2.15. Hyperlink Changed for Login (VCCMVP-9906)	13
2.16. Powered by Taxback International included (VCCMVP-10310)	13

Overview

The following releases notes are a high level reflection of work completed during Fix Version 3.0.0. These include both client facing and back end updates.

1. VAT Groups

The following are updates to Comply as they relate to VAT Groups.

1.1. Members Leaving (VCCMVP-4062)

Description:

As a Comply Admin user and member of a VAT Group, if you leave a VAT Group all future unsubmitted VAT Group Returns will become returns of a standalone entity. This will allow easier filing for separate and not grouped returns.

1.2. Deregistration – Entity/Member of VAT Group (VCCMVP-5115)

Description:

As an Admin Staff/Client User, when a user deregisters an entity from a VAT Group then the **VAT Group Details>Part of a VAT Group?** automatically updates from **Yes** to **No** and the set **Is VAT Group Representative** updates to blank.

This means that system updates will be in line with the Deregistration of that Entity.

1.3. Deletion of Data Files – VAT Group (VCCMVP-5350)

Description:

As a Comply user, when a Data File for an Individual or VAT Calculation Return is deleted from a Consolidated Return the system removes these transactions. This ensures that the wrong transactions are not submitted.

1.4. Country Settings for Annual VAT Return – VAT Group (VCCMVP-7067)

Description:

As a Comply User, the **VAT Group Submission Type** for the **Annual VAT Returns** are seeded within Comply. This is displayed under the VAT Group Submissions in the VAT Group Details section on the Jurisdiction page and on the Return Details page.

This ensures that the user is aware how to submit the group's Annual VAT Group returns.

Navigation: *Jurisdiction Details > VAT Group Details > VAT Group > Germany/Ireland*

1.5. Submission Type Consolidated – VAT Group (VCCMVP-9466)

Description:

As a Comply user, there is an **Audit Log** in the **Consolidated Return** showing transactions associated from the **VAT Calculations**. This audit log is updated when there is a consolidated submission type for the VAT Group after which that data is uploaded to the VAT Calculations.

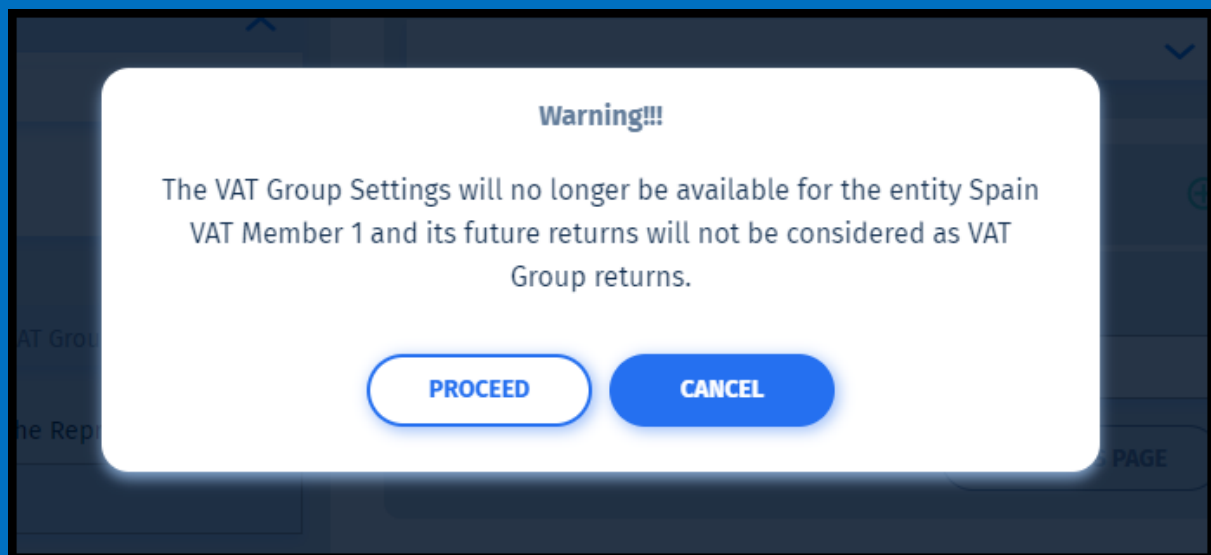

This makes it easier to understand which transactions were not uploaded by a user and have been automatically assigned from the system.

