Netherlands, Portugal, Slovakia, Sweden.

When the user Uploads a Data File/Manually adds Transactions to a VAT Return/Control List which includes the following transaction data:

- EUS (EU Supply)
- TRS (Triangulation) data with TBI Type Sale/Sale Credit

Then only these transactions are associated to the VIES Return. E.g. EUP (EU Purchase) or TRS with TBI Type Purchase/Purchase Credit transactions will not be associated.

15.1.1. Editing Tax Transaction Codes

Reclassifying Tax Transactions Codes.

- If the user is on the Transactions Tab and changes the transaction category to EUP or TBI Type to Purchase/Purchase credit, then there will be no association of these transactions to the VIES Return.
- If the user is on the Transactions Tab and changes the transaction from TRS Purchase to TRS Sale, and the Tax Code and Transaction Type are also changed together, then the changes will be associated to the relevant VIES return.

Please note: If these are not all changed together, then these changes will not be associated with the VIES return.

16. Annual Client Listing (Belgium)

The Annual Client Listing is available for Belgium, which means that when the user uploads their data, then the transactions are mapped to the List Sales box on the Return Review screen.

Return Review

[Return Boxes](#) English ☒ Local language

Numerical Boxes		Non-Numerical Boxes	
Section	Description	Original Value ⓘ	Submitted Value ⓘ
List Sales	List Sales	207.78	207.78

[VIEW RETURN](#)

16.1. Numerical Box List Sales

When the user is viewing the List Sales box, then the following List Columns are displayed:

- Line Number
- Customer VAT Number
- Tax Base Amount
- Tax Amount

DECLARATION DETAILS - List Sales Download Upload Info

Line Number	Customer VAT Number	Tax base amount	Tax amount
1	2248756	1013.97	60.84
2	2248758	601.15	72.14
3	2248760	356.18	74.80
4	2248762	537.71	0.00
5	2248764	5711.33	0.00
6	2248772	358.21	0.00
TOTAL NUMBER OF COMPLETED LINES : 6		8578.55	207.78

16.1.1. Grouped Rows

When the user is viewing the List Sales box and there are grouped transactions displayed, then only transactions where the Total of the **Tax Base Amount** equals or is higher than €250 are included.

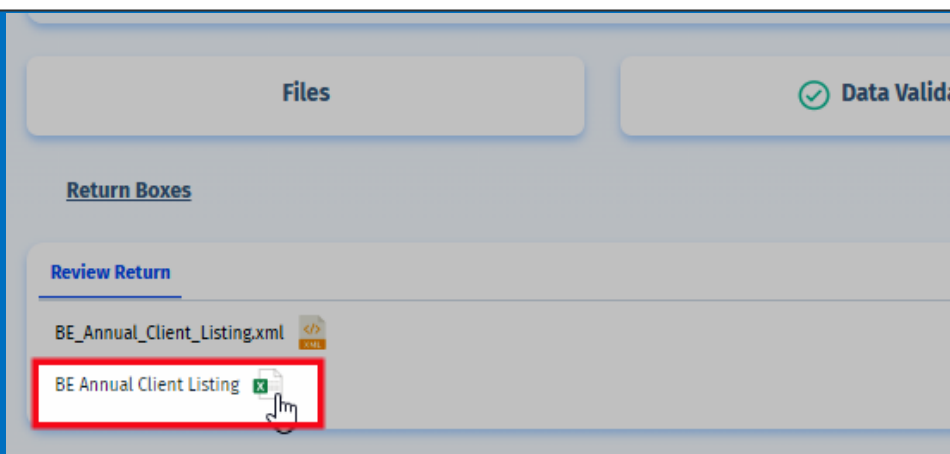

DECLARATION DETAILS - List Sales Download

Line Number	Customer VAT Number	Tax base amount
Filter by	Filter by	Filter by
2	3348760	250.00
4	2248756	1106.40

16.2. View Return Screen

When the user opens the View Return screen on the Annual Client Listing, then the Excel Template is available:

BE Annual Client Listing

16.3. NIL Returns

If the user has checked the **Non-Numerical Box “No Customers Annual List”** in the:

- Last periodic return
- First Quarter
- Periodic Returns for Jan/Feb/Mar

then the **IS Nil** toggle is automatically set to **ON** in the Annual Client Listing.

The screenshot displays the 'Return Boxes' section of the software. A red dashed arrow points from the 'No Customers Annual List' checkbox (which is checked) to the 'Is Nil Return' toggle in the 'Return 7752' modal. The modal shows the 'Is Nil Return' toggle is turned on (green).

Section	Description	Values
Quarter	Quarter of the Period	
Year *	Year of the Period (format YYYY)	2023
Refund Request	Refund request	☐
No Customers Annual List	No customers to be included in the annual client list	☒
Comment	Free Comment	

Jurisdiction	Entity	Type	Frequency	Period
Belgium	BE_VAT	Annual Client Listing	Annually	Jan-Dec 2023

Submission Type	Regular	Is Part of VAT Group	No	Output VAT	0 EUR	Tax Payable
Version	N/A	Is Nil Return	Yes	Input VAT	0 EUR	Tax Refundable
				Net Tax Position	0 EUR	Tax Refund Due Date
				Forecast Net Tax Position	0 EUR	Tax Refund

Please Note: If the user **Unticks** this option, then the IS NIL toggle in the Annual Client Listing is automatically **Deactivated**.

17. VAT Related Returns

17.1. Associated Transactions

17.1.1. VAT/VIES Returns

When preparing a VAT/VIES Return and the user manually adds a transaction then that transaction is automatically associated to the linked Annual VAT /Annual Client Listing (Belgium) Return.

In this situation and the Annual VAT Return/Annual Client Listing (Belgium) is on Data Due/To Review/To Approve/To Submit, then the status is changed to “To Prepare”.

17.1.2. Annual VAT Return/Annual Client Listing

When preparing an Annual VAT Return/Annual Client Listing (Belgium) and periodic VAT/VIES returns are also required, then the uploaded/manually added transactions are not associated to the VAT/VIES returns.

17.1.3. Editing Transactions

Where the user edits transactions in the VAT/VIES Return, then these changes are automatically associated in the Annual VAT Return/Annual Client Listing (Belgium), and the status is set back to To Prepare as required.

17.1.4. Self Revisions

Where the user is preparing a Self Revision (VAT/VIES) and performs either of the following:

- Edits a Transaction(s)
- Excludes a Transactions
- Send for Correction

The these are automatically associated and reflected in the Annual VAT Return/Annual Client Listing (Belgium).

17.2. Annual Client Listing

When the user Uploads a data file/manually adds transactions to the VAT Return/VIES Return, then only transactions with **TBI Category DSA (Domestic Sale)** are associated to the Annual Client Listing (Belgium).

18. Core Functionality

18.1. Data Validation

All Data Validation functionality is now available to the following user profiles at Return Level. This means when preparing returns and are navigated to the Data Validation tab, the following users' profiles can:

Client Admin/Client Standard User/, Staff Admin/Staff Standard User can:

- Can see Data Validation Detail View
- Can see Error Count Pop - up view
- Can see Warning Count Pop - up view
- Can see Error Fixed Pop - up view
- Can see Errors Accepted Pop -up view
- Can see Warning Fixed Pop - up view
- Can see Warning Accepted Pop -up view

Client Admin/Client Standard User/, Staff Admin/Staff Standard User with the user role Preparer/Reviewer on status To Prepare/To Review can:

- Can Edit/Accept Errors or Warnings
- Add Comments when Accepting the errors or warnings