1.6. OnScreen Message for Member Leaving – VAT Group (VCCMVP-9853)

Description:

As a Comply user (**Admin**) and a member of a **VAT Group**, there is now an onscreen warning message when the **Is Part of VAT Group** is changed from **Yes** to **No**.

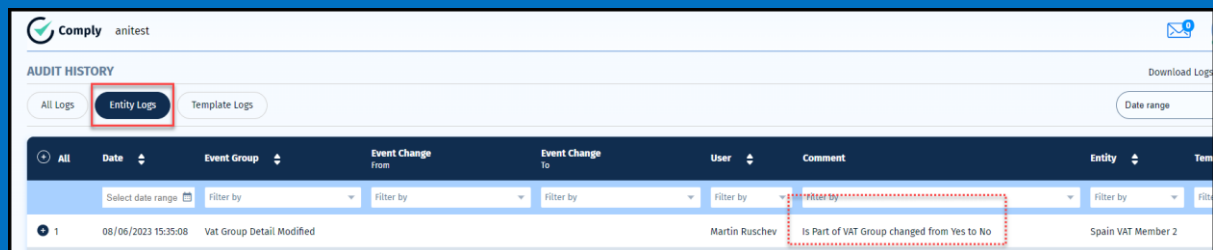

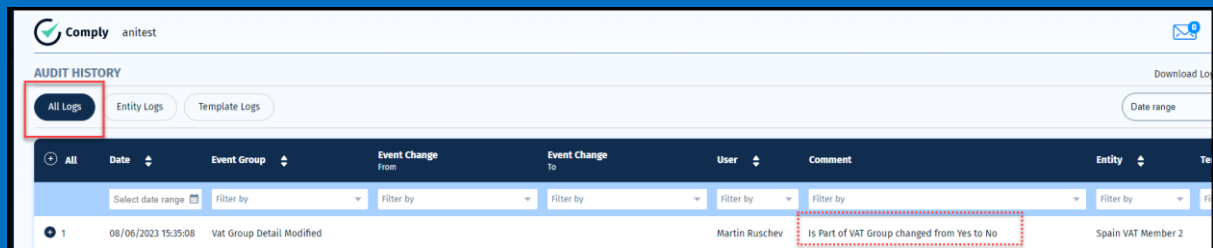

This action would create a standalone entity and the warning message is to keep Admin Users aware of these changes.

1.7. Audit Log for VAT Group Member Leaving (VCCMVP-9880)

Description:

As a Comply user, there is an Audit History log when the **Is Part of VAT Group** is changed from **Yes** to **No**. This maintains a record of all changes and when they were made.

2. WTS

The following are updates to Comply as they relate to WTS.

2.1. Remove Send to Review Button – WTS Partner (VCCMVP-8786)

Description:

As a Comply user (WTS Staff/Client), the **Send for Review** will no longer display in returns. This has been replaced with the **Send to Approve** on the status **To Prepare**.

This creates the required workflow which bypasses the **To Review** status.

For WTS, the Preparer does the Return Review and makes a note in the system once the review is finalised. This is then flagged as **Is Reviewed** in the TVATSTATUSOVERVIEW files for VAT and VIES Returns.

For VAT Returns, it is 1 if the review is completed and 0 if it is not. For VIES, it is 8, 10, or 14 if it is reviewed and 0 if it is not.

2.2. Templates Section Hidden (VCCMVP-8807)

Description:

As a Comply User (WTS Germany Partner Client & Staff), the **Templates** section is hidden from the navigation bar. This means users will no longer see functionalities they will not need to use.

2.3. Reviewer as User Role Hidden (VCCMVP-8953)

Description:

As a Comply User (WTS Client/Staff Admin), the user role **Reviewer** has been removed. This means that the user will only have relevant workflow roles will not need to assign the Reviewer role to any user.

2.4. Subdomain Created (VCCMVP-9002)

Description:

As a Comply User (WTS Germany & and its Clients), the prefix WTS has been added to the taxbackinternational domain name. This means that WTS Germany Partner users and its Clients users can login using this subdomain.

2.5. Comply Numerical Return Boxes Mapping (VCCMVP-9039)

Description:

As a Comply User (WTS Germany Staff), the final calculations for each Field ID sent with relevant data is populated in the numerical return boxes. This means that the returns will be completed and ready for client's approval.

2.6. Return Validation Removed (VCCMVP-9053)

Description:

As Comply User (WTS Germany Partner Client and Staff), the **Return Validation** tab is removed from returns so that any unnecessary functionality is not displayed.

2.7. Logo Hidden for Germany Users (VCCMVP-9203)

Description:

As a Comply User (WTS Digital Clients and Staff), the Taxback International logo above the navigation menu in Comply is no longer displayed.

2.8. Billing from the Navigation Menu Hidden (VCCMVP-9206)

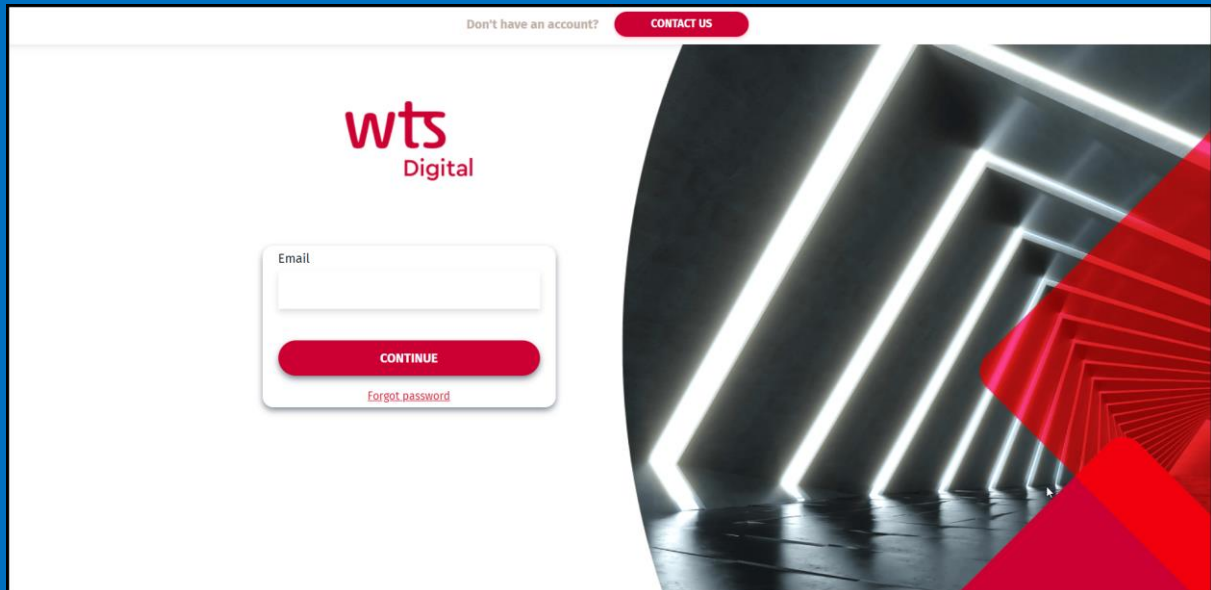

Description:

As a Comply User (WTS), the Billing section and the relevant subsection under Settings is hidden and unavailable. Options which are of no use to the user will no longer be an option.

2.9. Login Page Restyled (VCCMVP-9049)

Description:

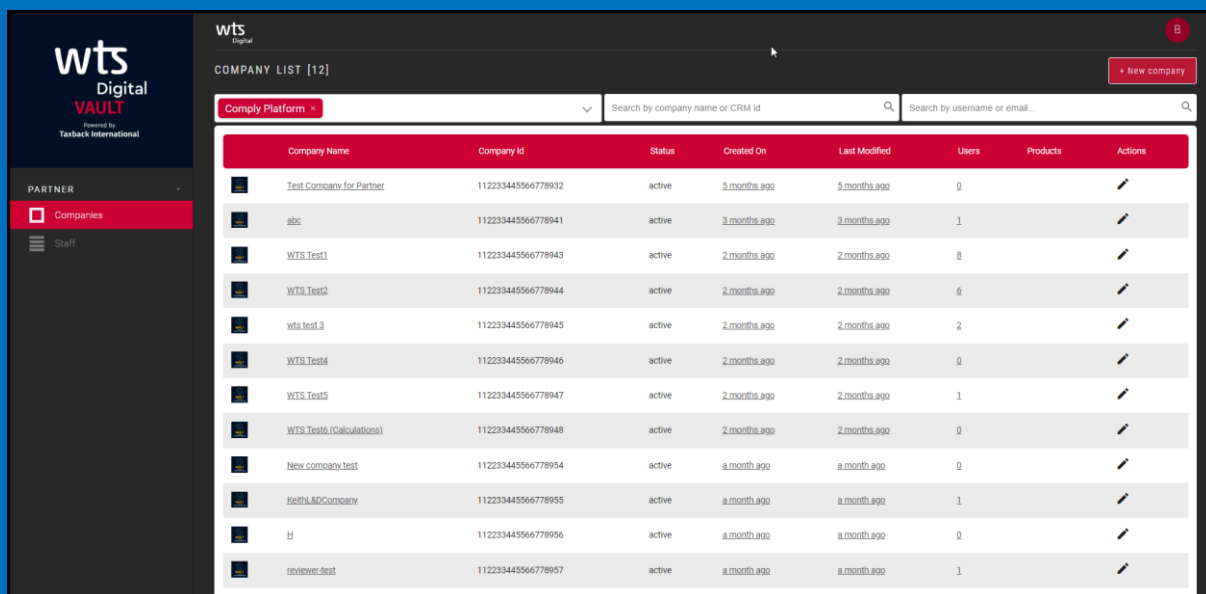

As a Comply User (WTS Germany Clients & Staff), the TBI Login page has been restyled. This is to ensure that the login matches all of the WTS Digital style guide requirements for logo, colours, fonts, etc.

2.10. Vault Page Restyled (VCCMVP-9054)

Description:

As a Comply User (WTS Germany Clients & Staff), the Vault landing page for Partners has been restyled. This is to ensure that the landing page matches all of the WTS Digital style guide requirements for logo, colours, fonts, etc.

2.11. Login Text Changed (VCCMVP-9076)

Description:

As a Comply user (WTS Digital Client & Staff), the text displayed in the pop-up window, which appears after clicking the **Contact Us** button on the Login Page, has been changed. This is to ensure the text does not refer to TBI Contacts or Client Engagement Desk.

2.12. Validation Rules Hidden (VCCMVP-9207)

Description:

As a Comply User (WTS Digital Client & Staff), the **Validation** rules from the navigation menu will no longer be displayed.

2.13. Restyled Pop Ups (VCCMVP-10595)

Description:

As a WTS user, the colour of buttons & text on pop ups which appear for different actions have been updated to reflect the WTS brand. This will occur for actions related to user accounts in Company – Users & Staff.

2.14. Notifications Switched Off (VCCMVP-10610)

Description:

As a WTS User, there are no longer notifications sent when the Data is due. These notifications are switched off so that users will no longer receive irrelevant emails. The data is instead uploaded to the SFTP server and not provided by Data Providers.

Please Note: Safeguards have been made for the reinstalment of these notifications at a later date, if necessary.

2.15. Hyperlink Changed for Login (VCCMVP-9906)

Description:

As a WTS user, the hyperlinks for the login page that are received with the email notifications for set up and password reset include the WTS subdomain. This means that the user can login from the link using the WTS subdomain.

2.16. Powered by Taxback International included (VCCMVP-10310)

Description:

As a WTS User, the sign **Powered by Taxback International 2023** (incl. a copyright symbol after 'Powered by') is centered in the footer of each page in Comply.
